No. 5403L S.-G.—The 1st December 1904.—In exercise of the powers conferred on him by section 36 of the Bengal Ferries Act, 1885 (Bengal Act I of 1885), the Lieutenant-Governor is pleased to delegate to Commissioners of Divisions in Bengal the following powers, conferred upon him by clauses (*a*), (*b*), (*c*) and (*f*) of section 6 of the said Act, namely:—

(1) to declare what ferries shall be deemed public ferries and the respective districts in which, for the purposes of the Act, such ferries shall be deemed to be situate;

(2) to take possession of a private ferry and declare it to be a public ferry;

(3) to establish new public ferries where, in their opinion, such ferries are needed; and

(4) to discontinue any public ferry which they deem unnecessary.

No. 5404Medl.—The 1st December 1904.—It is hereby notified for general information that the Lieutenant-Governor is pleased, in exercise of the powers conferred by section 69, clause (6) of Bengal Act III of 1884 and section 138, clause (*k*) of Bengal Act III of 1885, to make the following rules for the management of the charitable dispensaries and hospitals in Bengal in addition to the rules published under the notification dated the 5th January 1892 at pages 6 to 11, Part IB of the *Calcutta Gazette* of the 6th idem:—

Rules.

21A. Every member of a Managing Committee appointed under rule 21, clauses (*a*) and (*c*) of the Rules for the Management of Charitable Hospitals and Dispensaries, shall vacate his office at the end of three years from the date of his appointment as such member, and

Every member of a Managing Committee appointed under rule 21, clause (*b*) shall vacate his office when the term of office of the members of the local body by which the Committee is appointed expires.

Provided that the term of office of the members of the Committee shall be held to include any period which may elapse between its expiration and the date of the first meeting of a new Committee appointed to take its place.

21B. (1) A member of a Committee appointed under rule 21, clause (*a*) may at any time be removed from office by the Commissioner of the Division.

(2) A member of a Committee appointed under rule 21, clause (*b*) may at any time be removed from office by a Resolution passed by a majority of the members of the local body by which the Committee was appointed, or, for any of the reasons for which a member of the local body might be removed from office, by the authority empowered by law to remove such member.

(3) A member of a Committee appointed under rule 21, clause (*c*) may at any time be removed from office by the Commissioner of the Division at the request of the supporters or any of them, or by the Commissioner of his own motion for any of the reasons for which he might remove from office a Municipal Commissioner.

21C. If any member of the Committee shall be unable to complete his full term of office or shall avail himself of leave granted by the Committee, the vacancy caused by his resignation, or removal, or death, or absence on leave, may be filled up by the appointment of another person, and the person so appointed shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office, or during his absence on leave as the case may be.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Muzaffarpur, will be put up to sale at the Muzaffarpur Collectorate on the 22nd December 1904.

The purchasers will be subject to the following condition of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount exceed Rs. 100, one-fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.:

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 7, 1904.

NOTICES TO MARINERS.

THE following Notices are published for general information.

D. B. HORN,
Secretary, Marine Department.

CALCUTTA, *the 28th November 1904.*

AUSTRALIA—SPENCER GULF.

Approaches to Port Augusta considered dangerous.

No. 406 (first publication).—The President, Marine Board, Port Adelaide, has given notice (No. 14 of 1904) that a heap of Stone Ballast (discharged from the *Pass of Killiecrankie*) lies on the sand flat south of Yatala Harbour, with the beacon on Douglas Bank bearing S. W. and the South Hummock W.N.W.

The flat being dry at L.W.S., the ballast is well out of the navigable channel for ordinary vessels, but may be dangerous to small vessels going over the flats at H. W.

Approximate position, lat. 32° 47′ S., long. 137° 52′ 15″ E.

This affects Admiralty Charts 2389B and 401.

AUSTRALIA—INVESTIGATOR STRAITS.

Marion bay—A white (ship's mast-head) light to be exhibited.

No. 407 (first publication).—The President, Marine Board, Port Adelaide, has given notice (No. 15 of 1904) that at such times as a vessel is expected at Marion Bay a white (ship's mast-head) light will be exhibited from the jetty end, and will be visible about two (2) miles.

This affects Admiralty Chart No. 2389B.

BAY OF BENGAL—BURMA COAST.

Gulf of Martaban—The floating light-vessel Martaban to relieve light-vessel at the Baragua flats.

No. 408 (first publication).—The Principal Port Officer, Burma, has given notice dated 10th November 1904, that the floating light-vessel "Martaban" will temporarily relieve the present floating light-vessel at the Baragua Flats about the 5th December 1904.

The light to be exhibited about that date will be the same as at present.

INDIA, WEST—Bombay coast.

Rajpuri—Buoy replaced.

No. 409 (first publication).—The Bombay Government has given notice (No. 115 of 1904) that the Red buoy on the north side of the Whale Reef of Rajpuri Point at the entrance of the Janjira harbour, that had been removed for the South-West monsoon, was replaced on the 17th of October 1904.

CHINA—Yang Tse Kiang.

Kiu Toan light-vessel—Light altered.

No. 410 (first publication).—The British Admiralty has given notice (No. 1003 of 1904) that at about the beginning of October the Kiu Toan light-vessel, exhibiting a white flashing light, would be replaced by a light-vessel exhibiting a *white group occulting* dioptric light of the 4th order, showing groups of two occultations *every twenty seconds*, thus:—light, *twelve seconds;* eclipse, *two seconds;* light, *four seconds;* eclipse, *two seconds;* it would be elevated 30 feet above the sea, and visible in clear weather from a distance of 10 miles; the vessel is painted red, marked "Kiutoan" on the sides, and has one mast from which the light is exhibited

During thick or foggy weather a bell will be struck *twice* every *twenty seconds*, thus:—*stroke; silent interval, five seconds; stroke; silent interval, fifteen seconds.*

If the light-vessel is out of position, a red flag will be hoisted by day, and at night a *red fixed* light at each end of the vessel will be exhibited in place of the occulting light.

Approximate position, lat. 31° 13½′ N., long. 121° 48′ E.

This Notice affects the following Admiralty Charts:—Kueshan islands to Yang tse Kiang, No. 1199; approaches to the Yang tse Kiang, No. 1602; Also, List of Lights, part VI, 1904, No. 745; and China Sea Directory, vol. III, 1904, page 407.

NEW ZEALAND—Auckland.

Time signal established.

No. 411 (first publication).—With reference to Notice to Mariners No. 232, dated 27th June 1903, issued by this office, the British Admiralty has given further notice (No. 1011 of 1904) that the time ball formerly dropped from the yard arm of the Port Office flagstaff at Auckland has been discontinued.

Approximate position, lat. 36° 50½′ S., long. 174° 46′ E.

This Notice affects the following Admiralty Chart:—Auckland harbour, No 1970; Also, New Zealand Pilot, 1901, page 55; Supplement, 1903, pages 4, 5; and List of Time Signals, 1904, page 32.

AUSTRALIA—New South Wales.

Newcastle harbour—Decreased depth in entrance.

No. 412 (first publication).—The British Admiralty has given notice (No. 1014 of 1904) that a bar has formed across the entrance fairway to Newcastle harbour over which there is a depth, now, of 18½ feet at low water, each foot of rise or fall above this depth will be indicated from the Pilot Station.

The dredger *Jupiter* will be employed dredging this bar, and Mariners are requested to exercise great caution in passing her.

Approximate position, lat. 32° 55′ S., long. 151° 48′ E.

This Notice affects the following Admiralty Chart:—Newcastle harbour, No. 2119: Also, Australia Directory, vol. II, 1898, page 80.

PACIFIC OCEAN, SOUTH—Society islands—Tahiti.

Papeté harbour—Buoy and beacon withdrawn.

No. 413 (first publication).—The British Admiralty has given notice (No. 1019 of 1904) that the red buoy on the western side of the entrance into Papeté harbour, formerly situated about 5¾ cables S. 83° W. from Moto-uta island battery, has been withdrawn.

Also, that the black beacon, formerly situated on the southern end of the reef 3 cables S. 55° W. from Moto-uta battery, has been removed.

Approximate position, Moto-uta battery, lat. 17° 31½′ S., long. 149° 34′ W.

(*Variation 9° Easterly in 1904.*)

This Notice affects the following Admiralty Charts:—Papeté pass to Papenu pass, No. 1158: Also, Pacific Islands, vol. III, 1900, page 59; and Supplement, 1903, page 5.

JAPAN—YEZO, NORTH COAST.

Soya wan—Rocks.

No. 414 (first publication).—The British Admiralty has given notice (No. 1020 of 1904) of the existence of the undermentioned rocks in Soya wan:—

(1) A rock, with a depth of 1¾ fathoms over it, situated with Koitoi zaki (the point in the middle of the bay) bearing S. 12° W., distant 3¾ miles, and Wakkanai (cape Nosshar) light S. 73° W.

Approximate position, lat. 45° 28′ N, long. 141° 45′ E.

There is a rock, with a depth of 3 feet over it, 60 yards north-eastward of the above, and there are depths around it of from 1¾ to 2 fathoms.

(2) A rock, with a depth of 2½ fathoms over it, situated with Koitoi zaki bearing S. 1° E., distant one mile, and Wakkanai (cape Nosshar) light N. 75° W.

(*Variation 6° Westerly in 1904.*)

This Notice affects the following Admiralty Charts:—Kuril islands, No. 2405; gulf of Tartary, No. 3441; Yezo island, No. 452; Also, China Sea Directory, vol. IV, 1904, page 722.

JAPAN—SOUTH COAST.

Tanega sima, south-east point—Shoals.

No. 415 (first publication).—The British Admiralty has given notice (No. 1021 of 1904), of the existence of the undermentioned shoals off the south-east point of Tanega sima:—

(1) A shoal, marked by ripples, named Yokoze, with a depth of 3 fathoms over it.

Approximate position, lat. 30° 19′ 30″ N., long. 130° 59′ 40″ E.

(2) A shoal, marked by ripples, named Orize, with a depth of one fathom over it. This shoal breaks in any other than calm weather.

Approximate position, lat. 30° 18′ 30″ N., long. 130° 59′ 20″ E.

There are depths of from 25 to 33 fathoms between these shoals.

(3) A shoal, named Genzaburoze, with a depth of 2½ fathoms over it.

Approximate position, lat. 30° 16′ 40″ N., long. 130° 58′ 15″ E.

This shoal is about 7 cables in extent with general depths of 5 and 6 fathoms over it, and 10 fathoms around; it is usually marked by ripples, but breaks with any swell.

(4) A shoal, with a depth of 2½ fathoms over it.

Approximate position, lat. 30° 15′ 15″ N., long. 130° 57′ 30″ E.

There is another shoal head of 2¾ fathoms three-quarters of a mile to the southward of the 2½ fathoms. These two heads form part of a shoal named Nabewari sho, which is about one mile long in a north and south direction, and 4 cables wide; there are depths of from 12 to 18 fathoms around it, but shoal water, with varying depths, extends further to the southward; vessels should therefore give this shoal a berth of 10 miles in passing. There are ripples over this shoal in fine weather, but in bad weather the sea breaks over the shoaler heads.

The Native fishermen state that there are no other than the above dangers in this vicinity, it is considered therefore that the dangers marked on the Chart ⊢) ◡ P.D. shown at distances of 3½ and 5 miles respectively, south-eastward from South East rock, Tanega sima, do not exist, they have consequently been expunged from the Charts.

This Notice affects the following Admiralty Charts:—Japan, No. 2347; Amoy to Nagasaki, No. 2412; Also, China Sea Directory, vol. IV, 1904, page 296.

CHINA SEA—GULF OF SIAM.

Bangkok river entrance—Temporary light-vessel—Proposed beacons—Pilot vessel.

No. 416 (first publication).—The British Admiralty has given notice (No. 1040 of 1904), that a light-vessel, painted grey, having one mast with a black ball, and exhibiting two lights placed vertically, 6 feet apart, *red* over *white*, has been established at the entrance to the Bangkok river, at a distance of 10¾ cables S. 69° E. from the Bar light (*white occulting*).

The lights are of low power.

Also, that it is proposed to erect two beacons at distances of $2\frac{5}{10}$ miles N. 37° E., and $1\frac{1}{4}$ miles S. 31° E. respectively, from the Bar light. When these beacons are established, which will probably be in November, the light-vessel will be withdrawn.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 4056(Opium).- The 9th December 1904.—The following revised Notification is published in supersession of Notification No. 2814 (Opium), dated the 19th July 1904, published in the *Calcutta Gazette* of the 20th idem :—

It is hereby declared that a competitive examination for three appointments in the Opium Department will be held in February 1905. At this examination only such European and Eurasian candidates as have been nominated by the Lieutenant-Governors of Bengal and the United Provinces of Agra and Oudh, each of whom is authorised to make as many nominations as he considers necessary or desirable (those made by the Lieutenant-Governor of the United Provinces being subject to ultimate approval by the Lieutenant-Governor of Bengal), will be permitted to present themselves.

It must be clearly understood by competitors that the candidates who may be declared successful will not be entitled to obtain permanent appointments in the grade of Assistant Opium Agents, until permanent vacancies occur in that grade, nor until they have complied with the conditions of rule 12, but it is the intention of Government to appoint them at once to duty in the Department as Officiating Assistant Opium Agents on a salary of Rs. 200 a month each. If within two years of their appointment they succeed in passing the departmental examinations, and are well reported on, and there are no vacancies in the Department at the time, they will be allowed to draw Rs. 250 a month each from the date of passing such examinations; and on being subsequently appointed to substantive posts, they will be allowed to count service for promotion from the date on which they commenced to draw Rs. 250 a month. Pending such substantive appointments they will remain on a probationary footing and will have no claim to permanent appointments unless their work continues satisfactory.

The pay of officers of the Opium Department will rise, with length of service, according to the following scale and the rules governing service in that Department :—

Years of approved service.	Pay.
	Rs.
1, 2, 3, 4 (commencing from the date on which departmental examinations are completely passed).	250
5, 6, 7	300
8, 9, 10	350
11, 12, 13, 14	400
15, 16, 17, 18	500
19, 20, 21, 22	600
23, 24, 25, 26	700
27 and upwards (unless promoted to either of the higher grades of Sub-Deputy Opium Agent on Rs 900 and Rs. 1,000).	800

Promotion to the two highest grades of Sub-Deputy Opium Agent on Rs. 900 and Rs. 1,000 will be made by selection for ability and good service.

2. A certificate of health and physical fitness, signed by a covenanted medical officer in the form given in the margin, will be required from each candidate, who should also furnish a copy of his baptismal certificate, in the absence of which sufficient evidence as to age should be forwarded with the application for admission to the examination. No one whose age will be below 19 years on the 1st February 1905, or above 22 years on the 1st March 1905, will be permitted to appear.

I do hereby certify that I have examined Mr. , a candidate for employment in the Opium Department, and that he has no disease, affection, or bodily infirmity, and is, in my opinion, possessed of a robust constitution well fitted for the performance of the duties appertaining to such an appointment. His age is, according to his own statement, years and by appearance years.

Signature.
Description.
190

3. A certificate that the candidate is able to ride and is of active habits, signed by a District Magistrate or by a Presidency Magistrate or the Commissioner of Police, in the case of applicants residing in Presidency towns, should also be submitted.

4. Applications for nominations by the Lieutenant-Governor of Bengal, accompanied by the necessary certificates, must be sent to the Under-Secretary to the Government of Bengal in the Revenue Department, on or before the 1st January 1905 Such applicants as are granted nominations will receive an intimation to that effect, and be required to pay a fee of Rs. 20 before they can appear at the examination. The fee is payable to the Under-Secretary aforesaid.

5. The examination will be held in Calcutta; the date and place of the examination and the order in which the different subjects will be taken up will be notified hereafter to such candidates as are allowed to present themselves at the competition

6. The examination will be by written questions and answers and *viva voce*.

The subjects of examination and the number of marks to be allotted will be as follows:—

		Marks

III.—Optional—		
(10)	Latin (200) and French (150)	350
	or	
(11)	Botany (150) and Chemistry (150)	300

No text-books are prescribed for the different subjects, except for the subjects included in No. (11)—Botany and Chemistry. The text-books for these subjects are—

(*a*) Oliver's First Book of Indian Botany.
(*b*) Inorganic Chemistry, Theoretical and Practical, by W. Jago.

7. No books of any kind will be allowed at the time of examination.

8. Candidates who fail to obtain half the marks in each and all of the three subjects of the preliminary examination shall not be allowed to proceed further with the examination in the remaining subjects. The examination in the obligatory and optional subjects will not be held until the papers of the preliminary examination have been examined and marked, for which an interval of a day or two will ordinarily be allowed to the Examiners, and a list of the candidates successful in the preliminary examination will be published forthwith at the place of the examination.

9. In the obligatory subjects referred to above, each candidate must obtain at least one-third of the marks allotted to each paper to be considered to have passed in that paper; and he must also obtain half of the marks in the aggregate of the obligatory subjects. Should no candidate obtain the minimum of qualifying marks according to this standard, the appointment will be made by His Honour the Lieutenant-Governor of Bengal in such way as may be deemed proper.

10. Candidates will only be allowed to take up either, but not both, of the groups of the optional subjects, and the marks obtained will count towards the aggregate total.

11. Candidates who have complied with the conditions mentioned above will be placed in order of precedence according to the aggregate number of marks obtained by them in the preliminary, obligatory and optional subjects; and the appointments will be made accordingly.

12. Candidates appointed to the Opium Department after examination will be considered as probationers for the first two years of their service. The confirmation of a candidate in the Department will depend on his passing the departmental examinations and on the periodical reports submitted by the Opium Agents, showing the industry and intelligence with which he discharges his duties and his aptitude for service in the Department as displayed during the period of probation. He will be liable to be removed if he fails to pass all examinations within this period, or if his conduct is unsatisfactory and he is reported to be unfit for confirmation.

* Questions on these subjects may also include questions relating to the geography of these countries.

MR. A. B. SMART, Sub-Assistant Superintendent, second grade, Survey of India, is granted privilege leave for one month and fifteen days, with effect from 31st October 1904, under article 260 of the Civil Service Regulations.

R. T. CRICHTON, MAJOR, I.A.,
Superintendent of Provincial Surveys, Bengal.

GENERAL DEPARTMENT.

NOTIFICATION.

No. 3334.—The 13th December 1904.—The following notification, issued by the Government of India in the Department of Revenue and Agriculture, is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

No. 1258—47-8, dated Calcutta, the 6th December 1904.

NOTIFICATION—By the Government of India, Department of Revenue and Agriculture.

IN exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), the Governor-General in Council is pleased to direct that the additions hereinafter set forth below be made to the rules published with the Notification of the Government of India in the Department of Revenue and Agriculture, No. 94E., dated 18th March 1886, and subsequently amended, namely:—

I. To rule 182 the following sentence shall be added, namely:—

"Persons suffering from tubercle of the lung should also be isolated and the instructions in Colonial Form No. 56 should be followed."

II. In Chapter VI, before rule 191 the following rule shall be inserted, namely:—

"190A. The rules contained in Chapter V shall, in so far as they are applicable, be given effect to in the case of return voyages from the colonies. Especial attention is directed to rules 182 to 186."

III. In the first column of the second table in part (*a*) of Colonial Form No. 56, and in the first column of the table in part (*b*) of the same form, after the word "dysentery" the word "tuberculosis," and before the words "chest affections" the word "other" shall be inserted.

IV. On the reverse of the same form the following instructions shall be inserted, namely:—

"INSTRUCTIONS FOR THE GUIDANCE OF SURGEON-SUPERINTENDENTS IN DEALING WITH CASES OF TUBERCULOSIS.

A.—Isolation of patients.

1. Patients suffering from tubercle of the lung with cough or expectoration should be isolated and, so far as possible, be kept on the upper deck in the open air.

B.—Hospital or part of ship set apart for tuberculous patients.

2. Arrangements should be made to secure the freest possible ventilation in order that the air may be kept fresh; and all furniture which is not absolutely necessary should be removed.

3. Patients should not be allowed to spit on the floor or walls, or to use handkerchiefs or similar articles, but should be provided with a piece of lint, or other suitable material which can be burnt after use, and which they should be instructed to hold before the mouth during a fit of coughing. Properly constructed spittoons, or where these are considered more suitable, galvanised iron buckets, three-quarters full of water or of a disinfectant, should be provided.

4. All sputum from the receptacles above referred to should be thrown overboard daily under the supervision of a responsible person. The receptacles should be cleansed with boiling water to which soda has been added.

5. The vomit and evacuations should also be received in vessels containing disinfecting solution, and should then be thrown overboard.

6. All dishes and other utensils used for or by a patient should be plunged into boiling water after use. His bedding and clothing should be kept separate and disinfected after use.

7. The quarters occupied by infected emigrants should be daily washed out with a strong disinfecting solution.

8. Spots or stains on the floor and furniture should be washed with a strong disinfecting solution. Rubbing with a damp cloth should take the place of dry sweeping and dusting. The damp cloth so used should always be disinfected after use.

9. Persons attending cases of tuberculosis should be warned of the danger of infection, and of the necessity for washing their hands with soap and a disinfecting solution before eating. Such persons should spend as much time as possible in the open air, and should not remain night and day in the hospital.

C.—Disinfection of sputum and discharges.

10. The following solutions are recommended, namely:—

(*a*) Carbolic acid solution (1 in 20).

(*b*) Mercuric chloride solution (1 in 1,000).

The formula generally used is—

Bichloride of mercury	...	...	...	½ oz.
Hydrochloric acid ...	...	...	...	1 ,,
Commercial aniline, blue	...	...	...	5 grains.
Water	...	...	...	3 gallons.

N.B.—Solution (*b*) corrodes metals and is poisonous.

If the carbolic acid solution is used in spittoons, the quantity should be sufficient to cover the sputum.

D.—Disinfection of Clothing and Bedding.

11. Burning is the best method of disinfection; and all articles of little value should therefore be burnt.

12. Infected clothing and bedding should be boiled and subsequently washed with soap and water. Where this is done, soaking in a disinfecting solution is unnecessary; but the solution may sometimes be useful (*e.g.*, for the immediate disposal of some infected article of clothing).

In such cases either of the two solutions above prescribed may be used, and the article should be soaked in it for 24 hours or till it can be boiled.

E.—Disinfection of hospital and furniture.

13. All woodwork should be well scrubbed with soft soap and hot water, or washed with a solution of mercuric chloride (1 in 1,000). The walls and floors should be similarly treated."

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

No. 5705S.R.—The 12th December 1904.—In supersession of the Notification No. 2890S.R., dated the 2nd May 1900, published in Part 1, page 459 of the *Calcutta Gazette* of the 9th May 1900, the following revised rules regarding the remuneration of Wharf Officers under the Collector of Customs, Calcutta, for holiday and overtime work having been approved by the Lieutenant-Governor, are published for general information:—

Rules for working on Sundays, holidays and after hours.

1. No work shall be allowed on Sundays, New Year's Day, Good Friday, Christmas Day, and the King's birthday.

2. On each application for work on general holidays, when the Jetty, Custom House, or Budge-Budge gates and sheds are to be opened for the benefit of a single individual or firm, a fee of Rs 10 shall be levied from the merchant or the owner of the goods concerned, which will be divided equally between the Wharf Supervisor and the Wharf Officer employed under such application for work on those days between 9 A.M. and 6 P.M.

A fee of annas 8 per diem shall also be levied and paid to each jamadar, peon, koyal, or tallyman, who may be employed under the application for work on those days between 6 A.M. and 6 P.M.

3. On each application for overtime work (*i.e.*, work after 6 P.M. and before 9 A.M. on general holidays, or after 6 P.M. and before 6 A.M. on other week days), a fee of Rs. 2 per hour shall be levied from the merchant or the owner of the goods concerned, which will be divided equally between the Wharf Supervisor and the Wharf Officer employed under such application; a fee of annas 4 per hour shall also be levied for each jamadar and peon required for work between 6 P.M. and 6 A.M. either on holidays or other week days.

4. When circumstances require the employment of additional Wharf Officers, as, for example, in the Custom House baggage godown on the arrival of a large number of passengers, an additional fee of Rs. 5, under rule 2, and of Re. 1, under rule 3, shall be levied for every officer so employed.

A fee of annas 8, under rule 2, shall also be levied for each jamadar, peon, koyal, or tallyman required, and a fee of annas 4, under rule 3, for each jamadar and peon required.

5. On occasions when the Port Commissioners apply to have the Jetty gates kept open on general holidays for the convenience of the general public, Government will pay a holiday fee for work between the hours of 9 A.M. and 6 P.M. at the rates prescribed for private persons in rule 2, subject to a maximum, in the case of the Wharf Supervisor, of Rs. 15 per diem.

6. For every hour in excess of 9 on which an officer works between 6 A.M. and 9 A.M., either on general holidays or on week days, Government will pay him an overtime fee of Re. 1, provided that no such fee will be paid unless the officer has worked for a total of 54 hours in the week, or for a number of hours equal to nine times the number of days on which he had been at work during free-time during the week.

7. No charge will be made for completing the delivery of a consignment when the time required does not exceed five minutes beyond office hours. If the time required for completing such delivery exceeds five minutes, the full fee for one hour will be charged.

8. The fees for overtime and holiday work, which are to be paid by the merchant or the owner of the goods concerned, must accompany each application, on receipt whereof, the Wharf Supervisor shall issue the order to take up the work.

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3 The sale shall commence at the hour of 11 A.M., of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the opium advertised for sale; No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1903-1904, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 3483M.—The 7th December 1904.—Whereas a Notification No. 2229T.—M., dated the 1st October 1904, was published at page 222, Part IB of the *Calcutta Gazette* of the 5th October 1904, declaring the intention of the Lieutenant-Governor to extend the provisions of section 241 of the Bengal Municipal Act III of 1884 to the Suri Municipality in the district of Birbhum, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Suri Municipality made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality.

Birbhum.

No. 3501M.—The 8th December 1904.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, and in accordance with the recommendation of the Commissioners of the Barisal Municipality in the district of Backergunge, made at a meeting, to extend the provisions of Part IX of the said Act to the area specified below of the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

Backergunge.

The area is bounded—

On the North—By an imaginary line, drawn parallel at a distance of 800 feet (running from east to west—from Saistabad Road on the east to Lakutia Road on the west) to the north of the whole length of the roads called Shaw Road and Kawnia Road.

On the West—By the Lakutia Road up to the point towards north, where the western end of the aforesaid northern boundary meets, and from the junction of the Lakutia and Madhabpasha Roads up to 500 feet towards the west of the Madhabpasha Road, and from thence by an imaginary line drawn towards the Jhalakathi Road on the south parallel, at a distance of 500 feet west along the West Bogura and Allkanda Roads, with a bend, west to eastward, at the junction of the West Bogura and South Bogura Roads.

On the South—By an imaginary line from the bridge called "John Battye," direct towards the east up to the Barisal river, and from the said bridge towards the west, the khal called "Halderbari khal" up to 800 feet, and thence again by an imaginary line towards the north-western direction, joining the Jhalakathi Road where the western boundary line meets.

On the East—By the Barisal river.

No. 3503L.S.-G.—The 8th December 1904.—In exercise of the powers conferred on him by section 6, clause (*b*) of the Bengal Ferries Act I of 1885, the Lieutenant-Governor is pleased to take possession of the following private ferries in the district of Nadia, and to declare them to be public ferries:—

SARAN COLLECTORATE, the 10th December 1904.

KSHIRODE CHANDRA SEN, *for* Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Muzaffarpur, will be put up to sale at the Muzaffarpur Collectorate on the 22nd December 1904.

The purchasers will be subject to the following condition of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

E. V. LEVINGE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government to the undermentioned estates, situate in the district of Hooghly, will be sold by public auction, subject to the conditions specified below, at the Hooghly Collectorate on the 21st December 1904, corresponding to 6th Pous 1311 B.S.

Conditions of Sale.

1st.—Each estate is to be sold to the highest bidder above the upset price as per Schedule given below. The purchasers of these estates will be registered as the proprietors of the estates, and the entire proprietary right of Government will be transferred to them, subject to the payment of a revenue fixed in perpetuity.

2nd.—The sale is to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers are to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount is to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate is to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

NOTICES TO MARINERS

THE following Notices are published for general information.

D. B. HORN,
Secretary, Marine Department.

CALCUTTA, *the 6th December 1904.*

AUSTRALIA—CURTIS CHANNEL.

Breaksea Spit—Reported alteration in soundings on the north.

No. 417 (first publication).—The Portmaster, Brisbane, has given notice (No. 18 of 1904) that Captain Sharp, of the cable steamer *Iris*, reports considerable alterations in the soundings north from Breaksea Spit, having found much deeper water than shown on the chart, and that the 100-fathom line is further to the westward than shown.

Pending resurvey, Masters of vessels are cautioned not to rely on soundings to aid in determining their position when in that locality.

Chart affected, No. 345; Australia Directory, Vol. 2.

INDIA, WEST—MALABAR COAST.

Calicut roadstead—Shoal patch reported.

No. 418 (first publication).—The Bombay Government has given notice (No. 117 of 1904) that a shoal patch is reported in the roadstead of Calicut in a position from which the Conolly Hill bears N.-E. and Calicut old light-house bears N. 80° E.

(The bearings given are true.)

This Notice affects the following Admiralty Charts:—Sacrifice Rock to Beipur, No. 64; India, West Coast, Sheet IX; Mount Dilli to Calicut, No. 747; also est Coast of Hindustan Pilot, 1898, page 135.

EASTERN ARCHIPELAGO—JAVA, EAST COAST.

Surabaya—Decreased depth on reef.

No. 419 (first publication).—With reference to Notice to Mariners, No. 331, dated 30th September 1904, issued by this office, the British Admiralty has given further notice (No. 1057 of 1904) that a recent examination of the reef marked by a white conical buoy, in Surabaya roadstead, situated at a distance of 2 miles S. 51° W. from Kamal Point, shows that the least depth over it is 14 feet, and not 3 fathoms as previously stated.

Approximate position, lat. 7° 11½′ S., long. 112° 42′ E.

This Notice affects the following Admiralty Chart:—Surabaya strait, No. 934: also Eastern Archipelago, part II, 1893, page 143; and Supplement, 1899, page 16.

AUSTRALIA—Spencer gulf.

Approaches to Port Angusta considered dangerous.

No 406 (second publication).—The President, Marine Board, Port Adelaide, has given notice (No. 14 of 1904) that a heap of Stone Ballast (discharged from the *Pass of Killiecrankie*) lies on the sand flat south of Yatala Harbour, with the beacon on Douglas Bank bearing S. W. and the South Hummock W.N.W.

The flat being dry at L.W.S., the ballast is well out of the navigable channel for ordinary vessels, but may be dangerous to small vessels going over the flats at H. W.

Approximate position, lat. 32° 47′ S., long 137° 52′ 15″ E.

This affects Admiralty Charts 2389[B] and 401.

AUSTRALIA—Investigator straits.

Marion bay—A white (ship's mast-head) light to be exhibited.

No. 407 (second publication).—The President, Marine Board, Port Adelaide, has given notice (No. 15 of 1904) that at such times as a vessel is expected at Marion Bay a white (ship's mast-head) light will be exhibited from the jetty end, and will be visible about two (2) miles.

This affects Admiralty Chart No. 2389[B].

BAY OF BENGAL—Burma coast.

Gulf of Martaban—The floating light-vessel Martaban to relieve light vessel at the Baragua flats.

No. 408 (second publication).—The Principal Port Officer, Burma, has given notice dated 10th November 1904, that the floating light-vessel "Martaban" will temporarily relieve the present floating light-vessel at the Baragua Flats about the 5th December 1904.

The light to be exhibited about that date will be the same as at present.

INDIA, WEST—Bombay coast.

Rajpuri—Buoy replaced.

No. 409 (second publication).—The Bombay Government has given notice (No. 115 of 1904) that the Red buoy on the north side of the Whale Reef of Rajpuri Point, at the entrance of the Janjira harbour, that had been removed for the South-West monsoon, was replaced on the 17th of October 1904.

CHINA—Yang Tse Kiang.

Kiu Toan light-vessel—Light altered.

No. 410 (second publication).—The British Admiralty has given notice (No. 1003 of 1904) that at about the beginning of October the Kiu Toan light-vessel, exhibiting a white flashing light, would be replaced by a light-vessel exhibiting a *white group occulting* dioptric light of the 4th order, showing groups of two occultations *every twenty seconds*, thus :—light,

twelve seconds; eclipse, *two seconds;* light, *four seconds;* eclipse, *two seconds;* it would be elevated 30 feet above the sea, and visible in clear weather from a distance of 10 miles; the vessel is painted red, marked "Kiutoan" on the sides, and has one mast from which the light is exhibited

During thick or foggy weather a bell will be struck *twice* every *twenty seconds*, thus:—*stroke; silent interval, five seconds; stroke; silent interval, fifteen seconds.*

If the light-vessel is out of position, a red flag will be hoisted by day, and at night a *red fixed* light at each end of the vessel will be exhibited in place of the occulting light.

Approximate position, lat. 31° 13½′ N., long. 121° 48′ E.

Newcastle harbour—Decreased depth in entrance.

No. 412 (second publication).—The British Admiralty has given notice (No. 1014 of 1904) that a bar has formed across the entrance fairway to Newcastle harbour over which there is a depth, now, of 18⅛ feet at low water, each foot of rise or fall above this depth will be indicated from the Pilot Station.

The dredger *Jupiter* will be employed dredging this bar, and Mariners are requested to exercise great caution in passing her.

Approximate position, lat. 32° 55′ S., long. 151° 48′ E.

This Notice affects the following Admiralty Chart:—Newcastle harbour, No. 2119: Also, Australia Directory, vol. II, 1898, page 80.

PACIFIC OCEAN, SOUTH—Society islands—Tahiti.

Papieté harbour—Buoy and beacon withdrawn.

No. 413 (second publication).—The British Admiralty has given notice (No. 1019 of 1904) that the red buoy on the western side of the entrance into Papieté harbour, formerly situated about 5¾ cables S. 83° W. from Moto-uta island battery, has been withdrawn.

Also, that the black beacon, formerly situated on the southern end of the reef 3 cables S. 55° W. from Moto-uta battery, has been removed.

Approximate position, Moto-uta battery, lat. 17° 31½′ S., long. 149° 34′ W.

This Notice affects the following Admiralty Charts:—Papieté pass to Papenu pass, No. 1158: Also, Pacific Islands, vol. III, 1900, page 59; and Supplement, 1903, page 5.

JAPAN—Yezo, north coast.

Soya wan—Rocks.

No. 414 (second publication).—The British Admiralty has given notice (No. 1020 of 1904) of the existence of the undermentioned rocks in Soya wan:—

(1) A rock, with a depth of 1¾ fathoms over it, situated with Koitoi zaki (the point in the middle of the bay) bearing S. 12° W., distant 3¾ miles, and Wakkanai (cape Nosshar) light S. 73° W.

Approximate position, lat. 45° 28′ N, long. 141° 45′ E.

There is a rock, with a depth of 3 feet over it, 60 yards north-eastward of the above, and there are depths around it of from 1¾ to 2 fathoms.

(2) A rock, with a depth of 2½ fathoms over it, situated with Koitoi zaki bearing S. 1° E., distant one mile, and Wakkanai (cape Nosshar) light N. 75° W.

(*Variation 6° Westerly in 1904.*)

This Notice affects the following Admiralty Charts:—Kuril islands, No. 2405; gulf of Tartary, No. 3441; Yezo island, No. 452; Also, China Sea Directory, vol. IV, 1904, page 722.

JAPAN—South coast.

Tanega sima, south-east point—Shoals.

No. 415 (second publication).—The British Admiralty has given notice (No. 1021 of 1904), of the existence of the undermentioned shoals off the south-east point of Tanega sima:—

(1) A shoal, marked by ripples, named Yokose, with a depth of 3 fathoms over it.

Approximate position, lat. 30° 19′ 30″ N., long. 130° 59′ 40″ E.

(2) A shoal, marked by ripples, named Orize, with a depth of one fathom over it. This shoal breaks in any other than calm weather.

Approximate position, lat. 30° 18′ 30″ N., long. 130° 59′ 20″ E.

There are depths of from 25 to 33 fathoms between these shoals.

(3) A shoal, named Genzaburoze, with a depth of 2½ fathoms over it.

Approximate position, lat. 30° 16′ 40″ N., long. 130° 58′ 15″ E.

This shoal is about 7 cables in extent with general depths of 5 and 6 fathoms over it, and 10 fathoms around; it is usually marked by ripples, but breaks with any swell.

(4) A shoal, with a depth of 2½ fathoms over it.

Approximate position, lat. 30° 15′ 15″ N., long. 130° 57′ 30″ E.

There is another shoal head of 2¾ fathoms three-quarters of a mile to the southward of the 2½ fathoms. These two heads form part of a shoal named Nabewari sho, which is about one mile long in a north and south direction, and 4 cables wide; there are depths of from 12 to 18 fathoms around it, but shoal water, with varying depths, extends further to the southward; vessels should therefore give this shoal a berth of 10 miles in passing. There are ripples over this shoal in fine weather, but in bad weather the sea breaks over the shoaler heads.

The Native fishermen state that there are no other than the above dangers in this vicinity, it is considered therefore that the dangers marked on the Chart ⊢) ◡ P.D. shown at distances of 3½ and 5 miles respectively, south-eastward from South East rock, Tanega sima, do not exist, they have consequently been expunged from the Charts.

This Notice affects the following Admiralty Charts:—Japan, No. 2347; Amoy to Nagasaki, No. 2412; Also, China Sea Directory, vol. IV, 1904, page 296.

CHINA SEA—Gulf of Siam.

Bangkok river entrance—Temporary light-vessel—Proposed beacons—Pilot vessel.

No. 416 (second publication).—The British Admiralty has given notice (No. 1040 of 1904), that a light-vessel, painted grey, having one mast with a black ball, and exhibiting two lights placed vertically, 6 feet apart, *red* over *white*, has been established at the entrance to the Bangkok river, at a distance of 10⅜ cables S. 69° E. from the Bar light (*white occulting*).

The lights are of low power.

Also, that it is proposed to erect two beacons at distances of $2\frac{9}{10}$ miles N. 87° E., and 1¼ miles S. 31° E. respectively, from the Bar light. When these beacons are established, which will probably be in November, the light-vessel will be withdrawn.

The Pilot Vessel is now situated at a distance of $2\frac{1}{10}$ miles S. 28° E. from the Bar light.

Approximate position of Bar light, lat. 13° 28¾′ N., long. 100° 34′ E.

RESOLUTION REVIEWING THE DIVISIONAL REPORTS ON THE WORKING OF THE DISTRICT BOARDS IN BENGAL DURING THE YEAR 1903-1904.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 8th December 1904

RESOLUTION—No. 3511L.S.-G.

READ—

The Reports from the Commissioners of Divisions on the working of the District Boards in Bengal during the year 1903-04.

Read also—

The Resolution reviewing the Divisional Reports on the working of the District Boards in Bengal during the year 1902-03.

The provisions of the Bengal Local Self-Government Act III of 1885 were extended originally to 16 districts, and six months later to 22 districts, so that on the 1st March 1887 the Act was in force in 38 districts. In 1900-01 the Act was extended to all the districts of the Chota Nagpur Division except Singhbhum, and the total number of District Boards in the Province is now 42. The fact that the Local Self-Government Act is now under amendment gives a convenient opportunity for a review of some of the branches of the Boards' Administration since their commencement, and for a comparison of the results achieved in the last completed year of working with

hose of earlier years. It may be explained here that when the comparison is made with any year prior to 1900-01 the figures taken for both the years compared are those of 38 District Boards only.

2. The area controlled by the District Boards in 1889-90 was 109,391 square miles, with a population of 57,185,307. Forty-two District Boards now control an area of 133,110 square miles, with a population of 68,181,003. The number of Local Boards remained unchanged during the year 1903-04. The Sadar Local Board at Chapra in the district of Saran was abolished, but a new Local Board was established at Gobindpur in the district of Manbhum. Two Union Committees were established at Aurangabad and Choa in the district of Murshidabad, and one was abolished at Binkar in the same district, the net result being an increase of one.

3. *Constitution of District Boards.*—The total membership of the Boards and the proportion of elected to nominated members is practically unchanged since the Boards were first constituted. It is satisfactory to observe that the total number of meetings held has risen from 448 in 1889-90 to 593 in 1903-04 and the average attendance from 8·98 to 11·4. The number of meetings which proved abortive or were adjourned for want of a quorum was 51 against 114 in 1892-93, the earliest year for which the figures are available.

The variations in the figures for the past year when compared with those of the year 1902-03 are trifling, but there was a slight improvement in the attendance of non-official members. In respect of the number of meetings, the District Board of Puri shows the highest, 29; then follow Monghyr and Bhagalpur with 21 meetings each and Faridpur with 20, while 19 meetings were held by the District Boards of Murshidabad, Bogra and Purnea. On the other hand in Hooghly the Board held only 11 meetings and in Nadia only 10, while the District Boards of Manbhum and Hazaribagh met only 8 and 7 times. In all cases the same explanation is given that the amount of business was not sufficient to justify more meetings. The number of meetings which had to be adjourned or proved abortive for want of a quorum was 54 against 49; of these, six were in Jalpaiguri, the reason given being a want of interest among the mufassal members. The average attendance at each meeting was highest in Murshidabad (20·1) and lowest in Jalpaiguri (5·6).

4 *Constitution of Local Boards.*—Originally Local Boards were established in all districts where there were subdivisions, except Champaran, Dinajpur, Jalpaiguri, Chittagong, Noakhali and the districts of the Chota Nagpur Division. The total number of Local Boards thus established was 106. Subsequently Local Boards were created in Dinajpur, Jalpaiguri, Noakhali and Manbhum; but, owing to the abolition of the Local Boards in the Sadar subdivisions of Gaya, Darbhanga, Muzaffarpur and Saran, and of those in the Barrackpore, Dum-Dum and Lalbagh subdivisions, the number now stands at 104. Since the end of the year the Barrackpore Local Board has been re-established.

The total membership of 106 Local Boards was 1,203 in 1889-90, and of 104 Local Boards 1,248 in 1903-04. The number of elected members has fallen from 435 to 353, while the number of those nominated has risen from 713 to 842. This reduction in the number of elected members is partly due to the abolition of the Barrackpore and Dum-Dum subdivisions, but the principal cause is the failure of elections in many districts. Since 1890-91, when the high water mark was touched, there has been a steady increase in the number of elections that have failed, and the interest in them seems to be declining.

The total number of meetings held increased from 788 in 1889-90 to 1,257 in 1903-04, while the percentage of meetings which proved abortive or were adjourned for want of a quorum to the total number decreased from 18·8 in 1892-93 to 13·3 in 1903-04. There has therefore been substantial improvement in this respect. On the other hand, the average attendance at meetings is no better, the figure for 1903-04 being 5·8 against 5·7 in 1889-90.

The largest number of meetings (24) was held by the Sadar Local Board of Faridpur. Only three meetings were held by the newly-established Local Board at Gobindpur in Manbhum. It is said that the colliery managers who compose the majority of the Board plead the distance of their collieries from Gobindpur

as the cause of their non-attendance, and that on more than one occasion it was necessary to make Dhanbaid the place of meeting in order to secure a "quorum." In the Sadar Local Board of Rajshahi 9 meetings out of 15 proved abortive for want of a quorum, 8 out of 11 in the Nator Local Board and 8 out of 21 in the Sadar Local Board of Jessore. The average attendance at a meeting was highest in the case of the Sadar Local Board of Midnapore (10·8) and lowest in the case of the Meherpur Local Board in Nadia (2·06).

5. *Elections.*—The election of members of the Sadar Local Board in the Garhbeta thana, in the district of Midnapore, fell due during the year, but the electors failed to send up nominations in time and the vacancies were filled up by appointments by Government. General elections were held in Mymensingh, Backergunge, and Patna. In Mymensingh the elections were contested in six and failed in three out of nineteen thanas, while in Backergunge all the ten thana elections were successful. In Patna the election of members of the Bihar Local Board was marked by serious irregularities, and second elections had to be held in three thanas.

6. *Powers of Local Boards.*—The only power which has been delegated to all Local Boards is the care and maintenance of village roads. The great majority of Local Boards have been entrusted with the charge of pounds and a considerable majority have charge of ferries. Powers of varying extent with regard to primary education have been made over in a large number of cases, and in a few instances delegation has been made of the control of dispensaries, sanitation and the maintenance of district roads. The connection of the Local Boards with secondary education has been entirely severed. During the year certain changes were made in the powers exercised by Local Boards, but they are not of great importance.

7. *Union Committees.*—Of the 58 Union Committees in Bengal, none is of older date than 1895. In area they vary from 1·25 to 50 square miles, and in population from 4,004 to 35,555. They have all been entrusted with the maintenance of village roads, and some of them have been given powers in respect of pounds and sanitation and the inspection of primary schools. The total number of members is 468. During the year there was an increase of ten in the number of meetings held.

The total income of these bodies was Rs. 22,067 against Rs. 22,812, but this reduction was entirely due to a diminution of the opening balance as compared with 1902 03, and there was an actual increase of Rs. 277 in the current income. The total expenditure was Rs. 18,361 against Rs. 17,877 in 1902-03, being an increase of Rs. 484, and the closing balance was reduced from Rs. 4,935 to Rs. 3,602. Nineteen Union Committees, including all those in Murshidabad district, expended the whole amount placed at their disposal, and eighteen expended nearly the whole amount. No work was done and no expenditure incurred by the Union Committee at Binodpur in Jessore, which has since been abolished, or by any of the Union Committees in the Orissa Division, which for two years have been in a state of quiescence and can hardly be said to exist. The Khulna Unions are again favourably reported on, and some improvement has been observed in the Burdwan Division. Generally considered, the results are rather better than those of the previous year; but it cannot be said that there has been any marked increase in efficiency. During the whole period of their history only three Unions have exercised their powers under section 118 of the Local Self-Government Act, and the total sum raised was only Rs. 339, of which Rs. 220 was raised by the Union Committee at Balagore in the district of Hooghly. The supervision exercised by Local Boards is reported to be generally ineffective, and in the Local Self-Government Bill now before the Bengal Council provision has been made for placing the Union Committees directly under the control of the District Boards.

8. *Financial results.*—The District Boards commenced the year with an opening balance of Rs. 23,20,470. Their income amounted to Rs. 84,02,888, the expenditure to Rs. 83,23,188, and the year closed with a credit balance of Rs. 24,00,170, of which Rs. 2,11,736 was due to deposits, and not at the disposal of the Board.

The following table compares the principal heads of income and expenditure (1) of 38 District Boards for 1903-04 and 1889-90, the first year in which

the Boards were in complete working order; and (2) of 42 District Boards for the years 1902-03 and 1903-04:—

INCOME.

9. *Provincial rates (Rs. 44,78,981).*—Up to the year 1894-95 interest on arrears of road cess was included under this head, so that an exact comparison cannot be made for any earlier year. The total income of the Boards from this source has risen from Rs. 35,60,402 in 1894-95 to Rs. 42,82,518 in 1903-04, which gives an average annual increase of Rs. 80,235. The largest increase occurred in the Dacca Division, where it amounts to as much as 53 per cent., but this is mainly due to the raising of the rate at which the cess is levied in Backergunge from one pice to half-an-anna in the year 1895. On the other hand, there has been no increase at all in the Chittagong Division, and in the Districts of Chittagong and Noakhali there has been an actual decrease.

A detailed examination of the figures shows that the incidence of the cess per head of the population is highest in the Patna Division (1 anna 4 pies) and lowest in the Orissa Division (7 pies), the average for the Province (excluding the Chota Nagpur districts) being one anna. The average incidence of the rate per square mile is Rs. 38-15-4 for 38 districts, and varies from Rs. 54-10-1 in the Patna Division to Rs. 17-13-3 in Orissa. It is at once apparent that some

districts are much more heavily taxed than others. In Patna the tax rises as high as Rs. 102-1-5 per square mile, and 2 annas 4 pies per head of the population, while in Dacca it is only Rs. 29-13-11 per square mile and 6 pies per head. On the whole, if Backergunge and the Metropolitan Districts are left out of account, Bihar is much more heavily taxed than Bengal.

10. *Interest* (*Rs. 43,696*).—The difference in the figures of 1903-04 compared with those of 1889-90 is due to the fact that up till 1894-95 interest on arrears of road cess was shown under Provincial rates. The increase of Rs. 2,936 since 1902-03 is entirely due to the heavy arrear collections of road cess in the Chota Nagpur Division.

11. *Police* (*Rs. 4,93,423*).—Under section 52, clause (3) of the Local Self-Government Act, the receipts under the Cattle Trespass Act, 1871, form one of the assets of the District Fund, and, in order to secure that administrative control should accompany financial responsibility, the control of the pounds was conferred on the District Boards. Sir Steuart Bayley, in recording the first Resolution on the working of the Boards, stated that he could not doubt that with judicious management the Boards had in the pounds a very fertile source of revenue. This anticipation has unfortunately not been fulfilled. The estimated income of the pounds which was taken into account in the financial settlements with the Boards has increased by only 13 per cent. in 17 years. The inelasticity of this source of revenue is most disappointing and has seriously hampered the educational and medical work of the Boards. Such increase as has occurred has been, moreover, most unevenly distributed. An examination of the figures of the last 16 years shows that in half the districts the income has decreased, while in half it has increased. The district which has been most fortunate is Jalpaiguri, where the average income has been Rs. 15,423 against Rs. 6,145 at which it was estimated. The increase is also large in Dinajpur (Rs. 6,030), Bhagalpur (Rs. 5,857), Mymensingh (Rs. 5,790), Gaya (Rs. 3,960), and Malda (Rs. 3,295). On the other hand in Purnea the average income has only been Rs. 46,894 against the estimate of Rs. 50,559, and in Midnapore, Pabna, and Dacca the average receipts have been less than the estimate by Rs. 3,356, Rs. 3,594, and Rs. 3,331, respectively. It is by no means easy to explain either these variations or the extraordinary differences in the incidence of the pound revenue in the various districts.

One possible explanation is decisively negatived by the figures; for they show that mere multiplication of pounds does little to improve the income. While the number of pounds has risen from 3,121 in 1890-91 to 4,311 in 1903-04, an increase of 38 per cent., the income has only risen 12 per cent., and the average income per pound has fallen from Rs. 156-1-1 to Rs. 109-7-1. In Nadia, where there is one pound to 11·3 square miles, the income is Rs. 13-7-7 per square mile, but in Muzaffarpur, where there is one pound to 16·8 square miles, it is only Re. 1-14-9. In Purnea with 49·7 square miles to each pound the income per square mile is Rs. 10-2-5; in Saran with 48 square miles to each pound it is only Re. 1-15-1. In the Rajshahi Division with 21·7 square miles to each pound the income is Rs. 5-15-6 to the square mile, and in Chittagong with 19·9 square miles to each pound only Rs. 2-14-4.

Probably no single explanation can be given of these remarkable differences. The decline of the indigo industry has sometimes been suggested as a possible explanation of a falling pound revenue, but the figures do not support this. A more probable explanation is that in some districts the fines for cattle trespass are paid to the zamindar instead of to the District Board to a greater extent than in others. This is a question which should receive attention in all districts where the pound receipts are low or decreasing. It will probably be found that much can be done to improve the revenue by careful and judicious administration. That the revenue does not receive proper attention in some districts is shown by the large outstanding balances. In the district of Dacca the outstanding balance amounts to the large sum of Rs. 9,272 or more than the whole income of the year. Apparently the whole of this sum has been embezzled by the pound and ferry clerk. The balances are also unduly high in the districts of Midnapore (Rs. 4,215), Howrah (Rs. 2,070), Puri (Rs. 1,365), and Manbhum (Rs. 1,395). In all these cases the balance amounts to more than 25 per cent. of the year's income, and in Howrah

it is more than 80 per cent. The Commissioners of the Divisions concerned should give the matter their attention. With regard to Manbhum, it is reported that no determined efforts to realise pound rents appear to have been made of recent years, and thus many demands come nearly to be barred by limitation. A portion of the arrears will have to be written off, as the payments were apparently misappropriated by the late Accountant. This is a state of affairs which is far from creditable to the District Board.

12. *Education* (*Rs. 89,351*).—The income under this head has increased by Rs. 59,827 when compared with the estimate on which the original settlement was based and by Rs. 54,234 when compared with the year 1889-90. Since the latter year the income from school fees has more than doubled. The decrease of Rs. 7,485 since 1902-03 occurred only under the sub-head "Contributions," and is explained by the fact that last year a large Government grant for primary education in the district of Rangpur was shown as a contribution under Education, while this year it has been shown under its proper head "Contribution from Provincial to Local." All the other sub-heads show an increase.

13. *Medical* (*Rs. 65,312*).—The receipts show an increase of Rs. 64,917 as compared with the original settlement, and of Rs. 57,592 as compared with the receipts of 1889-90. The increase is largest under the head "Contribution," and is mainly attributable to larger subscriptions from the public. The rise of Rs. 13,859 since 1902-03, is attributable mainly to the recovery from the Gaya Municipality of Rs. 8,800 out of a contribution of Rs. 10,000 given by the District Board for plague preventive measures.

14. *Scientific and other Minor Departments* (*Rs. 20,584*).—The income under this head has increased by Rs. 17,681 as compared with 1889-90. Of this sum Rs. 7,872 is attributable to public exhibitions and fairs and Rs. 5,521 to veterinary receipts. Of the increase of Rs. 9,262 compared with 1902-03, Rs. 5,169 is due to the transfer of Government contributions for veterinary purposes from "Contribution from Provincial to Local" to "Contribution" under this head. There has also been a large increase in the receipts under "Public Exhibitions and Fairs" in the Dacca district, and a widespread increase under "Veterinary."

15. *Miscellaneous* (*Rs. 1,95,330*).—The receipts have risen by Rs. 52,221 since 1889-90, the increase occurring mainly under the sub-head "Miscellaneous, including fees, fines and forfeitures." Of the decrease of Rs. 18,455 since 1902-03, Rs. 10,069 occurred under the sub-head "Sale of old stores and materials." The large unexplained decrease of Rs. 10,520 in Shahabad is chiefly under this sub-head.

16. *Irrigation, Minor Works and Navigation* (*Rs. 20,131*).—There was an increase of Rs. 2,028 under this head as compared with 1902-03, which was entirely due to the improvement of the receipts from the Halifax Canal in Jessore caused by keen competition amongst the bidders.

17. *Civil Works* (*Rs. 14,22,441*).—The receipts under this head decreased by Rs. 4,71,889; but the fall occurred only under the sub-head "Contributions," under which are shown grants made by Government and private individuals for the construction of particular works. No special reason is assigned for the fluctuations. The only other sub-head of importance is that of "Tolls on Ferries." In the original settlements ferries were handed over, of which the annual income was estimated to be Rs. 2,96,076, to enable the Boards to meet the charges which had been devolved on them. It was anticipated, however, that the revenue from this source would be an expanding one, and that taken along with the increased income from pounds it would enable the District Boards to meet the normal increase of the Medical and Educational expenditure. In the case of ferries this anticipation has been largely fulfilled, and since the year 1889-90 the receipts have increased steadily. The extension of the Railway system of the Province frequently involves a loss of ferry income to the District Boards, but on the other hand the acquisition of private ferries has enabled many District Boards to increase their resources under this head. In 1903-04 the total receipts from this source amounted to Rs. 5,04,412 against Rs. 2,84,164 in 1889-90. Some districts have been more fortunate than others, but while the income has fallen off in only seven districts it has risen in thirty-one. The only districts in which

the average income over a period of years has been continuously less than the settlement figure are Burdwan, Howrah, Patna, Shahabad, Saran, and Puri, while the increase has been very marked in the districts of the 24-Parganas, Khulna, Jalpaiguri, Rangpur, Mymensingh, Chittagong, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, and Cuttack. The variations in the figures of the last two years call for no special remarks.

18. *Contributions* (*Rs. 10,53,195*).—Column 70 "Contribution from Provincial" is intended to show only the fixed assignment given to District Boards to equalize the income and expenditure made over to them, and the contributions for roads and communications in Government estates. The latter, which amounted to Rs. 56,298, were at first intended to be settled once for all, and were included in the fixed assignments, but under orders issued in 1900 they now vary from year to year according to the actual collections. The original assignments made to 38 District Boards amounted to Rs. 3,99,293, and since then annual grants amounting to more than five lakhs have been made from time to time to the Boards, chiefly for the improvement of primary education and the employment of additional Sub-Inspectors of Schools. The total assignments to these District Boards, excluding the grants for improvement of communications in Government estates, now amount to Rs. 8,84,055. The increase of Rs. 4,67,172 as compared with 1902-03 is due to the fact that the large grants for the improvement of education given in the year 1902-03 could not be drawn during the year or were only drawn for a part of the year.

19. *Deposits and Advances* (*Rs. 4,44,640*).—The receipts under this head fell from Rs. 14,31,742 in 1902-03 to Rs. 4,44,640. The decrease indicates no real decline, but is due to the fact that Government grants for expenditure on Imperial and Provincial Public Works which are carried out by the District Boards, as the agents of Government, no longer appear under this head, but are excluded entirely from the District Fund accounts. A separate account of such grants is now submitted to the Examiner of Public Works Accounts.

EXPENDITURE.

20. *Administration* (*Rs. 3,11,396*).—The expenditure under this head has increased from Rs. 2,58,533 in 1889-90 to Rs. 2,99,177 in 1903-04. The charges on account of office establishment have risen by Rs. 20,039 and those for office contingencies by Rs. 45,001. The percentage of expenditure under these two sub-heads to the total expenditure was 3·1 in 1889-90 and 3·3 per cent. in 1903-04. Under "Payment of establishment of Offices of Account, Control and Audit" there has been a decrease of Rs. 24,396, which is due to a change in classification. Sums paid on account of the cost of establishment of offices of account or control were transferred in 1897-98 to "Contribution to Provincial," audit fees only being now shown under "Administration." The increase of Rs. 10,439 since 1902-03 calls for no special remark.

21. *Police* (*Rs. 28,416*).—The expenditure under this head has increased by Rs. 5,212 when compared with the estimated expenditure at the time of the settlement. The increase of Rs. 4,264 as compared with 1902-03 is due partly to the appointment of two travelling inspectors of pounds and ferries in Midnapore and a pound inspector in Howrah, and partly to a larger outlay on the construction of pounds.

22. *Marine* (*Rs. 8,216*).—The expenditure under this head represents subsidies to private steamer services, and is incurred only by four District Boards, namely, Pabna, Noakhali, Tippera and Malda. There was a decrease of Rs. 1,622 which was chiefly due to the discontinuance of the subsidy to the Noakhali-Barisal steamer service on the opening of the railway from Noakhali to Laksam.

23. *Education* (*Rs. 18,19,584*).—The estimate of the educational expenditure on which the settlements with the Boards were based amounted to Rs. 10,10,665. The actual expenditure of these Boards was Rs. 10,04,140 in 1889-90 and Rs. 16,95,258 in 1903-04, so that the expenditure has increased by Rs. 6,84,593 when compared with the settlement figures and by Rs. 6,91,118 when compared with the actuals of 1889-90.

The details of the figures are interesting. Under "Inspection" there is an increase of Rs. 1,48,121, under "Maintenance and Management" a decrease of Rs. 1,26,986, and under "Grants-in-aid" an increase of Rs. 6,23,818, while

"Scholarships" have increased from Rs. 704 in 1889 90 to Rs. 32,296. The number of schools maintained by District Boards and the number of pupils attending them have not varied appreciably, but it is otherwise in the case of aided schools. Compared with the figures of 1890-91, the number of high schools has increased from 5 to 13 and the number of pupils attending them from 266 to 1,931. On the other hand, the number of middle schools has fallen from 1,011 to 928, while the number of pupils has risen from 57,999 to 60,919. Upper primary schools are now 3,967 against 2,789 and the pupils 1,75,336 against 97,297, while lower primary schools are 32,835 against 32,801, and the number of pupils 8,93,014 against 7,05,908.

These figures show that the Boards have been able to reduce their expenditure on the maintained schools without reducing their number, thus setting free large sums for expenditure on aided schools. In the case of the latter the increase of expenditure has been very great. Much of it is, however, due to the special grants given by Government for the first time in 1902-03 for the improvement of primary education There has been a distinct increase in high schools, middle schools have been stationary, a great improvement has been made in the case of upper primary schools, while lower primary schools have not advanced so much as might have been expected. The progress in female education is particularly gratifying. The number of girls attending upper primary schools has risen from 817 to 5,767, and of those attending lower primary schools from 20,558 to 84,923. Mere numbers are of course an insufficient index of progess, but the increase of expenditure on "Inspection" points to a real gain in efficiency.

24. The expenditure on "Education" has increased from Rs. 17,47,945 in 1902-03 to Rs. 18,19,584 in 1903-04. The largest increase is under "Inspection" amounting to Rs 55,694, and is caused by the fact that additional Sub-Inspectors of Schools employed for only a part of the year 1902-03 were entertained for the whole of the year 1903-04. Educational expenditure increased in 23 districts and decreased in 19. The largest increase amounting to Rs. 45,507, which occurred in Midnapore, is attributed mainly to the fact that the rewards for 1902-03 could not be paid before the end of the year. The variations elsewhere are not important.

The number of Sub-Inspectors employed by District Boards increased by 9, and the number of inspecting pandits decreased by one. The number of aided high schools fell from 16 to 13, the decrease occurring in the districts of Tippera and Saran. The number of aided upper primary schools rose from 3,909 to 4,101, and the number of pupils from 166,191 to 181,347; while in the case of lower primary schools there was a rise of 2,263 in the number of schools and of 77,611 in the number of pupils. The number of girls attending upper primary schools increased by 1,576, and of those attending lower primary schools by 25,173. The year appears to have been marked by distinct progress in primary education throughout the Province, and the new system of granting a quarterly subsistence allowance to *pathsala gurus* with an additional allowance at the end of the year, if certain tests are satisfied, is reported to have produced good results. The Commissioner of Burdwan remarks that the liberal grant made by Government for the advance of primary education has evidently infused a spirit of improvement in those schools. The Commissioner of Bhagalpur draws attention to the noticeable advance in female education in Purnea where the number of girls' schools rose from 10 to 50, although there was not a school in the district three years before. Fortunately this is not an isolated instance, for improvement in female education is reported from many districts.

25. *Special Schools.*—In the encouragement of technical and industrial education the lead was taken by the District Board of Rangpur, where a technical school was founded in January 1888. The school has been a successful one, and still holds the foremost place in respect of the number of its pupils. The example of Rangpur was followed in succession by the District Boards of Backergunge (1890-91), Midnapore and Purnea (1891-92), Pabna (1892-93), and Burdwan and Mymensingh (1893-94). A sericultural school at Rampur Boalia (founded in 1897) and an artizan school at Comilla (founded in 1890) may also be ranked in the same class. All these schools, with the exception of the Barisal Technical School, which was amalgamated in 1901-02 with the local zilla school and is managed by a Joint Committee, are maintained and

managed by the District Boards. A school of carpentry opened at Sonarpur in the 24-Parganas (1893), a technical school established at Noakhali (1893-94), and an industrial school at Bankura proved failures and had to be abandoned. At present seven industrial schools with 303 pupils are maintained by District Boards.

Several District Boards provide scholarships or contribute for the training of students in the Sibpur Engineering College or the Bihar School of Engineering. Other District Boards have granted scholarships to students in the sericultural school at Boalia. In Midnapore a seri-agricultural school has been established at Sabang by the leading men of the locality, in order to revive the moribund silk industry, and a monthly grant-in-aid of Rs. 30 has been made by the District Board. The Nadia District Board propose to undertake a pottery school, or to inaugurate an industry with the help of the student who was sent at their expense to the Bombay School of Art. The District Board of Bhagalpur has two stipendiaries on Rs. 10 each a month learning brazier's work at the Jaipur School of Arts. In the Chota Nagpur Division there are seven aided industrial schools with 173 pupils, in which carpentry and blacksmith's work are taught.

26. *Industrial development.*—In 1901 the attention of the District Boards was drawn to the fly-shuttle loom and the advantages to the weaving industry to be derived from its use. The Boards were asked to take measures to make known the improvement in the districts and instruct the local weavers in its use. Efforts have actually been made in this direction by 25 District Boards. In most cases two weavers and a carpenter were sent to be trained at Serampore and, after receiving a course of instruction, returned to their district, where they were employed to train the local weavers. In Chittagong the experiment has been successful and the improved loom is appreciated by the people and is coming into use. In Manbhum also some ground has been gained. The progress hitherto made has not been great, for the fly-shuttle is still a novelty in most places (in a few districts looms of this pattern were in use before), and the natural conservatism of the industry is loth to accept reforms which are contrary to tradition. In many cases also poverty prevents the adoption of the improved loom, for the weavers are poor and are unwilling or unable to incur the initial expense of purchase. This obstacle, however, seems likely to be removed From Darbhanga it is reported that the difficulty as to the high price of the improved fly-shuttle looms was overcome by adapting the fly-shuttle to the ordinary country looms. The outturn obtained from these modified looms is said to have been almost equal to that of the framed fly-shuttle looms, *i.e.*, nearly three times that of the ordinary looms in vogue in the district, while their cost scarcely exceeded that of the country looms. If this is so, a real advance has been made and much more rapid progress may be expected. The Commissioner of the Division will be asked to submit a full report to Government on this improvement, so that the results may be communicated to other District Boards.

27. *Medical* (*Rs. 4,09,277*).—The estimated expenditure on medical objects taken into account in the original settlement with District Boards was only Rs. 2,244, this sum representing the outlay to be incurred on eight dispensaries transferred to seven District Boards. It was expected however, that the pound and ferry revenue made over to the Boards would prove sufficiently elastic to enable them to provide for the medical needs of the districts. The actual expenditure on strictly medical objects, *i.e.*, on "General Medical Establishment" and "Hospitals and Dispensaries" amounted in 1889-90 to Rs. 32,073, while in 1903-04 it had risen to Rs. 3,16,075. The number of dispensaries maintained is now 189 and the cost of maintenance Rs. 1,77,070, and in addition 213 dispensaries received contributions amounting to Rs. 1,44,210.

The expenditure on the same objects has risen by Rs. 4,857 since 1902-03. A decrease of Rs. 12,366 in Backergunge is accounted for by the non-presentation of claims by the Accountant-General, Bengal, for the value of medicines supplied from the Government Medical Store Depôt. The expenditure in the 24-Parganas nearly doubled owing to the establishment of two new dispensaries and the appointment of a Lady Doctor at Basirhat. The heavy increase in Noakhali is attributed to the adjustment of a large amount on

account of European medicines. The total number of dispensaries maintained rose from 180 to 194, and of those aided from 222 to 227. The District Board of Backergunge, besides maintaining 35 and aiding 7 dispensaries, provided 19 panchayats with medicine-chests.

28. *Sanitation (Rs. 32,380).*—The expenditure under this head shows an increase of Rs. 16,143 compared with 1902-03, which is mainly due to the inclusion of payments amounting to Rs. 12,600 made by the District Boards of Rajshahi and Pabna for the preparation of a drainage scheme. Twenty-two District Boards show no expenditure under this head, but the reports do not show whether this is due to a difference in the objects on which money is spent, or to a want of uniformity in classifying expenditure.

The Sadar and Dinapore Local Boards in the district of Patna continued the work of cleansing insanitary villages. In the former 95 villages and in the latter 10 were cleansed at a cost of Rs. 676 and Rs. 196, respectively. It is reported that further progress has been made in the direction of village sanitation in these subdivisions by the employment, in the larger villages, of sweepers who are placed under a respectable resident. Something has been done in other districts to give a trial to the Patna system by selected Local Boards, but sufficient experience has not yet been obtained to render it possible to decide how far the experiment has been successful. Meanwhile, Commissioners of Divisions have been asked to consider whether legislation on the lines of the Central Provinces Village Sanitation Act might not be useful in Bengal, specially in large villages in the vicinity of railway stations.

29. *Veterinary Charges (Rs. 23,286).*—The Veterinary Department is a plant of very recent growth in the case of District Boards, no expenditure having been incurred on veterinary objects by any District Board prior to the year 1897-98, although something was done to encourage cattle and horse breeding. In that year five District Boards expended Rs. 1,912 against Rs. 17,006 spent by 22 District Boards in 1902-03 and Rs. 23,286 by 25 District Boards in 1903-04. Veterinary dispensaries are now maintained by 14 District Boards. Three District Boards grant subsidies to municipal veterinary dispensaries, and itinerant Veterinary Assistants are employed by 12 District Boards. The progress of the Department has been rapid, and there is reasonable ground for expecting that the work will continue to develop in the future, although the sums which the Boards have at their disposal for such purposes are necessarily limited. During the year outbreaks of rinderpest and cattle disease occurred in Hooghly, Midnapore, Khulna, Mymensingh, Backergunge and Cuttack, and the Veterinary Assistants were able to do something towards checking the spread of the disease. Scholarships in the Bengal Veterinary College, Belgachia, were given by the District Boards of the 24-Parganas, Gaya, Hooghly and Bhagalpur.

The District Board of Birbhum maintain a dairy at Suri, and have opened a branch at Rampore Hât. It is reported that a sum of Rs. 2,716 was spent on the dairy, and that the receipts from the sale of milk and butter amounted to Rs. 1,422. The objects of the institution are to improve the breed of cattle by selling calves, and to supply pure milk to the public. The experiment is an interesting one, and the example may not improbably be followed in other districts.

30. *Civil Works (Rs. 48,72,292).*—The total expenditure under this head was Rs. 46,34,062 in 1903-04 against Rs. 38,42,381 in 1889-90, the increase amounting to Rs. 7,91,681. This is mainly accounted for by a rise of Rs. 5,59,150 under the sub-head "Communications—Original Works," the expenditure on which has risen from Rs. 11,29,862 to Rs. 16,89,012, while under "Communications—Repairs" the expenditure is practically stationary, amounting to Rs. 19,19,161 in 1889-90 against Rs. 19,43,547 in 1903-04. The expenditure on "Establishment and Contingencies appertaining to Civil Works" has risen by Rs. 1,35,413 from Rs. 5,57,345 to Rs. 6,92,758, and the percentage of this to the total expenditure on "Civil Works" from 14·5 to 14·9.

The increase of Rs. 2,75,458 since 1902-03 is shared by six Divisions (Burdwan, Presidency, Rajshahi, Patna, Bhagalpur and Orissa) and is largest in the Patna Division where it amounted to Rs. 1,66,680. The expenditure under the sub-head "Communications—Original Works" has risen in every Division, except Rajshahi and Chota Nagpur, and in the Patna Division the rise

amounted to Rs. 1,80,908. The increase appears to be due chiefly to increased expenditure on railway feeder roads.

31. *Water-supply and Water-works (Rs. 1,35,285).*—The expenditure on water-supply and water-works has risen from Rs 20,960 in 1889 90 to Rs. 1,32,194 in 1903-04. Only nine Boards, Burdwan (Rs. 5,402), Birbhum (Rs. 6,071), Jessore (Rs 5,613), Dacca (Rs. 7,090), Mymensingh (Rs. 18,020), Faridpur (Rs. 6,410,) Backergunge (Rs. 5,474), Shahabad (Rs. 7,872) and Bhagalpur Rs. 9,260) spent as much as Rs. 5,000 on water-supply, but in the case of the two last-named Boards the sum spent includes contributions of Rs. 4,000 and Rs. 5,000, respectively, to the local municipality for the maintenance of the water-works. Nothing at all was spent in Muzaffarpur, and the expenditure was below Rs. 1,000 in the districts of Murshidabad, Dinajpur, Jalpaiguri, Tippera, Chittagong. Ranchi, and Palamau. The low expenditure in Murshidabad is explained by the existence of the Lalgola Trust Fund, under which the interest of a sum of Rs. 1,00,000 is expended annually on the construction of new wells.

32. *Drainage Works.*—In the district of the 24-Parganas Rs. 7,285 was expended on the improvement of the Khardah khal, but part of this sum will be recovered from the Municipalities of Titaghar, South Barrackpore and Naihati, who are also interested in the work. Rupees 364 was spent by the same District Board on the survey of the Usti basin which is connected with the large project under the Sanitary Drainage Act. The District Boards of Rajshahi and Pabna spent Rs. 7,000 and Rs. 5,600, respectively, on the preparation of the scheme for the drainage of the Chalan bil under the same Act.

33. *Roads.*—The length of the metalled roads maintained by District Boards has decreased by 94 miles since 1902-03. This fall in the mileage has been continuous during the last four years and is apparently due to reclassification. In certain districts if a part of a road was metalled the whole length of the road was formerly shown as metalled, whereas at present only the length of the portion actually metalled is included. During the year the mileage of unmetalled and village roads has risen by 864 and 1,858 miles, respectively. In the case of the former the expenditure on original works has risen from Rs. 6,57,318 in 1900-01 to Rs. 13,03,965, and the expenditure on repairs from Rs. 8,83,466 to Rs. 9,20,533, while the cost of repairs per mile has fallen from Rs. 39 to Rs. 35. In the case of village roads the total expenditure has risen by Rs. 18,267, while the cost of repairs has fallen from Rs. 17 to Rs. 14 per mile. The cost per mile of repairs to metalled roads is highest in the Chittagong Division (Rs. 591) and lowest in the Chota Nagpur Division (Rs. 111). In the case of unmetalled roads (including both district and village roads), the rate varies from Rs. 55 in the Chittagong Division to Rs. 20 in the Patna Division. The expenditure on both metalled and unmetalled roads was highest in the Patna Division (Rs 3,45,646 and Rs. 5,40,204) and lowest on metalled roads in the Chota Nagpur Division (Rs 6,557) and on unmetalled roads in the Orissa Division (Rs. 50,993). In the case of village roads the outlay was greatest in the Dacca Division (Rs. 83,556) and lowest in the Chota Nagpur Division (Rs. 8,776). The Government grant of 5 lakhs for the improvement of communications was spent chiefly on metalling or bridging existing roads or on the construction of feeder roads to the railways.

34. *Railway Feeder Roads.*—The last few years have been a period of railway extension all over the Province, and the resources of the District Boards have been taxed to the utmost to provide the necessary feeder roads without which the railways lose half their utility. The obligation resting on Government to contribute towards this work has been fully recognised. A considerable proportion of the 5 lakhs grant for the improvement of communications has been devoted to such roads, and in addition during the last five years grants amounting to Rs. 5,73,000 have been given to the District Boards for the construction of feeder roads. It is probable that in most districts the most important roads have now been taken up, and that less assistance will be required in future. The construction of the Ondal-Sainthia Chord of the East Indian Railway and of the Katihar-Ranaghat line on the Eastern Bengal State Railway will, no doubt, necessitate considerable expenditure for this purpose in the districts of Birbhum, Malda and Murshidabad, and in such cases it may be necessary to give assistance of an exceptional kind. But in the rest

of the Province Government will in future ordinarily contribute not more than one-third of the initial cost of construction on condition that the District Board pays the remaining two-thirds and undertakes the cost of maintenance.

35. *Miscellaneous Public Improvements.*—Road-side arboricultural working-plans have been prepared by all District Boards, except Champaran, and expenditure was incurred on tree-planting and the upkeep of nurseries by every district except Chittagong. The amount spent varied from Rs. 83 in Mymensingh and Rs. 155 in Champaran to Rs. 3,801 in Bhagalpur and Rs. 5,358 in Backergunge. If the districts of the Rajshahi Division (for which no details are given) are excluded, the average expenditure was Rs. 1,195. The Commissioner of the Presidency Division is not in favour of any great extension of tree-planting, because the districts of his Division suffer from an excess of trees, and require open air rather than shade

36. *Railways and Tramways.*—Four light railways have been opened under the guarantee of District Boards, viz., the Ranaghat-Krishnagar line in Nadia, the Howrah-Amta and Howrah-Sheakhala lines in Howrah and the Bihar-Bakhtiarpur line in Patna. A line from Barasat to Basirhat in the 24 Parganas is under construction. The conditions under which the lines were constructed are not quite uniform but they are similar. In each case the Board grants the use of the district roads to the Company free of charge, and, subject to a fixed limit, guarantees to make the net earnings of the Company in some cases up to a fixed sum per mile, and in others to such a sum as will suffice to pay a dividend of 4 per cent. on the share capital. Surplus profits in excess of 4 per cent. are divided between the Board and the Company, and after a certain number of years the Board has the option of taking over the lines. The Howrah-Amta line has been a great financial success, the District Board having received Rs. 1,60,873 in profits during the last six years. On the other hand the Ranaghat-Krishnagar line has cost the District Board of Nadia Rs. 44,923 on subsidies since it was opened, while the Howrah-Sheakhala line has barely paid its way. It is still too early to pronounce on the prospects of the Bihar-Bakhtiarpur line, but the results of the first six months' working are most encouraging. Allusion is made in the Divisional Reports to no less than nine similar projects in various districts, and the list, though by no means exhaustive, shows how much attention is being given to the subject and the likelihood of further developments in the near future. There is no doubt that much can profitably be done in this field, but all schemes require careful examination before sanction is accorded. The Lieutenant-Governor recently found it necessary to warn District Boards that it was necessary to take the advice of Government in the Railway Department before granting concessions for railway schemes, and the neglect of this precaution has in one case caused the loss both of time and money.

37. *Contributions* (*Rs. 62,975*).—The expenditure under this head represents mainly refunds of the unexpended balance of Government grants for special works, payments on account of cost of establishments in the offices of account and control, and contributions towards the cost of the police force employed at plague camps. The fluctuations do not call for notice.

38. *Debt* (*Rs. 6,24,163*).—The large decrease of Rs. 8,05,241 under the sub-head "Deposits and Advances" is due to the reason explained in paragraph 19.

39. *Closing balance* (*Rs. 24,00,170*).—The actual closing balance (exclusive of deposits) of the District Boards was Rs. 21,88,434 against Rs. 20,11,658 in 1902-03, showing an increase of Rs. 1,76,776. In all districts except five the balance was in excess of the working balance fixed by the Commissioner. The excess is partly accounted for by the fact that 35 District Boards had unspent balances, amounting in the aggregate to Rs. 4,27,543, from the Government grants for improvement of communications. This is especially the case in the Patna Division where out of a closing balance of Rs. 6,47,201, Rs. 1,13,399 represents unspent grants. Other District Boards, *e.g.*, Midnapore and Rangpur had large sums unspent from Government grants for feeder roads. The largest closing balances were in Darbhanga (Rs. 1,75,345), Rangpur (Rs. 1,52,599), Nadia (Rs. 1,42,354), Midnapore (Rs. 1,17,482), and Gaya (Rs 1,10,725). The closing balances were unduly low in Bankura (Rs. 3,610), and Bhagalpur (Rs. 5,776), the normal working balances being Rs. 9,000 and Rs. 16,000, respectively.

40. *Amendment of the Bengal Local Self-Government Act.*—The Bill to amend the Bengal Self-Government Act was introduced into Council in March 1904. The objects of the proposed amendments in the law are to legalise expenditure on veterinary objects, to impose tolls on newly-constructed bridges

until the initial cost and the capitalised value of the cost of maintenance and renewal have been recovered, to give power to levy a rate to enable District Boards to pay sums guaranteed by them by way of interest on capital expended on railways and tramways, when it becomes necessary to pay such sums and they are unable to do so otherwise without crippling their administration, to insert in the Act an express recognition of the position of the Education Committee which has been constituted by most District Boards, and to remove flaws and omissions in the Act which experience of its working has brought to light. Steps have been taken to obtain the opinion of Associations and other public bodies with regard to the Bill.

41. The comparison of the figures of 1888-89 with those of 1903-04, which is made in the preceding paragraphs, shows that during the last fifteen years the growth of Local Self-Government, although quiet and unostentatious, has nevertheless been healthy and vigorous. The District Boards have accomplished much, and have taken new and important functions upon them. When they were first constituted only one line of railway, namely the East Indian at Buxar, crossed the frontiers of this Province. Now there is a triple communication with the United Provinces, and there are new railway lines to the Central Provinces, to Madras and to Assam. These have multiplied the railway stations throughout the Province, and have necessitated the remodelling of the road system; for the old main roads are largely superseded by the railways, and new feeder roads striking across to them must radiate from the different railway stations. This reorganisation with the help of liberal assistance from Government has to a large extent been carried out. Again, the medical expenditure when the District Boards were first established was only Rs. 2,244: it is now over four lakhs. Light railways were then unknown: there are now four with an aggregate length of 87¾ miles, and a number of others are under consideration. Four District Boards have also subsidised steamer services. Another new departure is the establishment of the Veterinary Department, in connection with which expenditure is now incurred by 25 District Boards. The initiation of large drainage schemes is also a new function of the Boards. There are four such schemes at various stages of advancement: the largest is that for the drainage of the Mograhât and Kaorapooker swamps in the 24-Parganas which will affect 290 square miles of country, and is estimated to cost Rs. 17,89,000. The activity of the Boards has been hampered by want of funds because the revenues assigned to them in addition to their receipts from road cess proved less elastic than was expected. The Local Government has however come to their assistance with liberal grants. Among these may be mentioned the large sums which have been given for the construction of feeder roads, the recent addition to the annual assignment for Education of more than 4½ lakhs, and the special annual contribution of 5 lakhs which was made for three years towards the cost of roads. The contribution last referred to could not be given during the current year; but the Lieutenant-Governor hopes to be able to renew it from next year, and he hopes also by the following year to be able to replace the fixed grants by equivalent assignments of expanding revenue which will place the Boards in a better position to meet the growing demands upon them. The draft Bill which is now before the Bengal Legislative Council also proposes to increase the powers and liabilities of the Boards in regard to light railways. The benefit of these railways is chiefly local; and if the Boards wish to have power and responsibility in respect of them, they must also take the risk. All the District Boards have not been equally progressive; but Sir Andrew Fraser has reviewed their past history with much interest, and considers that they are generally to be congratulated on the successful result of their administration of the affairs of the districts. His thanks are due to the officers of Government who have guided and controlled them, to the Members of the Boards to whose advice and assistance the success achieved has been largely due, and to many liberal residents of districts who have contributed to beneficent works undertaken by the Boards. The co-operation of all these classes is essential to success, and seems to the Lieutenant-Governor to be growing more apparent.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING THE YEAR 1903-1904.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 12th December 1904.

RESOLUTION—No. 3628M.

READ—

The Reports from the several Commissioners of Divisions on the working of Municipalities in Bengal (except Calcutta) during the year 1903-04.

Read again—

The Resolution reviewing the Divisional Commissioners' Reports on the working of Municipalities during the year 1902-03.

The Resolution of 1902-1903 dealt with statistics relating to 157 Municipalities. This number was exclusive of the two Municipalities at Dumka and Nawabganj which were constituted towards the close of that year. About the same time a Municipality was formed at Uluberia in the district of Howrah, and on the 1st July 1903 another new Municipality was established at Halishahar in the district of the 24-Parganas by a further subdivision of the Naihati Municipality. The present Resolution therefore deals with the returns of 161 Municipalities.

2. In last year's Resolution attention was drawn to the marked improvement effected in the course of the preceding five years in the financial administration of the Municipalities of the Province. This improvement has continued at a rate of progress considerably in advance of that hitherto attained, and the fruits of good administration are more apparent. There has been an improvement in the sanitation of many of the towns in the Province, improved resources having permitted of a considerable increase in the expenditure incurred on conservancy. The problem of water-supply has received particular attention; and the successful results attained in Howrah and Burdwan deserve special commendation, the case of the latter town being the more worthy of notice by reason of its previous failure to attain even a moderate standard of success. There is moreover a list of unprecedented length of towns which have either inaugurated or are engaged in preparing schemes for a complete system of drainage, which they are now in a position to undertake by reason of the recent expansion of their revenues. The registered death-rate in the towns of each division as a whole, save that of Patna where it has unfortunately been swelled by plague, shows a steady decline in recent years, particularly in the last four in which the death-rate of all the municipal towns in Bengal fell from 43·4 to 36·3 per mille. The fall in the death-rate from fever in the same period is no less remarkable, being 14·2 per mille in the year 1903 against 19·9 in 1900. The ratio of deaths from dysentery and cholera is also instructive as indicating the quality of the water-supply, the death-rate per mille under these heads having similarly declined from 4 and 5 to 2·9 and 3 respectively. In the individual towns where water works have been instituted the decline in the death-rate from these water-borne diseases is particularly marked, especially in Dacca, Nasirabad, Burdwan, and Darjeeling. These figures point to an improvement of the sanitary conditions; and no less significant, in another direction, of the general advance of municipal government is the large increase of the number of meetings held and of the attendance at each, and the simultaneous decline of the meetings adjourned for want of a quorum.

3. It is a source of great satisfaction to Sir Andrew Fraser to be able to endorse so fully the commendations which it was one of the last official acts of his predecessor to bestow. His Honour is particularly struck by the marked improvement in collections, which in the year just concluded averaged 98·6 of the current demand—a ratio that has only once been equalled, accompanied as

it is by an unprecedented reduction of outstanding demands, which are now only 7·5 per cent. of the current demand—a result that has hitherto never been even approximately attained. This improvement is shared by every Division, and is especially marked in Orissa, Chota Nagpur, and Burdwan, where the ratio of collections to current demand rose from 84·3, 95·4, and 95·2 in 1902-1903 to 103·4, 101·0, and 99·4 in the year under review; while the percentage of remissions declined in each case respectively from 12 3, 6·9, and 8·6 to 3·8, 3·7 and 5·3. Satisfactory too, though to a less degree, is the improvement in the Bhagalpur Division, which last year attracted unfavourable notice. The percentage of remissions has there, it is true, increased; but the percentage of collections has risen in the division as a whole, excluding the newly formed Municipality of Nawabganj where the administration has obviously yet to acquire experience, from 91·9 to 95·6. The length of the list of individual Municipalities which merit special commendation in this branch of their administration is without precedent. No less than 51 towns against 17 in the previous year collected more than cent per cent of their current demands; while in 27 as compared with 28 the outstanding balance was either nil or merely nominal. Space forbids the enumeration of them all, but mention must be made of Jhalokati, Roserha and Cuttack, in which both results were simultaneously attained; while Bankura, Vishnupur, Ghatal, Uttarpara, Arambagh, Kotrung, Bally, Sherpur (in Bogra), Nasirabad, Barh, Revelganj, Jajpur, and Balasore, in each of which the collections exceeded 105 per cent., must also receive individual mention.

4. *Number of rate-payers.*—The total number of rate-payers was 492,843 or 7,226 more than in 1902-1903, and the percentage they bore to municipal population was 17·17 against 17·08 in the preceding year. The percentage varies from 31·34 at Katwa in the Burdwan Division to 6·4 at Titaghar in the Presidency Division; while the divisional percentage is highest, as usual, in the Presidency (19·01) and lowest in Dacca (14·5). The increase in the number of rate-payers is shared between all the Divisions except Patna, in which Division no less than 13 Municipalities show a decline which is attributable almost entirely to the emigration of residents during the outbreak of plague. The low percentage of rate-payers to population in four Municipalities forming the head-quarters of districts was commented upon in previous Resolutions. Of these Darbhanga shows an increase from 13·9 to 15·08 per cent., Arrah from 12·6 to 12·9, Motihari from 10·7 to 11·2, while the figures returned from Dacca remain almost stationary. The percentage fell below the Provincial average in 73 cases, as against 74 in 1902-1903 and 72 in the previous year.

5. *Results of elections held during the year.*—General elections of Commissioners were held in 75 Municipalities, which were successful in all cases except in one ward in each of the Municipalities of Monghyr, Jamalpur and Deoghur: in these cases Commissioners had to be appointed by Government under section 16 of the Act. The majority of the elections were contested; and the percentage of attendance of persons qualified to vote varied between 3·2 in Ward No. I of the Deoghur Municipality and 98·1 in Ward No. IV of the Chapra Municipality. Considerable interest was shewn in the elections in the Nadia, Murshidabad, South Barrackpore, Patna, Gaya, Balasore, Comilla, Brahmanberia, Noakhali and Chittagong Municipalities; and in one ward of the Howrah Municipality the excitement ran so high that the Magistrate himself had to be present for some time to keep order. There is no indication of any decline of public interest in municipal affairs.

6. *Constitution of Committees and attendance at meetings.*—The total number of Commissioners increased from 2,196 to 2,236, and the number of meetings held by them from 2,620 to 2,846. Of these only 201 had to be adjourned against 227 in 1902-1903. The number of Municipalities which held more than 20 meetings was larger than in the previous year, whilst only 8 against 15 failed to hold at least one meeting every month. The largest number of meetings was held by the Cossipore-Chitpore Municipality (69) of which only 2 proved abortive Next comes Burdwan with 37 meetings, of which 7 proved abortive. The smallest number of meetings held was eight, namely in the Jamalpur (in Monghyr) and Balasore Municipalities. The North Barrackpore Municipality, which had failed in the previous four years in succession to hold the minimum

statutory number of meetings, met 14 times during the year under report. Throughout the Province the average percentage of attendance of Commissioners was 59 9 against 51·62 in the year 1902-03; while in 1 8 Municipalities, as against 80 in the previous year, an average of more than one-half of the total number of Commissioners attended at each meeting. The highest percentages of attendance were those obtained at Khirpai (80·5), Cossipore-Chitpore (78·1), Jardispur (77·7), Dainhat (77·4), Ramjibanpur (75·4) and Chandpur (75·1), and the lowest was 31·4 at South Barrackpore.

7. *Assessment and Taxation.*—Of the alternative systems under which the main forms of municipal taxes are levied, the rate on holdings is in force in 47 Municipalities and the tax on persons in the rest; while in the Municipalities of Bhadreswar, Baidyabati, South Dum Dum and Deoghur both forms are in force in different wards. The rate on holdings was levied at less than the maximum rate allowed by the law in 14 towns, among which the Municipalities of Howrah, Hooghly-Chinsura, Darjeeling and Patna again find place, and the lowest rate, viz., 3 per cent on the annual value of holdings, was levied in Ward No. III of South Dum Dum. The tax on persons is levied in different towns at widely varying rates. The system is only adapted to the less advanced Municipalities, and the Lieutenant-Governor cannot refrain from commenting upon the fact that in many large and important Municipalities this primitive form of taxation is in force. The influence of controlling officers might profitably be exercised in inducing Municipal Commissioners to adopt (to which a tendency already exists) the alternative system, which, given an adequate means of assessment, would inevitably produce better financial results. Of the special rates, the latrine rate was levied in 108 towns, the water-rate in 12 towns which are provided with a supply of filtered water (in Dacca no water-rate is levied, although a filtered water-supply exists there) and the lighting rate only in the towns of Howrah and Darjeeling, no rate being levied for the purpose in the other Municipalities adjoining Calcutta, which are lighted with gas, or at Dacca which is lighted with electricity. The Kurseong Municipality have recently obtained the sanction of Government to the levy of a water-rate which takes effect from 1st April 1904.

The incidence of Municipal taxation (excluding Calcutta) varied between Rs. 7-2-10 per head at Darjeeling and Rs. 0-3-4 at the new Municipality of Nawabganj in the District of Malda. The average for the whole Province was Rs. 1 3-11, showing an increase of one anna per head since the previous year. In 31 towns against 32 in 1902-1903 the incidence of taxation is below 8 annas per head.

8. *Revision of assessment.*—Assessments were revised during the year generally or partially in 51 Municipalities. Among those where a general revision took place the best financial results were attained in the following towns:—

Name of Municipality.	Amount of increase.
	Rs.
Cossipore-Chitpore	9,525
Naraingani	6,112
Darbhanga	5,238
Balasore	4,757
Titagarh	4,199
Bihar	3,365
Baranagore	2,690
Satkhira	2,458
Barisal	2,382
Kamarhati	2,246

A large increase of Rs. 11,129 was effected in the Garden Reach Municipality, which was due to the imposition of a water-rate within the Municipality from 1st April 1903, while in Arrah an increase of Rs. 8,444 resulted from a revision of the assessments of water and latrine rates. A general revision of assessment was made in the North Barrackpore Municipality by an Assessor appointed by Government, which resulted in an increase of 20 per cent. on the previous demand. The revised assessment takes effect from the beginning of the current year. In the Cuttack Municipality the funds for the clearing of private privies and cess-pools having been found inadequate, the Municipal

Commissioners raised the scale of latrine fees; this resulted in an increase of Rs. 7,269 and is to come into force with effect from 1st April 1901. The Magistrate and Commissioner have, however, questioned the equity of the assessment, and the matter will be separately considered when their reports are received. The whole system of assessment in this town has already attracted the unfavourable notice of Government. There was a net decrease of Rs. 957 in Dacca, mainly due to remissions, and one of Rs. 7,362 in Darjeeling, which is vaguely attributed to a transfer of electric light receipts and to a falling off in receipts from the tax on trades and professions. The Commissioner has called for a clearer account of the loss of income.

9. In paragraph 11 of last year's Resolution the outlines were given of a scheme for improving the procedure under which assessments are conducted. Local officers were consulted, and their opinions have since been received. There is a large consensus in favour of the proposal to restrict the membership of Appellate Committees to 5, inclusive of the *ex-officio* members, the Chairman and Vice-Chairman. The further proposal to exclude any member, except the *ex-officio* members, from the hearing of appeals from the ward which he represents similarly met with general acceptance; and many municipalities have already spontaneously adopted these principles as the basis of the formation of their Appellate Committees. The second proposal, that of the establishment of a staff of peripatetic Assessors, has given rise to a certain amount of opposition, which seems to be due in no small degree to a misunderstanding of the effect of the proposals put forward. A definite scheme has been formulated, of which the essential feature is that the employment of the trained assessing staff is to be optional. Its adoption will ensure both regular and equal assessments at a small cost; and it is probable that most municipalities of any size or importance will readily adopt it.

10. *Fresh imposts levied during the year.*—The tax on animals and vehicles under section 86 (*a*) of the Municipal Act was introduced into the newly created Municipality of Uluberia during the year. A water-rate was for the first time levied in the Municipalities of Garden Reach and the South Suburbs, and a rate was imposed on the arable lands situated within the Baranagore Municipality. A six per cent. rate on the annual value of holdings and a latrine rate at 3 per cent. were imposed within the added area of the Deoghur Municipality, while a rate on holdings in lieu of the tax on persons was introduced into Ward No. III of the South DumDum Municipality. The provisions of Part IX, which refers to the cleansing of private privies and cess-pools, were enforced in this same ward at South DumDum as well as in a portion of the Satkhira Municipality. They were also extended to Wards Nos. I and II of the Taki Municipality, to Dumka, and to the added area of the Deoghur Municipality. Action has also been taken for the introduction of that Part into the towns of Santipur and Nadia, the Municipalities of which were suspended on account of their long and contumacious refusal after repeated warnings to improve their sanitary condition. License fees were levied for the first time in the Manicktola Municipality, under the provisions of sections 261, 263 and 265 of the Act; and under the provisions of the first named section only in Satkhira, Nator, Netrokona and Jamalpur (in Monghyr). The provisions of the Hackney Carriage Act were introduced into the Barisal Municipality; and those of Part VI of the Municipal Act were extended to the added area of Deoghur and formally re-extended to Monghyr. Particular sections of that Part were also put in force in the Nawabganj and Kishanganj Municipalities.

11. *Income and expenditure.*—The total funds available for expenditure by the several Municipalities were Rs. 63,30,239 against Rs. 55,83,623 in the previous year. The total expenditure incurred by them was Rs. 53,85,903 against Rs. 47,54,072 in 1902-1903.

12. *Closing balances of Municipalities.*—The aggregate closing balances of all the Municipalities amounted to Rs. 9,44,336 at the close of the year against Rs. 8,30,551 in the preceding year. In some cases funds were accumulated for the purpose of introducing a complete system of surface drainage and other sanitary improvements; in others savings effected in estimated expenditure and the inability fully to utilise loan funds contributed to this result; while in some cases there was an unexpected improvement of collections. In the

Howrah Municipality the heavy balance of Rs. 2,16,515 includes the amount of loans received from Government for the reconstruction of the Buckland Bridge, and for the completion of a drainage scheme, the construction of a conservancy tramway and the extension of the market. The closing balances were also large at Darjeeling, Dacca, Chapra, Bhatpara and Gaya. They are explained in the first three cases by the non-utilisation of loans or by outstanding bills for capital works; but the large balances of the Bhatpara and Gaya Municipalities are not accounted for. The Bhagalpur Municipality, as in the preceding year, failed to keep a sufficient balance; but its resources are said to have been severely taxed at a time when collections could not be pushed on on account of plague. The working balances fell so low as Rs. 74 at Pabna, Rs. 67 at Debhatta, and Rs. 10 at Baduria, and every year it has been necessary to point out the unwisdom of depleting resources to this extent.

13. *Income.*—The total receipts of the 161 Municipalities during the year, excluding their opening balances, were Rs. 54,98,182 against Rs. 49,50,383. More than half of this increase of Rs. 5,47,799 occurred under debt and suspense heads, and it does not therefore represent the real increase in the ordinary revenues of the Municipalities. Excluding the receipts under "Extraordinary and Debt" the total revenue receipts amounted to Rs. 44,94,916 against Rs. 42,44,878 in the previous year, showing an increase of Rs. 2,50,038, or 5·8 per cent.; of which two lakhs against less than half a lakh last year were derived from taxation proper. This increase, which is nearly a lakh in excess of the progressive rate of increase maintained during the last five years, was shared by all the divisions, and was largest in Burdwan where it amounted to Rs. 57,333.

14. *Tax on houses and lands* —The total revenue under this head amounted to Rs. 12,62,624, which was Rs. 62,726 in excess of the revenue of the previous year. The increase was shared to a greater or lesser extent by all the Divisions, and the largest increases of Rs. 21,063 and Rs. 14,613 occurred respectively in Burdwan and the Presidency. The Municipalities in which the improvement of this source of revenue was most marked are those of Cossipore-Chitpore (Rs. 8,121), Howrah (Rs. 7,510), Narainganj (Rs. 4,952) and Bally (Rs. 4,875) while in the smaller Municipalities of Giridih, Deoghur and South Dum-Dum a large proportional increase occurred. The newly-created Municipalities at Dumka, Nawabganj, Uluberia and Halishahar contributed an aggregate amount of Rs. 4,166 to the total increase. Revised assessments brought into operation during the year and better collection of both arrear and current demand contributed generally to the increase under this head. The one Municipality in which there was a marked decline under this head is that of Naihati, where the income fell from Rs. 2,789 to Rs. 867. This Municipality has recently been subdivided, but the fact does not account for the marked loss of income both under this and most other heads. No explanation has been given, and the attention of the local officers is invited to the circumstance. In Gaya a decrease of Rs. 1,546 occurred, which was mainly attributable to the fact that sums due from the East Indian Railway Company were not paid during the year.

15. *Tax on animals and vehicles.*—There was an increase of Rs. 12,488 in the revenue under this head which is generally attributed to a closer supervision over registration and to the realisation of arrears. The largest increase, amounting to Rs. 1,691, occurred in the Municipality of Dinajpur. The increase is satisfactory; for there is little doubt that in many Municipalities the receipts under this head are less than they ought to be. On the other hand, the Commissioner of Chittagong raises the question whether carts are not too often taxed which do not ply habitually in the Municipality, within the meaning of section 142 of the Act. Inspecting officers should see that the law is not oppressively exercised in this direction.

16. *Tax on professions and trades.*—The comparatively small revenue from this source, in which 25 Municipalities have no share, shows an increase of Rs. 7,328. This increase was distributed among all the Divisions except Orissa and Chota Nagpur, and was largest in the Presidency Division (Rs. 4,012), occurring particularly in the Municipalities which are adjacent to Calcutta.

17. *Tolls on roads and ferries* —Nowhere in the Province are tolls levied on roads, but an income is derived from ferries in 51 Municipalities. The

revenue under this head increased from Rs. 1,35,460 to Rs. 1,45,347, which increase was shared by all the Divisions except those of Burdwan and the Presidency, where decreases of Rs. 839 and Rs. 1,113, respectively, occurred. Tolls are levied in only one Municipality in the Chota Nagpur Division, viz., Daltonganj, and the income of that Municipality from this source was the same as in the previous year. The largest increase (Rs. 5,634) occurred in Muzaffarpur, and was due to the resettlement of ferries at rents enhanced by competition. A decrease of Rs. 1,253 occurred in Patna, which is attributed to the non-realisation of ferry rents for the last three months of the year owing to loss of traffic caused by the competition of the Bengal and North-Western Railway Company. A decrease of Rs. 1,041 occurred at Chapra for which no explanation is given.

18. *Water-rate.*—This rate was in force in 12 Municipalities against 10 in the previous year, being levied for the first time in the South Suburban and Garden Reach Municipalities. The total income amounted to Rs. 2,85,248, an increase of Rs. 25,900 over that of last year, which was shared by all the ten Municipalities where the rate had previously been in force. The increase is variously attributed to extension of the areas under supply, to better collections and to revision of assessment. The Kurseong Municipality, having extended its water-supply system, obtained the sanction of Government to levy a water-rate, which has been imposed from the commencement of the current year.

19. *Lighting rate.*—This rate is levied only in the towns of Howrah and Darjeeling. The total receipts fell from Rs. 85,845 to Rs. 83,998, a decline of Rs. 1,847. In the Howrah Municipality the income increased by Rs. 2,164 owing to an improvement both in the demand and collections. In Darjeeling it fell by Rs. 4,011; and the loss of income, as in the previous year, is somewhat inadequately explained to be due to the falling off in the miscellaneous lighting rate receipts.

20. *Conservancy, including scavenging and latrine rates.*—The revenue under this head was Rs. 8,24,749, which is an improvement to the extent of Rs. 49,006 over that of the previous year. The increase, which was most marked in the Municipalities of Howrah (Rs. 8,653), Cossipore-Chitpore (Rs. 3,842) and Narainganj (Rs. 2,860), is generally attributed to improved collections, revision of assessment and to a further extension of the provisions of Part IX of the Act, which, however, is not yet in force in many towns where its provisions would be most salutary. A large decrease of Rs. 2,368 which occurred in the Naihati Municipality has not been explained.

As in previous years some of the Municipalities let out portions of their trenching grounds for the purposes of cultivation, but on the whole with very little success. The Commissioner of Dacca remarks that the soil in Eastern Bengal is not suitable for trenching.

21. *Tax on persons according to their circumstances and property.*—The total income from this source, which amounted to Rs. 6,10,695, shows an increase of Rs. 31,748 as compared with the previous year. The increase was shared by several Municipalities and was most marked in Darbhanga, Arrah, Cuttack and Dinajpur. Revised assessments and improved collections generally account for the enhanced receipts. The income from this source declined by Rs 3,433 in Naihati, and less than half of this decrease can be attributed to the formation of the Halishahar Municipality. No explanation of the decline has been given, though it is obvious that one is required.

22. *Grants from Provincial and Local Funds and contributions by private individuals.*—The total receipts rose from Rs. 3,24,583 to Rs. 3,49,923. The contributions amounted to Rs. 2,31,382 for medical purposes, Rs. 5,291 for education, and Rs. 1,13,250 for general purposes.

23. *Gifts of money or land and works of public utility executed by private individuals.*—Many instances of private liberality are brought to notice in the reports of the Commissioners, which have already been noted in a seperate Resolution. Among the most important of those mentioned in the Divisional reports were the construction and endowment of a charitable dispensary by the sons and heirs of the late Rai Surjya Narain Singh Bahadur at Karangarh in Bhagalpur, and a liberal contribution from Babu Ram Chandra of Kishanganj in Purnea for the construction of a charitable dispensary in that town.

24. *Expenditure.*—The total expenditure incurred during the year by the several Municipalities in the Province was Rs. 53,85,903 against Rs. 47,53,072 in the previous year. The large increase of Rs. 6,32,831 was due mainly to an increase of expenditure incurred on water-supply (Rs. 73,302), conservancy including road-cleaning and watering (Rs. 50,092), interest on debt (Rs. 43,968), Hospitals and Dispensaries (Rs. 41,010), roads (Rs. 24,368) and refunds (Rs. 15,256). The items "Repayment of loans" and "Advances" under the head "Extraordinary and Debt" also show increases of Rs. 1,37,307 and Rs. 3,47,458, respectively.

25. There was a marked decline under the heads of "Police" (Rs. 26,865), "Drainage" (Rs. 4,194) and "Public Works—Stores" (Rs. 4,072). Investments and deposits also show decreases of Rs. 70,815 and Rs. 63,872, respectively. Compared with the previous year, however, there was no great variation in the percentages which the expenditure under each of the principal heads bore to the total outlay (excluding "Debt" and "Suspense" heads), save that establishment charges fell from 12·0 to 10·3 and the percentage of expenditure on water-supply rose from 5·8 to 9·8.

26. *Office and collection establishment.*—The total expenditure (Rs. 4,19,897) on office and collection establishment shows this year a comparatively small increase of Rs. 2,763, while the percentage of expenditure on this head to ordinary income is considerably lower than that of last year. The cost of office establishment increased in the Burdwan, Presidency, Rajshahi, Dacca and Bhagalpur Divisions, while elsewhere there was a slight decline. The collecting staff proved more expensive in all the Divisions except those of the Presidency, Chittagong and Patna The usual causes are assigned for the growth of expenditure, viz., an increase of banking, audit and contingent charges, and the grant of increments of salaries and employment of additional hands. The two latter are no doubt the predominant causes, and the local budgets should be scrutinised with special care to see that the municipal establishments are not unduly large, for a small but well paid and therefore efficient staff is far more useful than a larger number of ill paid subordinates. The expenditure under this head varies from 3·2 per cent. of the total expenditure at Nasirabad, in the Dacca Division, to the abnormal percentage of 35·3 in the new Municipality of Nawabganj, of which the administration is manifesty still defective.

27. *Prevention of fire.*—The expenditure (Rs. 27,581) under this head shows a slight increase of Rs. 228. As in previous years the greater portion of the charge was incurred in the Municipalities adjoining Calcutta, which are served by the Metropolitan Fire-Brigade and contribute to its cost. The expenditure under this head largely increased in Howrah, where, moreover, the services of the Fire-Brigade were most frequently requisitioned. In Cossipore-Chitpore, on the contrary, the expenditure fell from Rs. 15,590 to Rs. 12,813. In Darjeeling an expenditure of Rs. 3,945 had been incurred in the previous year in the purchase of fire-buckets and other appliances. In the year under review, however, merely a nominal sum was expended under this head.

28. *Street lighting.*—The expenditure rose from Rs. 2,39,449 to Rs. 2,42,411. The payments at Howrah were largely swelled by an accumulation of bills of the Gas Company as well as by the erection of additional gas and oil lamps. The charges incurred in Darjeeling decreased by Rs. 13,470, the expenditure of the last two years having been exceptionally high by reason of the purchase of materials.

29. *Water-supply.*—The aggregate expenditure under this head amounted to Rs. 4,36,370, an increase on last year's expenditure of Rs. 73,302. The increased cost occurred almost entirely under capital outlay, maintenance charges remaining practically stationary. It was shared by the Municipalities of Howrah (Rs. 42,500), South Suburbs (Rs. 28,750), Nasirabad (Rs. 18,462) Berhampore (Rs. 12,133) and Darjeeling (Rs. 10,597). The largest decrease occurred in the Garden Reach Municipality (Rs. 30,337). The increased expenditure in Howrah, Berhampore and Nasirabad is chiefly attributable to the purchase of new machinery. In the South Suburbs it was due to the completion of the filtered water scheme and in Darjeeling to further progress in the new scheme for increasing the water-supply of the town. A comparatively small capital outlay was incurred in Garden Reach, where the works for the

extension of the supply from the Calcutta mains were practically completed in the preceding year.

In Burdwan a proposal is under contemplation for the extension of the filtered water-supply to the areas on the other side of the river Banka. The question of introducing a filtered water-supply into the Asansol Municipality is also under consideration. A scheme for the extension of the filtered water-supply and house services in the Manicktolla Municipality was sanctioned during the year 1902-1903; and a lakh of rupees was borrowed from Government to meet the cost; but as the Corporation of Calcutta was unable to sanction any increase over the existing supply, the scheme had to be abandoned for the present and the loan was refunded. The filtered water-supply scheme for the South Suburban Municipality was completed; but similar difficulties regarding the supply of water from the Calcutta mains prevented its utilisation during the year 1903-1904. These difficulties, it is hoped, will shortly be surmounted by means of the extensions which the Corporation have recently undertaken for the increase of the daily quantity of water delivered into the town. In the three Mill Municipalities of Titaghur, Garulia and Bhatpara the projects described in paragraph 32 of last year's report continue to make good progress. The work in connection with the water scheme for Titaghur, under which a supply of filtered water is to be obtained, free of cost, from the local mills, was taken up towards the end of the year, and was completed after its close. All the preliminary measures for carrying out a similar scheme in the Bhatpara Municipality have been taken. In Garulia pipes were laid, and hydrants erected; and the work is expected to be completed shortly.

The new scheme for increasing the water-supply of the Darjeeling town was brought into operation during the year. A site was acquired for a new reservoir, and a system of filtration in lieu of the existing system of settling tanks is now under trial by the conversion of one of the settling tanks into a filter bed. Some difficulties have been experienced at Kurseong owing to the drying up of the springs from which the supply of the town is procured. A project is now under contemplation for a connection with a new spring situated at a distance of four miles and-a-half from the town, but the scheme is at present in its initial stages and has not yet come before Government. In other localities also new schemes are in contemplation. Estimates are being prepared for a filtered water-supply project for Barisal. The Municipal Commissioners of Gaya have for some time been considering a scheme for providing water-works for their town. For this purpose they have already collected a sum of Rs. 1,38,642 but their funds are not yet sufficient to enable them to take up the work. In Monghyr a scheme for obtaining a supply of water from the Ganges is under preparation in which it is hoped that the Railway community at Jamalpur may join; and private contributions amounting to over a lakh of rupees have already been promised. To commemorate the occasion of the Lieutenant-Governor's visit to Daltonganj a proposal was made to install a water-supply system in that town by connection of the Municipal mains with the Railway water-works; the bulk of the cost has already been subscribed and the work is now in progress. From the Divisional reports it appears, moreover, that considerable activity was displayed during the year in several Municipalities in excavating tanks and sinking masonry and tube wells and in improving the already existing sources of water-supply.

The water-works in some of the large towns still continue to cause trouble. In Howrah their administration was, as usual, excellent, and the cost for maintenance works out so low as 1·3 annas per 1,000 gallons delivered. The purity of the water was well maintained; and the daily average supply was 10·8 gallons per head of the population. The Burdwan Municipality, which received unfavourable notice last year, is to be congratulated on a decided improvement in the management of its water-works, which has been particularly marked in the few months succeeding the close of the year under report. The machinery and filters are in good order; due economy is exercised in working charges, as is evidenced by the average cost of 2 annas per 1,000 gallons; and the water has been brought to a high standard of purity, mainly by the exertions of the Civil Surgeon who has adopted the expedient of treating it with alum cake On the other hand the difficulties have increased at Bhagalpur and Berhampore, particularly during the dry season. The main

stream of the rivers had receded from the in-take; and portable engine-driving centrifugal pumps had to be provided, with the assistance of Government in each case. In both towns the filter beds were sadly neglected; the quality of the water supplied was most unsatisfactory; and in Berhampore the cost of maintenance was as high as 6·6 annas per 1,000 gallons. The Commissioner of the Bhagalpur Division reports that the water-works of that town form a serious burden on the general revenues of the Municipality, and consequently hamper their activity in every other direction. The position is in fact so serious that Government has recently appointed a Committee to investigate the system and to devise measures for its improvement. Elsewhere the position is not so serious, though at Nasirabad the filter beds were not in as good order as they might be owing to the want of pebbles and coarse sand, and the cost of maintenance was as high as 4·5 annas per 1,000 gallons. At Arrah and Dacca the water was pure, though the supply was small. The pumping plant of all the water-works was inspected twice during the year by Messrs. James Simpson & Co. and found to be in a satisfactory condition.

With the object of relieving Municipal Commissioners of duties of a technical and generally difficult nature, they have been empowered to appoint Committees to act as their agents and expert advisers in the management of their water-works, whose members are to be responsible to the Municipal Commissioners for the due performance of the duties entrusted to and accepted by them. In order that the relative position of the Municipal Commissioners and their agents, the water-works Committees and their respective powers and duties may be clearly understood, Government has, in consultation with its professional and legal advisers, framed a set of rules under section 69B (ii) of the Act for the guidance of Municipal Commissioners in the matter of their water-supply. So far two Municipalities only, those at Arrah and Darjeeling, have adopted the rules and appointed Committees. Other Municipalities, however, have wisely adopted a somewhat similar system for the administration of their water-works.

30. *Drainage.*—The total expenditure was Rs. 1,67,173, which is less by Rs. 4,194 than that of last year. The decrease occurred under capital outlay, maintenance charges showing a small increase of Rs. 1,806, and was mainly due to the fact that several large schemes of capital outlay had been undertaken in the preceding year. The largest capital cost incurred by any one Municipality during the year was that at Howrah, where payment was made for the drainage of the Telkul Ghât Road completed during the previous year, and where an additional staff was employed to complete the survey and levelling for the main drainage scheme. At Darjeeling an additional cost of Rs. 3,588 was incurred in remodelling the public drains. In Bhagalpur certain new drains were constructed towards the cost of which contributions were made by the inhabitants of the locality.

Schemes for the improvement of drainage have been prepared for the Municipalities of Hooghly-Chinsura, Utterpara, Cossipore-Chitpore, Budge Budge, Naihati, Bettiah, Puri and Cuttack, and are under preparation in many other Municipalities, notably those in the 24-Parganas, Murshidabad and Nadia districts. The project for the drainage of Puri, which is a portion of the whole scheme outlined in paragraph 42 of last year's Resolution for the general improvement of the sanitation of the chief resort of pilgrims in the Province, was designed by an officer of the Public Works Department specially deputed for the purpose. The same officer was subsequently entrusted with the supervision of certain other important drainage schemes, including that of Burdwan, but unfortunately his services could not long be spared. The Burdwan scheme, which is estimated to cost Rs. 1,75,000, has long hung fire on account of the embarrassed condition of the municipal finances. This, however, has recently much improved by reason of the reduction of annual loan charges, and the survey for the scheme is being rapidly pushed on. Private liberality and local effort will receive the assistance of Government; and there is now great hope that the scheme may be found practicable. A joint scheme for the improvement of the Khurda Khal, whereby the drainage of the South Barrackpore, Titagarh and Panihati Municipalities is to be effected, was completed during the year; and a scheme for the improvement of the Bagjala Khal, prepared by the Public Works Department, is under the consideration of the Sanitary

Board. The drainage system of the Kurseong town is reported to be very defective; but the Commissioners must materially improve their resources before they can do much to improve it. The scheme for the drainage of Dacca awaits the completion of the survey of the town. No expenditure under this head was incurred by eleven Municipalities, viz., Ghatal, Bhadreswar, Uluberia, Tollygunge, Halishahar, Budge-Budge, Meherpur, Dinapore, Hajipur, Nawabganj and Raghunathpur.

31. *Conservancy, including road cleaning, road watering and latrines.*—It is noticeable that the expenditure under this head has increased by Rs. 50,092, an increase that is most marked in the Burdwan and Presidency Divisions where the additional expenditure incurred amounts to Rs. 28,246 and Rs. 11,390, respectively. Howrah alone accounts for an increase of Rs. 21,598, which was due to the strengthening of the conservancy staff and to the purchase of new carts and animals. A new conservancy line from Lillooah to Belgachia is also under construction. Cossipore-Chitpore incurred an increased charge of Rs. 10,557, mainly in the acquisition of 30 bighas of land to extend the present trenching ground. Considerable increases also occurred in Dacca, Narainganj, Gaya, Bhagalpur, Jamalpur (in Monghyr) and Bally, which are in every case mainly attributable to the purchase of new conservancy carts. The decrease was largest in Naihati (Rs. 4,152) which has not been explained; nor has the decrease of Rs. 2,386 in Monghyr been accounted for. A decline of Rs. 2,440 in Patna is explained to be due to considerable economy effected in the maintenance of the conservancy plant in the municipal workshop.

The expenditure on conservancy exceeded 50 per cent. of the total expenditure in four towns, viz., Hooghly-Chinsura (53·48), Bhadreswar (51·39), Halishahar (56·4), and Noakhali (51·3).

The Howrah Municipality have established four double biological filters for the disposal of sullage water, which are reported to be working satisfactorily. For Garden Reach a plan of an experimental septic tank has been sanctioned by the Sanitary Board. In Dacca a septic tank has been constructed at a cost of Rs. 2,500 for the disposal of night-soil, but has not yet been used and tested. The septic tank which is being constructed by the Muzaffarpur Municipality is not yet complete. At Puri there is a proposal to replace, by a system of carts and depôts, the present primitive personal service for the removal of night-soil from private latrines to the trenching grounds. The work of improving the *bustis* in some of the crowded Municipalities in the district of the 24-Parganas, referred to in last year's Resolution, was continued during the year. The Magistrate reports that energetic action has been or is being taken in Bhatpara, Garulia, Cossipore-Chitpore, Titagarh, Garden Reach and Manicktolla; and the Commissioner adds that the work already done in this direction has been most valuable. It is encouraging to note that since the improvements were effected sickness has considerably declined in these *bustis*.

32. *Hospitals and Dispensaries.*—The expenditure under this head amounted to Rs. 5,10,329, an increase of Rs. 41,010 on that of the previous year. Agreeably to the instructions conveyed in last year's Resolution, plague charges, which were formerly included under this head, are now shown separately. These amounted to Rs. 23,024, so that the actual increase is much higher. It is shared by all the Divisions, except the Presidency and Orissa, and was largest in the Rajshahi Division, where it amounted to Rs. 20,364. The expenditure at Rangpur was no less than Rs. 25,184 in excess of that of last year, and was due to the construction of a new Dispensary building. Howrah increased its grant to the Hospital for the improvement of the native ward. In Nasirabad an out-door Dispensary was constructed as well as quarters for the Assistant Surgeon. In Chittagong an extra charge of Rs. 6,225 was incurred in the payment of the balance of the cost of construction of the General Hospital building. Where marked decreases occur they are generally explained by the fact that large capital charges had been incurred in the preceding year. There is no doubt that the duty of providing medical relief is fully appreciated by the generality of Municipal bodies, though among the smaller ones ten, against six in the previous year, incurred no expenditure under this head. Charges on account of plague were incurred in a greater or lesser degree by 43 towns. The largest expenditure under this head is returned by the Municipalities of

Arrah (Rs. 3,737) and Howrah (Rs. 3,024), while at some places it was merely nominal.

33. *Vaccination.*—The expenditure under this head (Rs. 21,628) shows a small increase of Rs. 80. The outturn of work is generally satisfactory, and in Howrah as many as 4,058 operations were performed. Cuttack comes next with 3,222, while Monghyr, Bhagalpur, Midnapur and Darjeeling return more than 2,000 each.

34. *Markets, slaughter-houses, &c.*—A subject to which the attention of Municipal Commissioners has been lately directed is that of the prevention of the spread of tuberculosis by the agency of food and drink. In a Circular No. 2M., dated 15th January 1904, Government drew attention to the dangers arising from unregulated sources of food-supply and pointed out the powers conferred by the law upon Municipal authorities enabling them to enforce proper sanitary precautions in markets, dairies and slaughter-houses. This warning has received marked attention, and in many towns to which the legal sections in question have not yet been extended, steps are being taken to put them in force. In several of the larger Municipalities whose funds permit of this extra charge, Sanitary Inspectors have been appointed for the more effective supervision of places where food and drink are prepared and sold; in others the Municipal Commissioners themselves have undertaken the duty. The expenditure under this head increased from Rs. 16,766 in 1902-1903 to Rs. 23,753 in the year under review.

35. *Public Works.*—The expenditure under this head amounted to Rs. 7,74,284, an excess over last year's expenditure of Rs. 28,436. The increase is most marked under the sub-head of roads, both construction and repair, on which Rs. 5,58,574 were expended against Rs. 5,34,206 in 1902-1903.

36. *Public Instruction.*—The total gross expenditure under this head, as shown in Form III, was Rs. 1,44,739 against Rs. 1,27,407 in the previous year. The total expenditure on Primary education, the details of which are given in Appendix E, amounted to Rs. 81,789 which is higher by Rs. 7,774 than that of 1902-1903. The percentage which this expenditure bears to the aggregate ordinary income of the Municipalities in Bengal is 2·8 against 2·7 in 1902-1903, and still falls below the general standard of 3·2 per cent. prescribed by Government. This standard, however, is exceeded in the Patna Division, where Primary education appears to have received special attention from Municipalities; and the expenditure under this head in the Presidency, Rajshahi, Bhagalpur, Orissa and Chota Nagpur is in excess of that of last year. The attainment of the prescribed standard is not perhaps the best criterion of success in this direction; for it is reported from some Divisions that certain Municipalities find a difficulty in spending the full amount of the budget allotment for education save by granting unnecessarily generous stipends or rewards. The general conclusion is that education, as a municipal duty, is not by any means neglected, and that adequate provision, consistent with the resources of each Municipality, is made for the most important branches of public instruction.

37. *Loans.*—Forty-two Municipalities were in debt to Government at the close of the year, and eleven fresh loans, to the total amount of Rs. 2,41,860, were taken during its course. Howrah obtained a loan of Rs. 1,00,000 for rebuilding the Buckland Bridge and Darjeeling one of Rs. 59,860 for the improvement of the electric light installation. Smaller loans were taken by the Manicktolla, Bhatpara, Titagarh and Garulia Municipalities for water supply projects; but the whole amount of that obtained by Manicktolla was refunded owing to the inability of the Corporation of Calcutta to supply the required quantity of water. The other loans of smaller amounts were for miscellaneous projects, such as office buildings, markets and sinking of wells. The outstanding loan balance of all the Municipalities in debt, that is, their total outstanding debts after deduction of the sums deposited in their Sinking Funds, amounted to Rs. 32,34,373, of which Rs. 32,11,072 are owed to Government. This is nearly 5 lakhs in excess of their ordinary income; but if Howrah is excluded, whose debt amounts to one-half of the whole and whose present financial position is above question, the net indebtedness of the debtor Municipalities is far more than covered by their ordinary income.

All the Municipalities paid the interest and instalments on their loans in full and no instance of default occurred As regards the Berhampore Municipality, however, the Commissioner of the Division remarks :—

"The Berhampore Municipality obtained a loan of Rs. 10,000 from Government towards the end of 1902-1903, in addition to a loan of Rs. 5,600 granted in the previous year. It also had a loan of Rs. 6,700 from Maharaja Manindra Chandra Nandy of Cossimbazar who is the Chairman of the Municipality. In order to enable it to liquidate its private loan, Government made it a grant of Rs. 5,000. The financial condition of the Municipality, however, did not admit of a full payment of the loan. This financial strain has been brought on by the heavy expenditure on the water-works, which the assets of the water-rate are not sufficient to cover. As at present situated, the ordinary expenditure exceeds the ordinary income by Rs. 983, and the total deficit, including loan instalments, comes to Rs. 4,391. The Magistrate points out that in existing circumstances the solvency of the Municipality is in danger."

This is the only Municipality whose solvency has been called in question; and the Lieutenant-Governor relies on the controlling officers to see that its finances are rehabilitated as early as possible, by the exercise, if necessary, of the most rigid economy in other directions. His Honour must also urge on the Commissioners the necessity of repaying without delay the irregular loan which they have contracted.

38. *Audit of accounts and embezzlements.*—Several cases of embezzlement, though generally of small amounts, came to notice during the year, most of them being facilitated by laxity of supervision over the collection establishment. The defalcations occurred in the Municipalities of Bhatpara, Tangail, Noakhali, Chapra, Darbhanga, Bhagalpur and Cuttack. The largest defalcation is that reported from Chapra, were the Accounts Department was found to be in a state of complete confusion. This has necessitated the appointment by Government, under Section 82 of the Act, of an officer to examine and re-organise the accounts system of this Municipality.

39. *Working of the Porters and Dandiwallas' Act.*—The Act was in force during the year only in the Darjeeling Municipality. The total number of porters and dandiwallas registered was 859 against 858 in the previous year, and the total cost of working the Act was Rs. 245 against Rs 272 in 1902-1903. The Act was carefully worked, a special officer being employed for the purpose; and the results were satisfactory as the number of prosecutions declined and no licenses were cancelled. Since the close of the year the provisions of the Act have been extended to the Kurseong Municipality.

40. In several of the foregoing paragraphs details of the administration of the Howrah Municipality have been singled out for special mention. The scale of its administration differs widely from that of an ordinary mufassal Municipality; its size and character render it only second in importance to Calcutta; and the lines on which its municipal problems must be dealt with resemble closely those followed in the neighbouring metropolis. With regard to the financial condition of this Municipality there is little to add to the remarks made in last year's Resolution. The percentage of collections to current demand is less, it is true, by 6 per cent. than that of 1902-1903, but this is mainly due to the fact that there were far fewer arrears to collect. It was shown last year how, in the five years preceding the Resolution then recorded, the outstanding balance had been reduced from 50·9 to 16·9 per cent. of the current demand. In the year just past it was still further reduced to 12·04 per cent. The improvements made of recent years are due to the vigorous action of Messrs. Duke and LeMesurier, late Magistrates and Chairmen. Before leaving the Municipality, the latter abolished the previously existing contract system of collection and took it under direct management. Still better results are anticipated in consequence of this change; and though the personal influence of Mr. LeMesurier has been removed, the Lieutenant-Governor is confident that his successor will devote equal attention to this all-important branch of administration.

The material improvements in the Municipality are no less satisfactoy. The administration of its water-works and the progress of its drainage have already been described. With regard to its sanitary condition, the Sanitary Commissioner remarked in his last report on the town: "I cannot but be struck by the very considerable improvement that has been effected in many respects, particularly in the conservancy arrangements and improvement of *bustis*." The latter is a point which requires the most careful attention, and much may

be done, on the model of the plan adopted in Calcutta, by the anticipatory alignment of all areas in which new *bustis* are likely to spring up with the object of preventing the construction of congested and airless habitations. The negotiations for the introduction of electric traction are making satisfactory progress; the Auckland Bridge is being rebuilt in conjunction with the East Indian Railway Company; and the lighting of the town has made considerable strides and may shortly be still further improved by the substitution of electricity for gas. These are the most prominent improvements effected in the year, but meanwhile minor requirements have not been overlooked, and in every department a steady and uninterrupted rate of progress has been maintained.

41. Sir Andrew Fraser has little to add tc the foregoing detailed account of the results of the past year, which indeed speak for themselves. His Honour is most gratified to find that the material advance in municipal government which Sir James Bourdillon was able to record has continued unabated. Instances of perfunctory and careless administration are singularly few; and though the Lieutenant-Governor has had occasion to admonish a few municipalities and even to suspend two, he is well satisfied with the individual and collective results of the municipal administration of the year just expired. His Honour must congratulate the whole body of Commissioners and office-bearers, both upon the public spirited manner in which they devote themselves to municipal affairs and upon the steady and genuine progress that they continue to achieve. He has had opportunities, in the course of his tours during the last 12 months, of seeing many of the Municipal towns, of privately discussing Municipal affairs with the leading non official members of the Committees, and of meeting not a few of the Committees in a public way. He has been much struck with the intelligent appreciation of their responsibilities and duties which has been generally evinced by these gentlemen. He has been specially struck by the apparently increasing desire on the part of the Committees to systematise their work and make it in that way thoroughly effective. He has been gratified to find the earnest manner in which most of the local officers co-operate with the Committees in the administration of Municipal affairs, and the cordial spirit with which the non-official members of the Committees as a rule respond to this co-operation. It is also very gratifying to find the interest which wealthier citizens frequently take in the well-being of the town, and the liberal assistance they are often ready to give in carrying out important but expensive improvements for the benefit of the people generally. In His Honour's opinion the great object of Local Self Government is to bring the people generally into thorough co-operation with the Government in advancing local interests. The work is better done if the people take their share in doing it; and it is only where the people fail to rise to their responsibilities in the matter that Government would desire in any way to interfere with their administration of local affairs.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR 1903-1904.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 13th December 1904.

RESOLUTION—No. 3884.

READ—

The Report on Public Instruction in Bengal for the year 1903-04.

The report, which was due to Government on the 1st October, 1904, was received on the 18th of that month. The Department was in charge of Mr. A. Pedler, F.R.S., C.I.E., from the 1st April to the 14th May, 1903, and again from the 18th August, 1903 to the 22nd March, 1904. Mr. A. C. Edwards, Principal of the Presidency College, Calcutta, officiated as Director during Mr. Pedler's absence on privilege leave from the 15th May to the 17th August, 1903.

2. Among various measures of improvement carried out during the year under review, the following deserve special mention on account of their far-reaching importance:—

(1) the opening of training classes for Hindu and Muhammadan widows and school-masters' wives so as to enable them to become teachers in girls' schools on the lines of a well-established system in force in the Madras Presidency;

(2) the extension of the system of appointing zanana teachers for women and girls of respectable family and position who by the custom of the country do not appear in public;

(3) the steps taken to improve the training schools for teachers of Primary schools and to increase the number of such schools; and

(4) the preparation of a comprehensive scheme for developing and making grants-in-aid to the indigenous Muhammadan Primary schools which exist throughout the Province.

General statistics of institutions and pupils in respect of primary and secondary education.

3. During the year under review there was an increase of 3·8 *per cent.* in the total number of educational institutions of all kinds and of 7·9 *per cent.* in the total number of pupils, the increase in the previous year having been 2·9 and 5·2, respectively. High and Middle English schools and pupils both increased. Although there was a further decline in the number of Middle Vernacular schools, there was a slight increase in the number of pupils attending schools of this class. The expansion of Primary schools was well maintained during the year, the number of such institutions having risen by 3·5 *per cent.* and the number of pupils by 8·2 *per cent.* There is still however only one school for every three villages in the Province, and the need for further development is year by year more keenly felt.

Education of Indian females.

4. It was observed in last year's Resolution that the various measures taken by Government with the object of advancing and encouraging the education of females in this Province had borne some fruit, and that there had been a substantial increase during the year 1902-1903 both in the number of institutions of this class and in the number of pupils attending them. During the year 1903-1904 the progress of this important branch of education has been much more rapid; the number of schools having increased by 36·5 *per cent.* and the number of pupils by 28·1 *per cent.* Altogether 148,874 girls were under instruction, as against 116,169 in the previous year and 96,050 in the year 1901-1902, the increase being most marked in the number of pupils attending Lower Primary schools. Encouraging as these results are, the proportion of female students to the total number of girls of a school-going age (2·8 *per cent.*) is still insignificant; and the need for patient and continued effort and for the loyal co-operation of the Hindu and Muhammadan communities remains undiminished.

5. One of the greatest difficulties hitherto experienced in establishing and maintaining schools for Hindu and Muhammadan girls has been the lack of qualified female teachers; and, as stated in last year's Resolution, steps were taken during the year 1902-1903 to improve the educational qualifications of teachers of this class and to increase their number by opening training classes in connection with several High English and Mission schools. In pursuance of the same object, it was decided during the year under review to encourage schoolmasters' wives and Hindu and Muhammadan widows to qualify as teachers; and, as an experimental measure, training classes for persons of these classes have been opened at suitable places, stipends being given to pupils who are ready to undergo the prescribed course of instruction.

6. Attention was drawn last year to the general reluctance displayed by parents to allow their daughters to continue their studies after they have reached a marriageable age. In order to meet such cases, the system instituted in the year 1902-1903 of appointing zanana teachers for women and girls of respectable position and family who by the custom of the country do not appear in public was extended; while it has recently been decided to allow girls who obtain Primary or Middle scholarships to retain their stipends even if they do not attend a school, provided that they prosecute their studies under suitable teachers and show good progress at the end of the year.

Education of Muhammadans

7. It was observed in the Resolution recorded on last year's report that during the year 1902-1903 there had been an increase of 5·8 *per cent.* in the number of Muhammadan pupils under instruction, as compared with an increase of 5·2 *per cent.* in the total number of pupils of all religions. It was remarked that this was a hopeful sign, and that the Lieutenant-Governor trusted that it might indicate a real and lasting awakening on the part of the community to the advantages of education. So far as can be judged from the figures for the year 1903-1904, there are hopes that this anticipation may be fulfilled, the number of Muhammadan pupils having shown a further increase of 11·7 *per cent.*, as compared with an increase of 7·9 *per cent.* in the number of pupils of all religions. Important results are also anticipated from a scheme elaborated during the year under review by a conference of experts, over which Dr. Ross, Principal of the Calcutta Madrasah, presided, for developing the indigenous Muhammadan Primary schools which exist throughout the Province. This scheme has received the Lieutenant Governor's sanction and will be brought into operation as soon as funds permit.

Collegiate education.

8. The number of Arts Colleges was 46, as against 45 in the previous year; while the total number of students remained practically the same. There was again a decrease in the number of students who appeared at the F.A. Examination, amounting to 177, or nearly 5 *per cent.* On the other hand, the percentage of successes rose by 2·7, as against a decline in the year 1902-1903 of 15·9. The total number of candidates for the B.A. Examination was 1,898, as against 1,711 in the previous year, of whom 284 were successful, as compared with 357 in 1902-1903. Altogether 14 candidates presented themselves for the B.Sc. Examination, of whom 5 only were successful. At the M.A. Examination 200 candidates appeared, as against 190 in the previous year; and of these, 70, the same number as in the previous year, succeeded in passing the examination.

9. The Director remarks that the results of the University Examinations were generally unsatisfactory, but that those of the B.A. Examination are extraordinarily bad. Mr. Pedler states that this failure was partly due to the fact that the candidates sent up from many Colleges in the year under review were not up to the standard of previous years; but he also thinks it probable that the tests for passing these examinations, which have been generally recognised as undesirably low, have been raised by the examiners.

10. Towards the close of the year under review Sir Andrew Fraser decided to remove the Dacca College from its present position in the City to an open site on the outskirts of Dacca. The new buildings will include houses for the Principal of the College and some of the professors, and hostels for a considerable proportion of the students. Good progress has already been made with this scheme.

Commercial classes at the Presidency College.

11. Special Commercial classes were opened in June 1903 at the Presidency College. Few students have however hitherto joined these classes, and but little progress has yet been made. This subject is now under the special consideration of the Lieutenant-Governor. At His Honour's request a Conference of representative gentlemen interested in this branch of education has lately met and discussed the whole question. The views of the Conference will be awaited by him with much interest.

Secondary education.

12. The number of Secondary schools for Indian boys was 2,442, as against 2,441 in the year 1902-1903. Middle Vernacular schools declined by 46, while High English and Middle English schools increased by 11 and 36 respectively. As noticed in last year's Resolution, the tendency is to convert Middle Vernacular schools into Middle English schools and to develop the latter in their turn into High English schools.

13. Altogether 5,971 candidates were sent up for the Entrance examination, as against 5,623 in the year 1902-1903; while the number of successful candidates was only 2,351 (39·3 *per cent.*), as compared with 2,622 (46·6 *per cent.*) in that year. These results are, as the Director observes, extremely disappointing; and an examination of the figures of recent years shews that the process of deterioration has been proceeding steadily for several years past, and that it has affected Government schools as well as aided and private schools. More candidates are now sent up than in previous years, but the number of successful candidates is considerably less. Mr. Pedler observes that as the gentlemen who conduct the Entrance examination are generally the same from year to year, these figures tend to show that the teaching in High schools is deteriorating, or that there is an increasing tendency to send up boys who are insufficiently prepared or are too young. In paragraph 15, page 21, of his report, Mr. Pedler observes that a comparison of the qualifications of teachers at such schools during the last two years shews that the number of M.A.'s and B.A.'s employed has declined by 9 and 16 respectively, and that graduates do not take readily to educational work. The Lieutenant-Governor trusts that one of the results of the Universities Act will be that pupils will be better prepared for this examination and will not be allowed to present themselves at it at too early an age. His Honour is unable to accept the view taken by Mr. Pedler that the qualifications of teachers in High schools have declined. A statement which he has had prepared for the last ten years shows that it is only in the year under review that a slight falling off in that respect has occurred, and that in the nine previous years the increase in the proportion of qualified teachers on the establishments of the various classes of schools kept pace with the increase in the number of pupils.

Technical and industrial education.

14. As in the preceding year, technical education was imparted at the Civil Engineering College, Sibpur, the Bihar School of Engineering, the Survey Schools at Dacca, Cuttack and Angul, and also at schools affiliated to the Sibpur College. The number of Industrial schools rose from 25 to 27, and the number of pupils attending them from 701 to 806. Of these schools, 1 is maintained by Government, 6 are supported by District Boards, 15 are aided from public funds, and 5 are unaided. Measures are at the present time being taken in accordance with the orders passed by the Government of India in their Resolution reviewing the Report of the Industrial Education Committee to improve the organisation of the existing technical and industrial schools throughout the Province.

15. A scheme for establishing schools for the purpose of imparting instruction in respect of the best and latest methods of cotton, silk and wool weaving, combined with a general education up to the Primary standard and teaching in drawing and designing, has recently been submitted to the Government of India and is at the present time under the consideration of that Government. It is well known that a great hand-loom industry exists in Bengal. Its condition however is precarious; and it is considered essential that, if it is not to be allowed to sink further into decay, really practical technical instruction should be provided for all classes of weavers, except the very small number who are employed in artistic work, to which mechanical improvements are not

applicable. It is notorious that the great mass of Indian weavers still use the old Indian hand-loom and warping apparatus, and are ignorant of the extraordinary mechanical improvements which have been made, since the middle of the eighteenth century, as regards these appliances and the preparatory processes of weaving. Several of the most important of these improvements are inexpensive, do not require great technical skill, and can easily be adapted to ordinary Indian weaving. There is, therefore, reason to hope that, if such a scheme is sanctioned, it may be productive of good results.

16. Schemes were submitted during the year to the Government of India for establishing a curriculum of mining instruction at the Sibpur Engineering College and for imparting practical instruction in mining in the mining districts. These schemes, which have been prepared with the help of representatives of the Indian Mining Association and expert officers of Government, including the Director-General of Geology and the Chief Inspector of Mines, are at the present time under the consideration of the Government of India.

Primary schools.

17. During the year 1902-1903 the number of Primary schools for Indian boys increased by 3·2 *per cent.* and the number of pupils by 6·1 *per cent.* It is very satisfactory therefore to find that there has been a further improvement during the year under review, the increases under the heads indicated having been 3·5 and 8·2 *per cent.* respectively. As pointed out however in paragraph 3 of this Resolution, there is still only one school to every three villages in Bengal; and the number of schools of this class must be very largely increased before any real satisfaction can be felt.

18. Considerable advance was made with the scheme sanctioned last year for establishing training schools to which teachers in primary schools are sent for a two years' course of training in the art of teaching. Altogether 41 additional schools of this class were opened during the year. Many more schools of this class are however urgently required; and, as soon as the necessary funds are forthcoming, this will be one of the first charges which will have to be met.

Hostels.

19. The Director observes that the usefulness of hostels is now thoroughly appreciated, and that many colleges and schools have institutions of this class attached to them. Mr. Pedler observes however that the accommodation at present available at these institutions is altogether inadequate, providing, as it does, for only 2 *per cent.* of the students attending Arts Colleges and Secondary schools.

20. It has been found that the existing rules for the regulation of hostels and students' messes are ineffective, that the students are frequently left without proper supervision and control, and that the conditions under which they live are in many instances extremely undesirable. The subject is engaging the serious attention of the Lieutenant-Governor at the present time, and a Conference of the heads of institutions in Calcutta has been convened for the purpose of considering the subject. His Honour trusts that, as a result of the deliberations of these gentlemen, it may be possible to prepare a body of regulations which will be of practical utility for the future.

21. The question of enabling District Boards to contribute towards the construction and maintenance of hostels, which was raised by the Director in his report for the year 1902-1903, received careful consideration during the year. The local officers and authorities who were consulted in the matter were practically unanimous in recommending legislation, and proposals on the subject will shortly be submitted to the Government of India.

Inspection.

22. The failure on the part of certain Sub-Inspectors of Schools to spend the prescribed number of days on tour was noticed in the Resolution for the years 1901-1902 and 1902-1903, and instructions were issued that the standing orders on the subject must be enforced in future. Further instances of remissness are again reported, and special measures will now be taken to bring home to the officers concerned their responsibility in this matter.

The position of District Officers and Divisional Commissioners in regard to education.

23. District Officers are already, in their capacity as Chairmen of the District Boards, in a position where they may be in close touch with education in Primary and Middle schools; and the Lieutenant-Governor warmly

acknowledges the valuable services rendered by many such officers in this department of work. Their relation to education in High Schools and Colleges is, however, His Honour considers, not as satisfactory as it might be, and he will endeavour to remedy this defect at an early date. He will at the same time consider how far the influence of Commissioners of Divisions in regard to all classes of education may be strengthened. Numerous schemes of educational reform are now in process of development, and it is essential that all District Officers and the higher administrative officers of Government should take an active interest in their progress.

24. Sir Andrew Fraser wishes to place on record his high appreciation of the services rendered during the year by Mr. Pedler. As indicated in the last paragraph, numerous schemes of reform are under consideration, and in all of these his advice and experience are of great value. Many of the schemes referred to have been matured and will be introduced as soon as funds permit. His Honour trusts that it may be found feasible to give effect to not a few of them during the coming year 1905-06.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Secretary to the Govt. of Bengal.

REPORT ON THE EARLY COTTON CROP OF BENGAL, 1904.

THE following report is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

The 9th December 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

REPORT ON THE EARLY COTTON CROP OF BENGAL, 1904.

Explanatory.—This report furnishes estimates of area and outturn of the early cotton crop, that is, the crop that is sown before the monsoon rains begin and harvested early in the cold weather. Estimates of the late crop, which is sown partly before and partly after the rainy season and harvested in the hot weather, will be published in February.

2. *Character of the season.*—The early cotton crop is grown principally in the Chittagong Hill Tracts, and in the districts of Sonthal Parganas, Manbhum, Singbhum, Ranchi, Cuttack, and Hazaribagh. There was very heavy rain in April in the Chittagong Hill Tracts which prevented the *jhooms* from being properly burnt, and resulted in the seeds germinating poorly. Heavy rain from May to August seriously affected the crop in Hazaribagh and Ranchi. In Orissa the crop suffered on the other hand from want of rain all through the monsoon season.

3. *Area sown.*—The appended table summarising the district reports would show that the normal area under early cotton in these Provinces is 61,600 acres, against 70,400 acres shown as normal last year. The difference is due to the revision of the normal area in some districts, *e.g.*, Monghyr, Balasore, Puri, Hazaribagh and Manbhum.

The area sown this year is estimated at 52,000, against 57,100 acres of last year. This decrease is due partly to unfavourable weather and partly also to revision of the areas by some of the district officers. The normal area under cotton and the outturn per acre in the more important districts are at present under investigation, and all the four travelling overseers of this department have been deputed for the purpose, but their reports have not yet been all received.

4. *Character of the crop.*—Only one district out of fifteen, *e.g.*, Jalpaiguri, reports a normal crop. Six districts, *e.g.*, Midnapore, Bhagalpur, Sonthal Parganas, Cuttack, Balasore, and Singbhum, report from 90 to 99 per cent. Five districts report from 60 to 80 per cent. Chittagong Hill Tracts, which is the most important cotton growing area in the Province, reports only 55 per cent., while the lowest is reported from Puri (50 per cent.) and Palamau (40 per cent.). The outturn for the Province as a whole according to the district returns comes to 71 per cent. of a normal crop. It would be safe to estimate the outturn as 75 per cent.

5. *Outturn.*—The total yield of the early cotton crop this year is estimated at 4,960,500 lbs., against 6,058,100 lbs. of last year. The average yield of the preceding ten years amounted to 6,128,600 lbs.

FINAL FORECAST OF THE WINTER RICE CROP OF BENGAL, 1904.

THE following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

The 9th December 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

FINAL FORECAST OF THE WINTER RICE CROP OF BENGAL, 1904.

Character of the season.—The ante-monsoon showers were below the normal except in North and East Bengal. In April also the rainfall in those parts was heavy, but moderate elsewhere. In the following month, it was above the normal throughout the Province except Orissa. The fall in June was deficient in North and East Bengal, heavy in Chota Nagpur and Orissa, and almost normal in other parts of the Province. The deficit in Orissa continued through July, although everywhere else it was copious and general. In August, Orissa got its normal rainfall, Patna and Chota Nagpur Divisions as well as the districts of Bhagalpur and Monghyr got an excess, but the fall in the remaining districts was much below the normal of that month. The rainfall in the following two months was very low, and from the middle of September to the middle of October there were scarcely any good showers anywhere. There was good rain, however, in Behar in the latter part of October which saved the crop to a great extent. There was a flood in East Bengal in November which did considerable damage to the standing crops, while the rest of the Province continued to suffer from the drought. On the whole the season has been an unfavourable one for the winter rice crop of the Province.

2. *Area cultivated.*—Since the issue of the preliminary forecast, the District officers of the 24-Parganas, Nadia and Balasore have submitted revised figures of normal area, and the total *normal* area under this crop in the Province now stands at 30,782,600 acres against 30,554,600 acres reported last year. The area *actually* under winter rice this year is estimated at 30,217,900 acres. The estimate of normal area is based upon ascertained data in only 21 districts which

have been surveyed wholly or to a great extent and whose normal acreage under this crop is 8,766,725 acres, and the actual area under the crop this year in those districts is estimated at 8,827,108 acres.

3. *Character of the season.*—Out of the 45 districts in the Province, only six (viz., Dacca 110 per cent., Mymensingh 110 per cent., Rajshahi 100 per cent., Faridpur 100 per cent., Tippera 100 per cent., and Bhagalpur 100 per cent.), report a crop of 100 per cent. or over. In 11 districts, namely, 24-Parganas, Khulna, Darjeeling, Rangpur, Pabna, Backergunge, Noakhali, Chittagong, Saran, Darbhanga, and Balasore, the crop is estimated at between 90 and 99 per cent. The estimate in 22 districts varies between 70 to 89 per cent., in five others it varies from 60 to 69 per cent., while Nadia, with 59 per cent., shows the smallest outturn of all. Since the submission of the preliminary forecast the prospects of the crop have improved in seven districts, deteriorated in 29, and have remained stationary in the remaining 9.

4. *Gross outturn.*—Accepting the estimates of the District officers as correct, the outturn of the crop for the Province as a whole works out to 86 per cent. of a normal crop. The gross outturn on 30,217,900 acres may thus amount to 286,391,700 cwts. against 271,721,600 cwts. finally estimated in 1903.

S. L. MADDOX,

Director of Land Records and Agriculture, Bengal.

The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·19

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M. of that day

⌓, dew.

5. No person shall aid or assist any person to immigrate into Southern Rhodesia in contravention of the provisions of this Ordinance.

Power of Administrator to make regulations.

6. (1) The Administrator may, with the advice of the Executive Council, make regulations— .

* * * * * *

(*e*) to prescribe penalties for the contravention of any such regulations; provided that no penalty in respect of any one contravention shall exceed £100, or, in default of payment thereof, imprisonment with or without hard labour for a period not exceeding twelve months, or imprisonment with or without hard labour without the option of a fine for a period not exceeding six months;

* * * * * *

Penalty for immigrating into Territory in violation of provisions of Ordinance

7. Any person immigrating into Southern Rhodesia in violation of the provisions of this Ordinance or any regulations duly framed thereunder shall be liable—

(1) to be removed from within its limits, and
(2) to be kept in such custody as may by regulation be prescribed, pending such removal.

Penalty for assisting prohibited immigrants to enter Territory.

8. Any person who aids or assists any person in the contravention of any of the provisions of this Ordinance shall be liable for each offence to a penalty not exceeding £50, and in default of payment to imprisonment for a period not exceeding three months with or without hard labour, or to both such penalty and such imprisonment.

Penalty for making false statement.

9. Any person making any false statement in order to procure any certificate or recommendation for the purposes of this Ordinance shall, upon conviction, be liable to—

(1) a fine not exceeding £50, and in default of payment to imprisonment with or without hard labour for a period not exceeding six months; or
(2) such imprisonment without the option of a fine; and
(3) in addition, to be removed from within Southern Rhodesia to beyond the borders thereof at any point.

* * * * * *

Extract from the Regulations framed under the Southern Rhodesia Immigration Restriction Ordinance, 1903.

* * * * * *

5. Any person before being permitted to enter within the territory of Southern Rhodesia shall be required to satisfy the Immigration Officer that he is either not a person falling within the class "A" hereunder mentioned, or that he is a person falling within one or other of the classes "B," "C" and "D" hereunder, that is to say—

"A."—That he is not a prohibited immigrant within the meaning of the second section of the said Ordinance, or

"B."—That he is a person coming within the provisions of the third section of the said Ordinance or any amendment of such section to whom the restrictive provisions of the said Ordinance do not apply, or

"C."—That he is a person proceeding to some place beyond the limits of Southern Rhodesia and that he intends to proceed to his destination with all due celerity, or

"D."—That he is a *bonâ fide* traveller, and that he does not intend to remain in or to become domiciled in Southern Rhodesia.

* * * * * *

ORDERED that a copy of the above Resolution be forwarded to all Local Governments and Administrations and to the Home and Foreign Departments, and that it be published in the *Gazette of India* for general information.

GENERAL LETTER No 15

To

THE DISTRICT AND SESSIONS JUDGE OF

Dated Calcutta, the 30th November 1904.

SIR,

HIGH COURT. ENGLISH DEPARTMENT. (Civil.) (Criminal.)

I AM directed to request that you will be good enough to arrange for the absence from your Court of Jain officials, suitors and witnesses on the day on which the annual Jain festival, "Kartic Purnima," falls, when such absence will not result in public inconvenience or in obstructing the proper administration of justice.

2. You are further requested to issue similar orders to the Civil Courts subordinate to you.

I have the honour to be,

SIR,

Your most obedient servant,

R. SHEEPSHANKS,

Registrar.

EDUCATION DEPARTMENT, BENGAL.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorising the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the opium advertised for sale; No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1903-1904, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.:

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

QUESTIONS AND ANSWERS.

OUTRAGE BY RAILWAY GUARDS AT ASANSOL.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*a*) Has the attention of the Government been called to the facts of a case reported in the *Bengalee* newspaper of the 14th July, in which certain serious allegations are made of assault and outraging the modesty of some Indian women, committed by three European Railway guards at Asansol ?

(*b*) Is it the case that the inquiry was taken up by the Railway Police, who collected evidence, but that Mr. Colvin, the District Traffic Superintendent, wrote to the Assistant Inspector-General of Police to drop the prosecution on the grounds (1) that the guards are all married men and have uniformly borne a good character ; (2) that it is their first offence, and (3) that the European Station Master reports that the guards were fooling themselves under the influence of liquor ?

(*c*) Does the Government approve of this proceeding on the part of the District Traffic Superintendent, and will the Government be pleased to state what has been the sequel of the case ?

(*d*) Having regard to the paramount importance of ensuring the safety of Indian women travelling by our Railways against outrages, and the fact that there have been some very gross cases of outrage at Asansol in the past, will the Government be pleased to take the necessary measures so as to ensure the law taking its course and prevent a failure of justice, owing to the interference of the District Traffic Superintendent ?

The Hon'ble MR. CARLYLE replied :—

"(*a*). The attention of Government has been drawn to an occurrence which took place at Asansol on the 10th of July. Government has also noticed the article in the *Bengalee* on the same subject to which the Hon'ble Member draws attention.

"(*b*). The Railway Police inquired into the matter, but no case was instituted as no specific charge was laid by any person. It is not the case that the District Traffic Superintendent wrote to the Assistant Inspector-General, Government Railway Police, Howrah, in the terms suggested in the question under reply. The only communication received by the Assistant Inspector-General on the subject was a letter from the Traffic Manager in which he stated that he had taken the matter up departmentally and dealt severely with the guards.

"(*c*) and (*d*). As serious allegations, amounting to charges of outrage, had been made with reference to the occurrence, Government called for the papers of the case ; and although the charges of outrage were in no way supported, it was clear that a *primâ facie* case under section 120 of the Railway Act had been made out against two of the guards. They were accordingly prosecuted under that section, with the result that they were convicted and fined by the Sub-divisional Officer of Raniganj."

BIHAR SCHOOL OF ENGINEERING.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*a*) Is it a fact that the following rule appears in the prospectus for admission into the Bihar School of Engineering, *viz.* :—

The number of students admitted to the first year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (*viz.*, natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar) : but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, the vacancies thus occurring can be given to those applicants who are natives of the North-Western Provinces or non-domiciled Bengalis, in that order.

(*b*) Do the Governments of the North-Western Provinces and Central Provinces contribute towards the cost and maintenance of the Bihar School of Engineering, or is the school entirely maintained by the Government of Bengal; and, if so, in what proportions as against the Government of Bengal?

(*c*) If the school is maintained by the Government of Bengal, is there any special allocation of revenue from Bihar for the maintenance of the school, or is it maintained out of the general revenues of the province?

(*d*) Does the Government think that preference should be given—

(*i*) to Bihari boys, as against Bengalis domiciled in Bihar?

(*ii*) to boys of the North-Western Provinces and the Central Provinces, as against both domiciled and non-domiciled Bengali boys?

The Hon'ble MR. EARLE replied:—

"(*a*). The Hon'ble Member appears to have been misinformed. If he will refer to the Calcutta Gazette of the 6th July, 1904, he will observe that the following rule was published with the revised prospectus for admission to the Bihar School of Engineering:—

The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (*viz.*, natives of the United Provinces, Central Provinces, or Bengalis); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the United Provinces, Central Provinces, or Bengalis domiciled in Bihar or non-domiciled Bengalis.

"The previous rule on the subject, which had been in force since the year 1900, was as follows:—

The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (*viz.*, natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the North-Western Provinces, Central Provinces, or Bengalis domiciled in Bihar, in that order.

"As the Hon'ble Member will observe, this rule has now been revised so as to allow of the admission of Bengalis, whether domiciled in Bihar or not, and so as to abolish the preference formerly shown to natives of the United Provinces and the Central Provinces. The practice of admitting natives of those Provinces to the Bihar School of Engineering is an old one which was merely continued and recognised in the rules framed in 1900.

"(*b*) and (*c*). The Bihar School of Engineering was opened in July, 1896, and owed its origin to the fund known as the 'Prince of Wales' Reception Fund,' which was raised by Bihari gentlemen to commemorate the visit to India of His Majesty the present King-Emperor, and the object of which was to promote technical instruction in Bengal. The cost of the school is met by the Government of Bengal from the general revenues of the Province, and, to a small extent, by the interest of the Fund referred to.

"(*d*) (*i*). As explained in my previous answer, the school owes its origin to, and is partly supported by, an endowment which was subscribed entirely by the residents of Bihar. In these circumstances and because the number of students admissible to the school is limited by the available space, it has been laid down that in admitting students preference should ordinarily be given to Biharis as against Bengalis domiciled in Bihar.

"(*d*) (*ii*). It has already been explained in my answer to the first question that preference is not given to natives of the United and Central Provinces as against domiciled and non-domiciled Bengalis."

THE CENTRAL TEXT-BOOK COMMITTEE.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*a*) Will the Government be pleased to state the total number of the members of the Central Text-Book Committee and that of the Muhammadan members, and if the latter number is proportionate either to the Muhammadan population or to the number of Muhammadan students under vernacular instruction?

(*b*) Will the Government be pleased to inquire and state if books objectionable to Muhammadan religious feeling are in use in the vernacular schools, and will the Government take early steps to remedy the evil?

(*c*) Will the Government be pleased to lay on the table a statement showing separately the figures of the Hindu and Muhammadan Middle Vernacular Scholarship-holders during the last 10 or 5 years; and will the Government be pleased to consider the expediency of setting apart or creating a specified number of scholarships to be competed for by Muhammadan students exclusively for the encouragement of education amongst Muhammadan boys?

The Hon'ble MR. EARLE replied:—

"(*a*) There are twenty-one members of the Central Text-Book Committee, of whom seven are Europeans, twelve are Hindus or Brahmos, and two Muhammadans. Taking into account only the Indian members of this Committee, the percentage of Muhammadan members is therefore fourteen, whereas the Muhammadan population represents 32 *per cent.* of the population of the Province, and the number of Muhammadan students under vernacular instruction represents nearly 33 *per cent.* of the total number of students under such instruction. The chief reason why the number of Muhammadans on the Committee is small is that the text-books are mostly written in Bengali, and that the number of Muhammadans with an accurate knowledge of Bengali and ready to write text-books is not large. The Lieutenant-Governor will, however, endeavour to secure a stronger representation of Muhammadans on the Committee.

"(*b*) Government has no reason to believe that any books objectionable to Muhammadan religious feeling are in use in vernacular schools. The Muhammadan members of the Text-Book Committee are always asked to be present at the meetings of the Committee at which the selected text-books are finally passed, and no objections of this nature have been raised by them.

"(*c*) The figures showing the number of Hindu and Muhammadan vernacular scholarship-holders during the last five years are—

Year.	Total number of middle vernacular scholars as far as can be traced.	Number of scholarships held by Hindus.	Number of scholarships held by Muhammadans.	Percentage of scholarships held by Muhammadans.
1899	192	160	32	16
1900	187	163	24	13
1901	176	145	31	18
1902	208	175	33	14
1903	201	178	23	11

"The percentages seem to indicate that it is desirable that a specified number of these scholarships should be set apart to be competed for by Muhammadan students exclusively, as is the case already with the senior and junior scholarships. The Lieutenant-Governor will take this matter into his consideration at an early date."

FOREST CASES IN KHULNA.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*a*) Has the attention of Government been called to a paragraph in the *Amrita Bazar Patrika* of 29th November last about the way in which forest cases are being dealt with in Khulna?

(*b*) Is it true that the trying Magistrate tries these cases on board the steamer belonging to the Forest Department without giving any opportunity to the accused persons to defend themselves?

(*c*) Is there any truth in the impression which prevails at Khulna, as reported in the *Amrita Bazar Patrika* of the 26th November last, that an order has been issued from some high authority to severely deal with the offenders against the Forest Laws?

The Hon'ble MR. EARLE replied:—

"(*a*) The attention of Government has been drawn to the paragraphs in the newspaper referred to.

"(*b*) Forest cases are usually tried at the head-quarters of the district or at the sub-divisions; but the District Magistrate has taken up some cases himself, and these he has sometimes tried locally; and he has sometimes used the steamer belonging to the Forest Department to get to the spot. The Commissioner has advised the District Magistrate not to make use of the steamer in question for that purpose in future. It is not true that accused persons have not been given opportunities of defending themselves.

"(*c*) No order has issued from high authority that offenders against the Forest Law should be dealt with severely. But, owing to numerous thefts of forest produce from the reserved forests, which have occurred, great loss has accrued to Government. The Forest Department in taking these cases into Court presses for the adequate punishment of offenders who are found guilty. This procedure has been adopted under the best legal advice. It is hoped that the necessity for taking special measures in respect of these cases will soon cease."

THE MANICKNAGHAR GHAT AND ROAD AT BHADRESWAR.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*1*) Has the attention of Government been drawn to an article in the *Amrita Bazar Patrika*, dated 10th November, 1904, under the heading "A petty matter involving important principles"?

(*2*) Is it true that the Manicknaghar Ghât and road at Bhadreswar, in the district of Hooghly, were ostensibly acquired in terms of the Government declaration for a public purpose but have been or are intended to be made over to a private Company?

(*3*) Is the Government aware that a resolution of the local municipality, passed in February, 1900, making over the ghât to the Company was rescinded by the Government of Sir John Woodburn?

(*4*) Is it not a fact that several petitions have been submitted to Government by the residents of the locality against the road being made over to the Company, on religious and public grounds?

(*5*) Does the Government consider it right to acquire a public road and a bathing ghât under the provisions of the Land Acquisition Act and make them over to a private Company?

(*6*) Has the Government taken the opinion of its Law Officers as to the legal aspect of the question?

(*7*) Is the Government prepared to re-consider its Resolution of the 17th of September last?

The Hon'ble MR. SHIRRES replied:—

"The Lieutenant-Governor has seen the article referred to in the 1st question of the Hon'ble Member.

"The 2nd, 5th and 7th questions may be answered together The Hon'ble Member will find the declaration for the acquisition of the land in page 141, Part IB of the Calcutta Gazette of the 25th May, 1904. The views

and intentions of Government are fully explained in a Resolution No. 8159T.M., dated 17th September, 1904, a copy of which has been placed on the table. The Government is not prepared to re-consider that Resolution.

"To the 3rd, 4th and 6th questions the answer in each case is in the affirmative."

MUNICIPAL DEPARTMENT—MUNICIPAL.

RESOLUTION No. 1859T.M.

Darjeeling, the 17th September, 1904.

A petition dated 12th August, 1904, from Babu Hurry Mohun Banerjee and other inhabitants of the Bhadreswar Municipality on the same subject.

A petition dated 22nd August, 1904, from Babu Sutto Kripal Banerjee and six other inhabitants of the aforesaid Municipality, in which they withdraw their signatures from the memorial dated the 12th August, and explain the misrepresentation owing to which their signatures were affixed.

RESOLUTION.—A Declaration No. 791T.M., dated the 23rd May, 1904, was published in the Calcutta Gazette of the 25th *idem*, in which it was stated that the land known as Manicknaghar Ghât Road was required to be taken up by Government at the public expense for a public purpose, *viz.*, for the improvement of the means of public access to and the provision of facilities for the public at the river Hooghly. The circumstances in which the Declaration was published are the following:—

2. The land on either side of the Manicknaghar Ghât Road is in possession of Thomas Duff and Company, Limited. The Company are the Managing Agents of jute mills situated on the banks of the river Hooghly; and they had acquired the land adjoining the Manicknaghar Ghât Road for the purpose of erecting a jute mill. The Company desired to acquire the Manicknaghar Ghât Road in order to lay out a more complete compound within which to erect a mill with godowns and dwelling quarters after the latest and most improved designs.

3. In order to compensate the Municipality for the closure of the public road the Company made the following offer:—

(1) That they would cause the sum of Rs. 6,000 to be expended for the following purposes and works:—

(*a*) The construction of a new pucca road over the land of the Company continuing the Patrapara Road down to the Paikpara Bathing Ghât Road.

(*b*) The improvement of the existing path running northward from the Grand Trunk Road opposite to the end of the Koila Ghât Road.

(*c*) The erection of a pucca masonry ghât on the river side at the eastern end of the Koila Ghât Road.

(2) That the Company would pay and make over to the Municipality of Bhadreswar the sum of Rs. 30,000 to be expended in the purchase of a public park or grazing ground, or for such other public purposes as might be thought proper.

4. The Manicknaghar Ghât Road is not a thoroughfare, but is used by the occupants of the adjacent houses as a means of access to the river bank for bathing and other purposes. Had the Company been obliged to erect the mill premises on their land on both sides of the road, it would clearly have rendered the road most unsuitable for its present purpose of access to and from the river for bathing purposes, and would have entirely destroyed the privacy desired by the female portion of the community. It appears, therefore, that

if the road were not given to Messrs. Duff and Company they would be obliged to exercise their rights over their own property in such a way as to cause inconvenience to themselves and their own employés, and also to cause inconvenience to a considerable section of the outside public, who would get no sort of compensation. On the other hand, if the road were given to the Company, the public would be delivered from inconveniences which they would otherwise suffer, and would receive conveniences which they otherwise could not have. The acquisition will be decidedly to the public advantage. It will prevent friction between the public and the mill hands by enabling the mill authorities to exercise supervision over their servants within their own premises and by securing certain specified benefits to the public.

5. The Lieutenant-Governor personally visited the spot on the morning of the 14th August and walked all over it. The persons found using the Manicknaghar Bathing Ghât Road were very few indeed, and the time being just after 8 A.M., this can hardly be ascribed to its not being the ordinary bathing hour. It may be added that this was not due to a desire to avoid meeting employés of the mills, as not a single mill hand was visible. His Honour is satisfied that, with the exception of a few persons who occupy the houses of Bhadreswar just at the far end of the Manicknaghar Bathing Ghât Road, no one will feel any inconvenience from the closure of that road. To the few persons referred to the inconvenience will be of the very slightest. Everybody else in Bhadreswar and everybody beyond will be much advantaged by the opening up of the new road continuing the Patrapara Road, and even more by the opening up of the Koila Ghât Road, which was almost impassable from mud, and by the construction of a pucca ghât at the end of it.

6. The proposal for the closure of the road was approved by the majority of the Municipal Commissioners, and the advantages which it will secure to the public are so obvious that the Lieutenant-Governor cannot consider the opposition to the scheme otherwise than unreasonable and factious. His Honour therefore declines to withdraw the Declaration for the acquisition of the land.

ORDER.—Ordered that a copy of this Resolution be forwarded to the petitioners for information.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secy. to the Govt. of Bengal.

PROPOSED PARTITION OF BENGAL.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

(*a*) Is it true, as stated in the *Pioneer*, that the Government of Bengal has submitted to the Government of India its Report on the question of the proposed partition of Bengal?

(*b*) If so, will the Government be pleased to lay the Report on the table?

(*c*) If the Government does not see its way to do so, will the Government be pleased to state the substance of this Report?

The Hon'ble MR. CARLYLE replied:—

"(*a*). The Lieutenant-Governor has submitted to the Government of India his reply to that Government's letter which was published in December last on

the subject of the desirability of reducing the territorial jurisdiction of the Lieutenant-Governor of Bengal.

"(*b*) and (*c*). It would be contrary to rule to make public a report which is under the consideration of the Government of India. The Lieutenant-Governor cannot, therefore, at present either lay the report on the table or state the substance thereof."

THE DISTRICT OF MYMENSINGH.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

(*a*) Is it in the contemplation of Government to split up the district of Mymensingh into two separate districts?

(*b*) If so, will the Government be pleased to state in what way it is proposed to effect this division and what will be the head-quarters of each of these two newly-formed districts?

The Hon'ble MR. CARLYLE replied:—

"(*a*). Proposals for the division of the district of Mymensingh have been considered by Government several times. They have been recently revived. Mymensingh is the third largest district in Bengal and has far the largest population, having a population of nearly four millions, or a million in excess of any other district. In police work and criminal case-work it is much the heaviest district in Bengal.

"(*b*). The District Magistrate's proposal, which appears to the Lieutenant-Governor to be the best that has been so far put forward, is that the Tangail and Jamalpur Sub-divisions should be formed into a new district with head-quarters between Madhupur and Gopalpur, and that the rest of the district should continue to have its head-quarters in the town of Mymensingh. These proposals have not yet been matured."

THE POLICE SERVICE

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

(*a*) Has the attention of the Government been drawn to an article headed "The Indians and the Police Service" which appeared in the *Bengalee* of the 23rd July, 1904?

(*b*) Will the Government be pleased to state how many native Inspectors of Police have been promoted to the rank and grade of Assistant Superintendent since May, 1900, in accordance with the rule laid down by the Government of India as referred to in the said article?

The Hon'ble MR. CARLYLE replied:—

"No such appointments have been made since 1900. This matter some months ago attracted the attention of the Lieutenant-Governor. He found that action under the rule referred to had been suspended by the late Sir John Woodburn, owing to the proposals for the re-organisation of the Police, which were under the consideration of the Police Commission. The orders of the Secretary of State on the recommendations of the Police Commission in this connection are expected before long and must be awaited."

MR. FOSTER'S CASE.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Has the attention of the Government been drawn to the judgment of the High Court (Pratt and Handley, JJ.) in the case of Raghunandan Pershad and others, petitioners, *vs.* the Emperor, opposite party, as reported in the Calcutta Weekly Notes of August 15th, 1904, and commented on in the *Amrita Bazar Patrika* of the same date? And has the Government been pleased to take notice of the conduct of Mr. Foster, Deputy Commissioner of Hazaribagh, as disclosed in the said judgment and the said newspaper? And, further, in view of the fact that such acts of insubordination on the part of the subordinate judiciary are calculated very much to weaken the administration, will the Government be pleased to take such measures as it may deem fit to discourage such conduct on the part of all subordinate Courts in relation to their superior Courts in future?

The Hon'ble MR. CARLYLE replied:—

"The Lieutenant-Governor has had the case in question before him, and has fully dealt with it in consultation with the High Court. No further action of any kind seems to be necessary."

LANDLORD'S FEES.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Will the Government be pleased to call for and lay on the table a statement showing, district by district and year by year, the amount of "Landlord's fee" paid and the amount of such fee placed in deposit under sections 12, 13 and 15 of the Bengal Tenancy Act, 1885 (VIII of 1885), since the passing of the said Act?

The Hon'ble MR. EARLE replied:—

"The statements asked for, which have been submitted by the Board of Revenue, are laid upon the table."

WORKING OF THE CHAUKIDARI ACT (BENGAL ACT VI OF 1870.)

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked :—

Is the Government aware that the word "house" or "holding" not being defined in the Chaukidari Act (Ben. Act VI of 1870, as amended by Ben. Act I of 1892), the provisions of that enactment, as regards the fixing of the number of chaukidars required for any village or local area and the assessment of tax upon the occupiers of houses or holdings therein, are being worked in many places by arbitrarily dividing each particular house or holding into as many houses or holdings as there are huts in the occupation of persons messing separately, owing mostly to the disruption of an original joint family, although they may be all situated in the same compound and within the same set of boundaries? That by this method the number of chaukidars now employed in such places is largely in excess both of their actual requirements as well as of the limit permissible by law, and that in consequence the taxes annually imposed on the villagers have also largely increased to the extreme hardship and annoyance of specially the poorer classes of the village population without however any adequate equivalent in return? And will the Government be pleased to institute a searching inquiry into the actual working of this Act with special reference to the manner in which and the person or persons by whom the number of houses and chaukidars in any village or area is practically determined under section 11, and what, if any, check is actually exercised by the District Magistrates under section 20 upon the assessments imposed by the panchayats under section 13 of the Act?

The Hon'ble MR. CARLYLE replied :—

"As the Hon'ble Member is probably already aware, the Lieutenant-Governor has decided to place Mr. H. Savage, C.S.I., a senior officer with great experience of chaukidari administration, on special duty during the present cold season, to inquire and report generally on the working of the Chaukidari Act and matters connected therewith, and the points to which the Hon'ble Member draws attention in the last portion of his question will no doubt receive that officer's consideration."

ASSESSORS IN SESSIONS CASES.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked :—

(*a*) Will the Government be pleased to inquire how the system of trial with the aid of Assessors in Sessions cases has worked in the less advanced districts since the promulgation of the Government Notification No. 23618, dated the 19th April, 1897?

(*b*) Will the Government be pleased to consider whether in the interest of the administration of justice it would not be desirable to withdraw the said Notification?

The Hon'ble MR. CARLYLE replied :—

"(*a*) Government has adequate information of the working of the system of trial with the aid of Assessors in Sessions cases in all districts; and there is no ground for ordering an inquiry in any district.

"(*b*) There is no reason to believe that the exemption of legal practitioners from service as Assessors, to which the Hon'ble Member refers, has in any way conflicted with the interests of justice during the seven years it has been in force. Government has therefore no intention of withdrawing the notification of 1897."

LEGAL PRACTITIONERS AS HONORARY MAGISTRATES.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Is the Government aware that the system of recruiting Honorary Magistrates from among village people is being carried to excess, and that even in towns, including the head-quarter stations of districts, the enforcement of the Government letter, Judicial Department, No. 82J.D., dated the 30th May, 1898, prohibiting the appointment of legal practitioners as Honorary Magistrates, has practically divested the Benches of such Magistrates of all qualified and public-spirited men, and that in consequence the classes of people who now generally compose such Benches have proved less efficient and have failed to inspire confidence in public minds? Will the Government be pleased in the best interest of the public as well as of the administration to withdraw the said prohibition?

The Hon'ble MR. CARLYLE replied:—

"The letter of this Government to which the Hon'ble Member refers (No. 82J.D., dated 30th May, 1898) does not prohibit the appointment of legal practitioners as Honorary Magistrates, except under the circumstances stated in section 557 of the Code of Criminal Procedure. That letter merely draws attention to a change made in the law in 1898, so that proceedings might not be vitiated by inadvertent contravention of the provisions of the law as amended. There is no reason, therefore, to withdraw that letter.

"This Government values the power to utilise the services of lawyers on the Bench of Honorary Magistrates, provided that it is exercised in accordance with the provisions of the law, and also with a sound discretion, so as to secure suitable practitioners able to give due attention to their magisterial work. But it cannot be admitted (as seems to be implied in the wording of the question) that 'qualified and public-spirited men' are 'practically' to be found only among the members of the Bar practising before the Magistrates' Courts. Nor does it appear that any real difficulty in securing the services of suitable Honorary Magistrates need result from the amendment of the law to which reference has been made."

TRAVELLING ALLOWANCE TO OFFICIATING MUNSIFS.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Will the Government be pleased to take into consideration the hard condition under which Officiating Munsifs have to work during the period of their temporary appointments? And having regard to the fact that even after they revert from their first officiating appointment they practically lose all their practice as pleaders and have thencoforward to depend almost entirely upon the small salaries they are able to earn during their officiating services, generally for very short periods and at long intervals, and which in some instances are barely sufficient to cover the expenses of the long and inconvenient distances that they have to travel, will the Government be pleased to provide for some sort of travelling allowances for these deserving officers?

The Hon'ble MR. CARLYLE replied:—

"The question of the grant of travelling allowance to Officiating Munsifs is already under the consideration of Government."

THE BHOWAL ESTATE.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Has the attention of the Government been drawn to a correspondence from Dacca published in the *Bengalee* of the 9th October last, and to the articles which appeared in the said newspaper of the 11th and 12th idem, about the action alleged to have been taken by the Magistrate-Collector of Dacca in

regard to the Bhowal Estate? Is it true that the said Estate has been taken over by the Court of Wards, and that against legal opinion of the Advocate-General and of the Legal Remembrancer and without hearing the Rani's counsel? Is it a fact that on or about the 5th October the Magistrate of Dacca proceeded to Joydebpur accompanied by the District Superintendent of Police and Mr. Myers, the dismissed Manager of the Estate, together with a detachment of the Reserve Police, and demanded the widowed Rani to vacate the Palace and make over charge of the Estate within ten minutes, although the Rani wanted only a day's time to finish a certain ceremony in which she was engaged at the time? Is it also a fact that the Rani fainted away at the demonstration of force made by the Magistrate, and that the demands of the latter were peremptorily enforced without any regard to the Rani's helpless condition at the time? If so, does the Government approve of the proceeding of the Board in ordering the Estate to be taken over by the Court of Wards, and does the Government also approve of the action of the Magistrate of Dacca in taking over charge of the Estate in the manner disclosed in the aforesaid correspondence and articles? Will the Government kindly inquire where the Rani is at present and in what condition? And will the Government be pleased to lay on the table the order of the Board of Revenue, together with all the reports and correspondence which have led to the taking up of the Estate by the Court of Wards, including the opinions of the Advocate-General and the Legal Remembrancer on the subject?

The Hon'ble MR. EARLE replied:—

"The replies to the enquiries made by the Hon'ble Member are:—

"(1) The attention of Government has been drawn to the correspondence and articles referred to on the subject of the assumption of charge of the Bhowal Estate by the Court of Wards. It is true that the Estate in question has been taken under the management of the Court; but this step was not taken contrary to legal advice, as alleged. In July last the Commissioner of Dacca applied to the Board of Revenue to declare the Rani to be disqualified, and to assume charge of the Estate in order to save the property from the ruin which was likely to result from gross mismanagement and the tenants from oppression and illegal and extortionate proceedings. Although fully satisfied on the evidence adduced as to the advisability of taking charge of the Estate, the Board did not take action at once, as the Rani was only a trustee and not the proprietress of the Estate.

"(2) Subsequently on the 27th September last the eldest son of the late Raja, Kumar Ronendra Narayan Roy, submitted a memorial in which he cited instances of gross mismanagement of the Estate on the part of the Rani, and applied to be declared a disqualified proprietor under section 6 (*a*) of the Court of Wards Act. Inasmuch as he and his brothers were the proprietors of the Estate, and as it appeared expedient in the public interest that the Estate should be managed by the Court of Wards, the Local Government declared the eldest Kumar to be a disqualified proprietor under section 6 (*e*) of the Act, in accordance with his request. The two other sons of the late Raja, who are minors within the meaning of section 3 of the Act, were declared by the Board of Revenue to be disqualified under section 6 (*b*) of the Act. The instances of mismanagement which have come to light since the assumption of the charge of the Estate are many and gross, and fully substantiate the assertions made by Kumar Ronendra Narayan Roy.

"(3) The application made to the Board of Revenue by the Rani to be heard by Counsel was received after orders had been issued by Government that the Estate should be taken under the management of the Court of Wards.

"(4) The Magistrate of Dacca proceeded to Joydebpur on the morning of the 6th October, 1904, accompanied only by the Assistant Magistrate and two chaprasis. The late Manager (Mr. Meyer, an Inspector of Police, and eight constables followed later in the day. The District Superintendent of Police did not visit Joydebpur at all. The attendance of the police was necessary for the purpose of guarding the treasure; while the presence of Mr. Meyer was required

in connection with the tracing out of certain important papers of the Estate which, there was evidence to show, had been concealed. The Rani was never asked to vacate the Palace, nor was she required to make over charge of the Estate within ten minutes, as alleged. On arrival at Joydebpur in the forenoon of the date indicated, the Magistrate communicated to the Rani the orders under which he was acting, and caused to be delivered to her a letter from the Court of Wards addressed to herself. He also called upon her to make over to him the money and papers belonging to the Estate. In reply the Rani stated that all the money that she had was in the treasury, and that she knew nothing about the papers referred to. Inasmuch as only Rs. 1,400 had been found in the treasury, and the Magistrate had proof that a considerable sum of money was in the possession of the Rani and that important papers had been concealed, he was unable to accept this answer. He therefore communicated repeatedly with the Rani on the subject, informing her that he would have to make a search unless the money and papers were produced. The same reply being however invariably received, he commenced a search in the presence of the Rani's people. As evening was approaching, however, only one or two rooms were examined, further action being postponed till the next day. On that day the required papers were found carefully concealed in a cellar, while on the third day a sum of Rs. 36,000 was made over by the Rani to the Magistrate.

"(5) The Magistrate was informed that the Rani fainted on the day on which he assumed charge of the Estate, but he is unable to say if the report was correct or not. He heard that she had been fasting on that day. As shown in the last reply, the action taken by the Magistrate was due to the refusal of the Rani to comply with his orders; and he cannot be blamed in respect of his proceedings.

"(6) There appears to be no reason for making any enquiry as regards the present residence of the Rani and her condition. The lady is, it is understood, in Calcutta. She is in correspondence with the Court of Wards on matters of business connected with the Estate.

"(7) Government sees no reason for laying the papers of this case on the table."

SURVEY OPERATIONS IN THE FARIDPUR DISTRICT.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

In view of the Government Notification No. 2152T.R., dated the 19th September, 1904, published in the Calcutta Gazette of the 28th idem, appointing, under section 4 of the Bengal Survey Act (Bengal Act V of 1875), an Assistant Superintendent of Survey in the District of Faridpur, may I inquire if it is in the contemplation of Government to extend the cadastral survey operations to that district? And, if so, will the Government be pleased to state upon what grounds it is proposed to do so?

The Hon'ble MR. EARLE replied:—

"1. It is in the contemplation of Government to extend the cadastral survey and settlement operations to the district of Faridpur; and the sanction of the Government of India to this proposal has already been obtained.

"2. The principal ground upon which it has been decided to take this step is that the revenue survey on which the existing maps of Faridpur are based was made half a century ago. Owing to vast changes which have occurred in the courses of the big rivers and to the silting up of extensive morasses during the past 50 years, this survey is at the present time an extremely indifferent guide even to the bounds of the villages of which it took note. Agrarian disputes have, in consequence, been rife for many years past in all parts of the district. The district is one in which much turbulence prevails. In the year 1900 the number of cases of rioting in Faridpur exceeded that of any other district of the Dacca Division, except Backergunge; while in the year 1901

this district headed the list of all districts of the province as regards this form of crime. The Commissioner of the Division reports that quarrels about land provide occupation for half the magisterial establishment and for more than half the Civil Court establishment of the district; and that in the year 1902 disputes of this nature were responsible for the institution of 2,500 title suits in the local Civil Courts. These constant disputes entail much expense and trouble upon both landlords and tenants."

PROPOSED PARTITION OF BENGAL.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Has the attention of the Government been drawn to the statements made in the *Pioneer*, the *Englishman* and the *Bengalee* newspapers that it is practically settled to divide Bengal and that a new scheme has been devised to effect this partition? Are these statements correct? And, if so, will the Government, in view of the panic which they have created, be pleased to make an announcement for the information of the public explaining the nature and the scope of this new scheme?

The Hon'ble MR. CARLYLE replied:—

"The matter of the proposed partition of Bengal is before the Government of India, and the Lieutenant-Governor is not in a position to make any statement regarding it."

THE RANCHI-PURULIA LIGHT RAILWAY.

The Hon'ble BABU KALI PADA GHOSH asked:—

Will the Government be pleased to state whether the proposed Ranchi-Purulia Light Railway has been sanctioned by the Secretary of State and the Government of India, and, if so, when the work of construction will be taken in hand?

The Hon'ble MR. HORN replied:—

"The Government of India have sanctioned the survey of a line from Purulia to Ranchi by the agency of the Bengal-Nagpur Railway Company, and placed the same under the control of the Consulting Engineer to the Government of India for Railways, Calcutta. It is not possible at present to say when the construction of the railway will be taken in hand."

ALLEGED ASSAULT ON A FEMALE PASSENGER AT JAMALPUR.

The Hon'ble BABU KALI PADA GHOSH asked:—

(*a*) Has the attention of the Government been drawn to a letter of the Jamalpur correspondent of the *Bengalee*, published in its issue of the 25th October last, alleging that an European employé of the East Indian Railway attempted to outrage the modesty of a female passenger in the third class waiting-room at the Jamalpur Railway Station? Will the Government be pleased to state whether an investigation has been made into the matter, and, if so, with what result?

(*b*) Considering the fact that such occurrences are calculated to produce serious apprehensions in the mind of the travelling public, will the Government be pleased to take special notice of such cases and see that they are not hushed up or disposed of with mere nominal punishment of the culprits concerned?

The Hon'ble MR. HORN replied:—

"It has been ascertained from the Consulting Engineer for Railways that the alleged assault on a female passenger, referred to in this question, was investigated at the time by the Inspector of the Government Railway Police at Jamalpur. He satisfied himself that no complaint had been made by the

woman, and that no assault or impropriety of any kind had been committed in respect of her. He submitted a detailed report of his enquiry for the information of the Assistant Inspector-General of Railway Police.

"An independent enquiry was held by the Railway district officials, who arrived at the same conclusion. The place of the alleged occurrence was the entrance hall near the booking window, which is well lit. There were several passengers close by in the hall and on the platform. It appears that the allegation was made without foundation by a member of the station staff.

"The action taken by the Railway authorities and by the Police appears to have been prompt and adequate. There was no need of any interference on the part of Government."

PASSENGER TRAFFIC ON THE EAST INDIAN AND BENGAL-NAGPUR RAILWAYS.

The Hon'ble BABU KALI PADA GHOSH asked:—

Will the Government be pleased to invite the attention of the railway authorities to the overcrowding in the trains, as complained of by the *Pioneer* in its issue of the 18th April last, and to which Max refers in the following terms in the columns of the *Capital*:—"I hear that the Howrah Station last Thursday night was a scene of almost indescribable confusion, owing to the accommodation provided by the East Indian and the Bengal-Nagpur Railways being wholly inadequate. Passengers were fighting for places in the Punjab and Madras mail trains like beasts at Ephesus and numbers were left behind. Now if the trains departed from the terminus crammed in this manner, what chances had passengers at wayside stations? The utter unconcern displayed for the passenger traffic is one of the crying scandals of Indian Railway Administration"?

The Hon'ble MR. HORN replied:—

"The complaints made in the *Pioneer* of the 18th April and referred to in *Capital* have received the attention of the Railway Authorities concerned.

"Large sums are being spent by the Bengal-Nagpur Railway in enlarging the platform and waiting accommodation. The system of ticket-checking for entraining passengers is now being discussed with the East Indian Railway with a view to its improvement.

"As regards overcrowding on the 14th April last, there are no registered complaints. It is possible there was some circumstance which affected that particular date, but after this lapse of time it cannot now be ascertained.

"In regard to overcrowding generally, it has been ascertained that a large number of passengers detrained at Kharagpur. The question of increasing the number of trains is under consideration, but the necessity for an increased train service has yet to be proved.

"As regards the East Indian Railway, it has been explained that the difficulty at Howrah is not so much one of overcrowded trains as the difficulty of obtaining access to the trains. From the 13th instant the two most crowded trains are being dealt with at the new station, and it is anticipated that this arrangement will work satisfactorily.

"In order to improve the running of the Punjab mail train, the question of running relief trains twice or three times a week during the months of April and May is under consideration."

THE SMOKE-NUISANCES BILL, 1904.

The Hon'ble MR. CARLYLE moved for leave to introduce a Bill to amend the law relating to the abatement of nuisances arising from the smoke of furnaces or fire-places in the town and suburbs of Calcutta and in Howrah, and to provide for the extension thereof to other areas in Bengal. He said:—

"I do not propose to-day to make any detailed remarks regarding the Bill. These I propose to postpone till next meeting. To-day I will only touch on the main points of the Bill which I ask leave to introduce.

"The fact of the existence of the smoke nuisance is patent to us all, and I think all who have known Calcutta for some time will agree that it is continually increasing as new factories are opened. Over 40 years ago, Bengal Act II of 1863 was passed dealing with this very matter, but it has proved completely ineffectual. The reason of this is that, in order to procure a conviction under the Act, it is not sufficient to prove that smoke is emitted in such quantities as to prove a nuisance. Under the Act it is now held necessary to formulate a charge of nuisance under one of the following heads: (*a*) 'improper construction,' (*b*) 'negligent use' and (*c*) 'absence of the best means for preventing or counteracting of smoke.' These conditions involve detailed references to the construction and manner of using the furnaces, and it is impossible to prove negligence or faulty construction in such a way as to obtain a conviction in a Magistrate's Court.

"In 1903, the Secretary of State appointed an expert, Mr. Grover, to enquire and report into the whole matter. He submitted a report in July, 1903, and the Bill now introduced is largely based on the recommendations made in his report. The main points of the Bill are as follows: In the first place, the Bill applies to Calcutta and Howrah, but Government takes to itself the power to extend it hereafter to other areas in Bengal. In the second place, there are brick and lime kilns and certain furnaces for the calcining or smelting of ores or minerals, or for the casting, puddling or rolling of iron or other metals, or for the conversion of pig iron into wrought iron and the manufacture of coke which cannot be carried on at all without the emission of smoke in such quantities as to constitute a nuisance. Government therefore propose to take power in the cases specified to forbid altogether the erection of lime or brick kilns, or the construction of furnaces of the kind specified above and the manufacture of coke within certain specified areas. The next point in the Bill is that when furnaces are erected, in order to obtain a conviction in Court, all that it will be necessary to prove will be that smoke is emitted from chimneys in such quantities as to constitute a nuisance. Government also takes under this Bill power to direct that furnaces are to be so constructed as not to admit of the emission of smoke so as to constitute a nuisance. Government may also order that furnaces already erected are to be altered or fitted with such appliances as will prevent a nuisance.

"As regards the working of the Act, the Bill proposes that the work should be supervised and controlled by a Commission. The President of the Commission is to be an official, half the Members will be officials, the remainder non-officials to be selected so as to represent the interests likely to be affected by this Act. I do not think it is necessary to-day for me to go into other details of the Bill. I will deal with the details of the Bill, if the Council accepts my motion for leave to introduce it, at the next meeting."

The Motion was put and agreed to.

THE SUNDARBANS BILL, 1904.

The Hon'ble MR. HARE moved for leave to introduce a Bill to provide for the abolition of the office of Commissioner in the Sundarbans. He said:—

"It is not necessary to make any long speech in applying for leave to introduce this short Bill for the abolition of the office of the Commissioner of the Sundarbans.

"It is enough to say that the Government are satisfied that the time has now come when the administration of the tract known as the Sundarbans which lies to the south of the districts of Backergunge, Khulna and 24 Parganas shall be wholly and in all respects administered by the Collectors of these several districts. For a long time, if we except only the making of settlements and the holding of enquiries as to whether the conditions of the old settlement leases have been carried out, the administration of this tract of country has been conducted by the District Officer. He controls excise, education, police and crime and chaukidari, and the opening out of communications and other Government work, and it is thought that he should also exercise control in the important matters connected with settlements. This has become the more desirable,

since Government has decided on a new departure in the matter of settlements in this tract and proposes itself to reclaim and settle raiyats over a large part of this area.

"The District officers already have large khas mehal estates under their management, and it is better that any new estates of this description should be directly under their control.

"For these reasons and for the general improvement of the administration, it is desirable to place the entire administration of the Sundarbans tract under the District Officer, with the help of assistants who will be directly subordinate to him. The present system under which the Sundarbans Commissioner is independent of the District Officer will cease. The Bill which I now ask leave to introduce is to accomplish this object."

The Motion was put and agreed to.

The Council was then adjourned to Saturday, the 7th January, 1905.

No. 429 (first publication).—The Port Officer, Chittagong, has given notice, dated 15th December 1904, that an iron conical buoy, painted black, and surmounted with white cage, has been laid in nine fathoms low water, about half-a-mile west of the south end of the South Patches shoal, in lat. 21° 29′ N., long. 91° 38′ 30″ E.

INDIA, SOUTH—Ceylon coast.

Caution—Point de Galle approach.—The wreck of the S. S. "Secundra."

No. 430 (first publication).—The Master Attendant, Galle, has given notice, dated the 10th December 1904, informing Masters of vessels making this Port that they should not approach to the northward of the Bell Buoy till the Pilot boards.

The wreck of the B. I. S. S. *Secundra* lies sunk in 8 fathoms water on the starboard or (eastern) side of the main channel.

1. White mark just shut in by watering point.
2. Lighthouse over the N.-E. corner of Elephant Rock.
3. Mahamodera Point just open to northward of Kokani Rock Lighthouse, bearing about N. 41 W. Mag., distant about 7 cables.

Two spherical buoys have been moored at the bow and stern to mark the position of wreck.

Buoys are painted in red.

AUSTRALIA—Curtis channel.

Breaksea Spit—Reported alteration in soundings on the north.

No. 417 (second publication).—The Portmaster, Brisbane, has given notice (No. 13 of 1904) that Captain Sharp, of the cable steamer *Iris*, reports considerable alterations in the soundings north from Breaksea Spit, having found much deeper water than shown on the chart, and that the 100-fathom line is further to the westward than shown.

Pending resurvey, Masters of vessels are cautioned not to rely on soundings to aid in determining their position when in that locality.

Chart affected, No. 345; Australia Directory, Vol. 2.

INDIA, WEST—Malabar coast.

Calicut roadstead—Shoal patch reported.

No. 418 (second publication).—The Bombay Government has given notice (No. 117 of 1904) that a shoal patch is reported in the roadstead of Calicut in a position from which the Conolly Hill bears N.-E. and Calicut old light-house bears N. 80° E.

(The bearings given are true.)

EASTERN ARCHIPELAGO—Java, east coast.

Surabaya—Decreased depth on reef.

No. 419 (second publication).—With reference to Notice to Mariners, No. 331, dated 30th September 1904, issued by this office, the British Admiralty has given further notice (No. 1057 of 1904) that a recent examination of the reef marked by a white conical buoy, in Surabaya roadstead, situated at a distance of 2 miles S. 51° W. from Kamal Point, shows that the least depth over it is 14 feet, and not 3 fathoms as previously stated.

Approximate position, lat. 7° 11¾′ S., long. 112° 42′ E.

This Notice affects the following Admiralty Chart;—Surabaya strait, No. 934: also Eastern Archipelago, part II, 1893, page 143; and Supplement, 1899, page 16.

EASTERN ARCHIPELAGO—Borneo, south coast.

Cape Selatan—Shoals to the eastward.

No. 420 (second publication).—The British Admiralty has given notice (No. 1065 of 1904) of the existence of the following shoals to the eastward of Cape Selatan:—

(*a*) A shoal, with a depth of 3 fathoms over it, situated at a distance of 4½ miles S. 60° E. from a conspicuous tree on the centre of Cape Selatan.

(*b*) A shoal, with a depth of 4½ fathoms over it, situated at a distance of 11½ miles S. 89° E. from the conspicuous tree.

To the westward, between Cape Selatan and Pulo Datu, the 5-fathom contour line extends for a distance of 4½ miles from the coast; to the southward and eastward it extends 1⅞ and 3½ miles respectively from the conspicuous tree.

The above positions are as plotted on Chart No. 941*b*.

Approximate position on Chart No. 941*b* of conspicuous tree, lat. 4° 10′ S., long. 114° 40½′ E.

(*Variation 2° Easterly in 1904.*)

This Notice affects the following Admiralty Chart:—Eastern Archipelago, No. 941b: also Eastern Archipelago, vol. II, 1893, page 298; and Supplement, 1899, page 32.

AUSTRALIA—Spencer gulf.

Approaches to Port Augusta considered dangerous.

No. 406 (third publication).—The President, Marine Board, Port Adelaide, has given notice (No. 14 of 1904) that a heap of Stone Ballast (discharged from the *Pass of Killiecrankie*) lies on the sand flat south of Yatala Harbour, with the beacon on Douglas Bank bearing S. W. and the South Hummock W.N.W.

The flat being dry at L.W.S., the ballast is well out of the navigable channel for ordinary vessels, but may be dangerous to small vessels going over the flats at H. W.

Approximate position, lat. 32° 47′ S., long. 137° 52′ 15″ E.

This affects Admiralty Charts 2389B and 401.

AUSTRALIA—Investigator straits.

Marion bay—A white (ship's mast-head) light to be exhibited.

No. 407 (third publication).—The President, Marine Board, Port Adelaide, has given notice (No. 15 of 1904) that at such times as a vessel is expected at Marion Bay a white (ship's mast-head) light will be exhibited from the jetty end, and will be visible about two (2) miles.

This affects Admiralty Chart No. 2389B.

BAY OF BENGAL—Burma coast.

Gulf of Martaban—The floating light-vessel Martaban to relieve light-vessel at the Baragua flats.

No. 408 (third publication).—The Principal Port Officer, Burma, has given notice dated 10th November 1904, that the floating light-vessel "Martaban" will temporarily relieve the present floating light-vessel at the Baragua Flats about the 5th December 1904.

The light to be exhibited about that date will be the same as at present.

INDIA, WEST—Bombay coast.

Rajpuri—Buoy replaced.

No. 409 (third publication).—The Bombay Government has given notice (No. 115 of 1904) that the Red buoy on the north side of the Whale Reef of Rajpuri Point at the entrance of the Janjira harbour, that had been removed for the South-West monsoon, was replaced on the 17th of October 1904.

CHINA—Yang Tse Kiang.

Kiu Toan light-vessel—Light altered.

No. 410 (third publication).—The British Admiralty has given notice (No. 1003 of 1904) that at about the beginning of October the Kiu Toan light-vessel, exhibiting a white flashing light, would be replaced by a light-vessel exhibiting a *white group occulting* dioptric light of the 4th order, showing groups of two occultations *every twenty seconds*, thus:—light,

twelve seconds; eclipse, *two seconds;* light, *four seconds;* eclipse, *two seconds;* it would be elevated 30 feet above the sea, and visible in clear weather from a distance of 10 miles; the vessel is painted red, marked "Kiutoan" on the sides, and has one mast from which the light is exhibited

During thick or foggy weather a bell will be struck *twice* every *twenty seconds*, thus:—*stroke; silent interval, five seconds; stroke; silent interval, fifteen seconds.*

If the light-vessel is out of position, a red flag will be hoisted by day, and at night a *red fixed* light at each end of the vessel will be exhibited in place of the occulting light.

Approximate position, lat. 31° 13½′ N., long. 121° 48′ E.

This Notice affects the following Admiralty Charts:—Kueshan islands to Yang tse Kiang, No. 1199; approaches to the Yang tse Kiang, No. 1602; Also, List of Lights, part VI, 1904, No. 745; and China Sea Directory, vol. III, 1904, page 407.

NEW ZEALAND—Auckland.

Time signal established.

No. 411 (third publication).—With reference to Notice to Mariners No 232, dated 27th June 1903, issued by this office, the British Admiralty has given further notice (No. 1011 of 1904) that the time ball formerly dropped from the yard arm of the Port Office flagstaff at Auckland has been discontinued.

Approximate position, lat. 36° 50¾′ S., long. 174° 46′ E

This Notice affects the following Admiralty Chart:—Auckland harbour, No 1970; Also, New Zealand Pilot, 1901, page 55; Supplement, 1903, pages 4, 5; and List of Time Signals, 1904, page 32.

AUSTRALIA—New South Wales.

Newcastle harbour—Decreased depth in entrance.

No. 412 (third publication).—The British Admiralty has given notice (No. 1014 of 1904) that a bar has formed across the entrance fairway to Newcastle harbour over which there is a depth, now, of 18½ feet at low water, each foot of rise or fall above this depth will be indicated from the Pilot Station.

The dredger *Jupiter* will be employed dredging this bar, and Mariners are requested to exercise great caution in passing her.

Approximate position, lat. 32° 55′ S., long. 151° 48′ E.

This Notice affects the following Admiralty Chart:—Newcastle harbour, No. 2119: Also, Australia Directory, vol. II, 1898, page 80.

PACIFIC OCEAN, SOUTH—Society islands—Tahiti.

Papieté harbour—Buoy and beacon withdrawn

No. 413 (third publication).—The British Admiralty has given notice (No. 1019 of 1904) that the red buoy on the western side of the entrance into Papieté harbour, formerly situated about 5¼ cables S. 83° W. from Moto-uta island battery, has been withdrawn.

Also, that the black beacon, formerly situated on the southern end of the reef 3 cables S. 55° W. from Moto-uta battery, has been removed.

Approximate position, Moto-uta battery, lat. 17° 31½′ S., long. 149° 34′ W.

(Variation 9° Easterly in 1904.)

This Notice affects the following Admiralty Charts:—Papieté pass to Papenu pass, No. 1158: Also, Pacific Islands, vol. III, 1900, page 59; and Supplement, 1903, page 5.

JAPAN—Yezo, north coast.

Soya wan—Rocks.

No. 414 (third publication).—The British Admiralty has given notice (No. 1020 of 1904) of the existence of the undermentioned rocks in Soya wan:—

(1) A rock, with a depth of 1¾ fathoms over it, situated with Koitoi zaki (the point in the middle of the bay) bearing S 12° W., distant 3¾ miles, and Wakkanai (cape Nosahar) light S. 73° W.

Approximate position, lat. 45° 28′ N, long. 141° 45′ E.

There is a rock, with a depth of 3 feet over it, 60 yards north-eastward of the above, and there are depths around it of from 1¾ to 2 fathoms.

(2) A rock, with a depth of 2½ fathoms over it, situated with Koitoi zaki bearing S. 1° E., distant one mile, and Wakkanai (cape Nosshar) light N. 75° W.

(*Variation 6° Westerly in 1904.*)

This Notice affects the following Admiralty Charts:—Kuril islands, No. 2405; gulf of Tartary, No. 3441; Yezo island, No. 452; Also, China Sea Directory, vol. IV, 1904, page 722.

JAPAN—South coast.

Tanega sima, south-east point—Shoals.

No. 415 (third publication).—The British Admiralty has given notice (No. 1021 of 1904), of the existence of the undermentioned shoals off the south-east point of Tanega sima:—

(1) A shoal, marked by ripples, named Yokoze, with a depth of 3 fathoms over it.

Approximate position, lat. 30° 19′ 30″ N., long. 130° 59′ 40″ E.

(2) A shoal, marked by ripples, named Orize, with a depth of one fathom over it. This shoal breaks in any other than calm weather.

Approximate position, lat. 30° 18′ 30″ N., long. 130° 59′ 20″ E.

There are depths of from 25 to 33 fathoms between these shoals.

(3) A shoal, named Genzaburoze, with a depth of 2½ fathoms over it.

Approximate position, lat. 30° 16′ 40″ N., long. 130° 58′ 15″ E.

This shoal is about 7 cables in extent with general depths of 5 and 6 fathoms over it, and 10 fathoms around; it is usually marked by ripples, but breaks with any swell.

(4) A shoal, with a depth of 2½ fathoms over it.

Approximate position, lat. 30° 15′ 15″ N., long. 130° 57′ 30″ E.

There is another shoal head of 2¾ fathoms three-quarters of a mile to the southward of the 2½ fathoms. These two heads form part of a shoal named Nabewari sho, which is about one mile long in a north and south direction, and 4 cables wide; there are depths of from 12 to 18 fathoms around it, but shoal water, with varying depths, extends further to the southward; vessels should therefore give this shoal a berth of 10 miles in passing. There are ripples over this shoal in fine weather, but in bad weather the sea breaks over the shoaler heads.

The Native fishermen state that there are no other than the above dangers in this vicinity, it is considered therefore that the dangers marked on the Chart ⊢) ◡ P.D. shown at distances of 3½ and 5 miles respectively, south-eastward from South East rock, Tanega sima, do not exist, they have consequently been expunged from the Charts.

This Notice affects the following Admiralty Charts:—Japan, No. 2347; Amoy to Nagasaki, No. 2412; Also, China Sea Directory, vol. IV, 1904, page 296.

CHINA SEA—Gulf of Siam.

Bangkok river entrance—Temporary light-vessel—Proposed beacons—Pilot vessel.

No. 416 (third publication).—The British Admiralty has given notice (No. 1040 of 1904), that a light-vessel, painted grey, having one mast with a black ball, and exhibiting two lights placed vertically, 6 feet apart, *red* over *white*, has been established at the entrance to the Bangkok river, at a distance of 10¾ cables S. 69° E. from the Bar light (*white occulting*).

The lights are of low power.

Also, that it is proposed to erect two beacons at distances of $2\frac{1}{10}$ miles N. 37° E., and 1¼ miles S. 31° E. respectively, from the Bar light. When these beacons are established, which will probably be in November, the light-vessel will be withdrawn.

The Pilot Vessel is now situated at a distance of $2\frac{1}{10}$ miles S. 28° E. from the Bar light.

Approximate position of Bar light, lat. 13° 28¾′ N., long. 100° 34′ E.

(*Variation 2° Easterly in 1904.*)

This Notice affects the following Admiralty Charts:—Koh Ta Kut to cape Liant, No. 2720, Menam Chau Fya, No. 999; Also, List of Lights, part VI, 1904, page 113; China Sea Directory, vol. II, 1899, page 368; and Supplement, 1901, page 14.

RESOLUTION ON THE FOREST ADMINISTRATION REPORT OF THE LOWER PROVINCES OF BENGAL FOR THE YEAR 1903-1904.

REVENUE DEPARTMENT—FORESTS.

Calcutta, the 19th December 1904.

RESOLUTION—No. 4857.

READ—

The Progress Report of Forest Administration in the Lower Provinces of Bengal for the year 1903-1904.

The report has been drawn up in accordance with the instructions contained in the Circular of the Government of India, No. 10F., dated the 5th August 1904. It has been submitted punctually by Mr. A. L. McIntire, who held charge of the Bengal Forest Circle throughout the year.

2. *Changes in forest areas.*—The most important changes effected during the year were the additions of 45,149 acres to the Reserved Forests in the Chittagong Division and of 50,772 acres to the Protected Forests in the Puri Division. The total area of forests of all classes under the management of the Forest Department at the end of the year amounted to 13,007 square miles.

3. *Settlement, surveys and demarcation.*—In last year's Resolution it was observed that the progress of settlement operations in the Chittagong Division was slow, owing to the fact that the tahsildars, who act as Forest Settlement Officers, were reported to be unable to find sufficient time for the work. The

attention of the Board of Revenue was drawn to this matter; and it is satisfactory to observe that during the year under review proceedings were vigorously pushed on.

4. *Working plans.*—A new working plan for the Puri Division was finally sanctioned during the year; while a revised working plan of the Sundarbans Division was submitted to the Inspector-General of Forests after the close of the year. A revised plan for the Darjeeling forests was prepared during the year; and considerable progress was made with the revision of the plans of several other Divisions.

5. *Breaches of Forest Law.*—The number of breaches of the forest law reported was 2,923, as against 3,556 in the previous year. The heaviest decrease occurred in the Sundarbans Division, owing to a change in the system of working in that Division Attention was drawn in last year's Resolution to the decrease in the number of cases taken into Court. It was stated that the Conservator was doubtful whether the practice of compounding cases out of Court had not been carried too far in some Divisions, and that the question whether Divisional Officers should not in future be required to resort more freely to the Courts was being considered. On enquiry it was found that the practice referred to had in fact been abused in some Divisions; and orders were issued making it more generally obligatory on Divisional Officers to submit cases to judicial decision.

6. *Forest fires.*—In last year's Resolution it was observed that the Conservator had been requested to examine the question of the protection of the forests from fire and to submit a special report showing how far the orders issued from time to time by Government with the object of preventing fires crossing from the Native States of Chota Nagpur and Orissa had been carried out, and what further measures, if any, were required. In the report submitted in accordance with those orders, the Conservator stated that in the years 1901-1902 and 1902-1903 there were on the average nine fires, affecting 12,558 acres, as against an annual average of eight fires, affecting 8,135 acres, in the previous five years. He observed that it was apparent from these figures that the Native States concerned had effected no real improvements in the matter of fire conservancy. He proposed therefore that the Chiefs should be invited to depute representatives to confer with the local Forest Officers, in order to concert protective measures. This suggestion was approved by Government.

7. Before however action could be taken in respect of all the States in accordance with the orders referred to, a serious fire which originated in the Bonai State destroyed no less than 80 square miles of forest in the Singhbhum Division. According to the account given by the Conservator this fire occurred chiefly owing to the fact that the Chief of the State raised objection to the customary burning of the forests in Bonai adjoining the Government Reserve on the ground that the practice in question had led to the destruction of valuable timber. Mr. McIntire also reported that the local Range Officer was partly responsible in that he had failed to keep the fire-traces in the Government Reserve sufficiently clear and had made but little effort to extinguish the fire. Instructions have recently been issued to the Manager of the Bonai State to confer with the Divisional Forest Officer of Singhbhum with the object of concerting measures for fire protection along the boundary between that State and the Government Reserve; and it is hoped that an effective scheme will now be devised. The conduct of the Range Officer appears to have been very reprehensible, and the Conservator does not seem to have taken sufficient notice of his misbehaviour. The matter will therefore be further considered.

8. In the previous year it was pointed out that very serious damage had been caused to the Singalila Reserve by two fires, one of which originated in Nepal and the other in British territory; and it was observed that the question of protecting this forest from fire was under the consideration of Government. Measures have now been devised to minimise the risk of fires breaking out or spreading on the British side of the frontier; while the Nepal Durbar have, at the request of this Government, issued stringent orders prohibiting the burning of jungle in the neighbourhood of this forest.

9. The account given in the last three paragraphs summarises the chief measures which have been taken or which are still under consideration in connection with fire protection. The Conservator should have incorporated such a review in his annual report; and the Lieutenant-Governor will direct him to deal with this important subject much more fully in future in that report.

10. *Yield and outturn of forest produce.*—There was a falling off in the total amount of produce of all kinds removed from the forests, the decrease being most marked in the case of timber and fuel, the outturn of which was 3,707,951 cubic feet less than in the year 1902-1903. This decline is attributed mainly to a falling off in the sale of timber and firewood extracted from the Sundarbans Division, owing to strict enforcement of the regulations prohibiting the cutting of undersized *sundri* logs, and to the fact that consumers had large stocks of timber in hand at the beginning of the year under review. The Conservator observes that the Division referred to has been the largest source of supply in the past; and that, as other accessible forests have all along been fully worked, the opening out of more remote forests which will make good the deficiency will be gradual.

11. Mr. McIntire reports that efforts are being made to establish an export trade in *sâl* logs from the Buxa Division. He observes however that the Eastern Bengal State Railway does not appear to be at present capable of dealing with any large timber traffic starting from stations on the Cooch Behar State Railway, and that the delays which now occur in forwarding timber are calculated to prevent the development of the trade. This matter will be brought to the notice of the Railway authorities concerned through the Railway Branch of the Public Works Department.

12. *Financial results.*—Four Divisions, viz., the Tista, Buxa, Angul, and Palamau Divisions, were worked at a loss; but, in the case of the first two, the excess of expenditure over income is attributed to unusual and temporary causes. As regards Angul and Palamau, it was remarked in last year's Resolution that the Conservator hoped before long to be able to report when these two Divisions might be expected to pay their way. He has since reported that exploitation in Angul has hitherto been checked by the great difficulties of obtaining labour and means of transport and by want of enterprise on the part of contractors. He hopes however that the forests will be self-supporting within the next five to ten years. He reports that in Palamau the *sâl* trees are as yet immature, and that these forests can scarcely be expected to yield a profit for the next twenty years.

13. The decrease in the sale of produce referred to in paragraph 10 of this Resolution resulted in a serious decline in the income of the Department, the net receipts dropping from Rs. 6,07,241 to Rs. 3,58,086. The Lieutenant-Governor fully recognises that the falling off in the sales of timber and fuel in the Sundarbans Division has been unavoidable, and also that various measures of administrative improvement and works undertaken with the object of opening out unexploited forests have entailed considerable expenditure. Nevertheless he cannot regard the present situation as anything but unsatisfactory. Commenting in the Resolution for the year 1898-99 on a decline in the net receipts from Rs. 5,35,848 to Rs. 4,85,994, the late Sir John Woodburn observed:—

"Forest Officers must realize more than they do that they are the agents of a great commercial undertaking, and that as such they are not merely the scientific protectors of an important property, but active exploiters, whose business it is to seek and develop markets for the produce that is ready for use. The Lieutenant-Governor fears from what he has seen that this is not sufficiently remembered in Bengal, and he looks to the Conservator to infuse greater alertness and ardour in this matter into the officers of his staff."

These orders were approved by the Government of India, who, in acknowledging the Resolution referred to, observed:—

"They agree with the Lieutenant-Governor in considering that more energy is required on the part of Divisional Forest Officers in seeking and developing markets for the many products of the Bengal forests; and they trust that the Conservator will more fully recognise and enforce the responsibility of the Department in this respect than has apparently been the case in the past."

In the following year the net receipts increased from Rs. 4,85,994 to Rs. 5,93,707; and the following remarks were recorded by the Lieutenant-Governor in the Resolution for that year:—

"The Conservator reports that a certain zeal in the direction of opening out new markets has now been aroused among the officers of the Department, but that none have shown any special aptitude for commercial undertaking. His Honour desires that the Conservator will impress upon all officers that unless they eagerly seek every chance of exploiting the forest produce and bringing the products to the knowledge of purchasers, instead of waiting for purchasers to approach them, they have failed in one of the essential duties of a forest officer."

These orders also were approved by the Government of India, who observed:—

"The Governor-General in Council is in cordial agreement with His Honour the Lieutenant-Governor as to the need of actively exploiting the forests up to the limit of their

possible annual yield, and, in particular, of securing, if possible, a regular demand for railway sleepers, and I am to express a hope that care will be taken to avoid the loss of sleeper contracts by the demand of the Forest Department of too high a price for its timber."

Matters were more hopeful in the three following years, the net surpluses being above six lakhs in each of those years. No special mention of this subject was therefore made in those years in the annual Resolutions. It is necesary however in the present year to bring the orders above noticed prominently to the attention of the Conservator, especially in view of the fact that his report contains no allusion to those orders and indicates no hope of improvement in the future. The Lieutenant Governor trusts that Mr. McIntire will now pay earnest attention to this matter.

14. *Conclusion.*—The Lieutenant-Governor observes with pleasure that all the officers of the Imperial Forest Service administered their charges with energy and ability, and that, with few exceptions, the officers of the Provincial Forest Service gave satisfaction. His Honour regrets however to notice that the work of not a few members of the subordinate staff was not as good as it should have been. The thanks of the Lieutenant-Governor are due to Mr. McIntire for his careful administration of the Department during the year under review.

By order of the Lieutenant-Governor of Bengal,

Secretary to the Govt. of Bengal.

ANNUAL ADMINISTRATION REPORT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1903-1904.

NOTIFICATION.

No. 4856.—The 19th December 1904.—The Annual Administration Report of the Zoological Garden, Calcutta, for the year 1903-1904 and Government letter No. 4854, dated the 19th December 1904, acknowledging the receipt of the report, are published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

The length of the report with its appendices should not in future exceed four pages in print.

REPORT OF THE HONORARY COMMITTEE

FOR THE MANAGEMENT OF THE

ZOOLOGICAL GARDEN, CALCUTTA,

FOR THE YEAR

1903-1904.

THE Honorary Committee have the honour to submit their report for the year ending 31st March 1904.

2. The acknowledgments of the Committee are due, in the first place, to the Government of India for a grant of Rs. 1,00,000 towards the improvement of the Garden. It has been decided to devote this liberal grant to permanent improvements, such as the reform of the drainage of the Garden, the reconstruction and enlargement of the Dumraon (Monkey) House, and the provision of houses for antelopes, for wild sheep, for birds of prey, and for ostriches; and to use the balance for the purchase of animals and for minor improvements. The thanks of the Committee are also due to the following gentlemen for contributing, during the year, the amounts shown against their names:—

	Rs.
Babu Annada Mohan Roy	500
„ Mudho Purshad Halwasya ...	350
„ Gaganendranath Tagore ...	300
Raja Benoy Krishna Bahadur ...	200

(in addition to his previous donation of Rs. 500).

The Committee s best thanks are due to Nawab Khwaja Sulimulla Bahadur of Dacca for contributing Rs. 20,000 for the construction of a new bear-house, also to Babu Manmatha Nath Roy Choudhury of Santosh for his donation of Rs. 1,200, being the cost of construction of a drinking fountain for the benefit of visitors to the Garden, and also to Maharaja Sir Jotindra Mohan Tagore Bahadur, K.C.S.I., for his donation of Rs. 450 for the price of a bird of Paradise.

FINANCE.

3. The total amount of donations and subscriptions was Rs. 23,908, against Rs. 21,450 in the previous year. The total number of visitors, which, in the previous year, had been 203,589, was 215,013, excluding the number of students from different schools and colleges, members of several charitable institutions, and children under age, who were admitted free of charge.

The total entrance receipts were Rs. 15,956-13 against Rs. 15,615-10 in the previous year.

The Society of St. Vincent De Paul held their annual Fancy Fair in the Garden, on the 1st and 2nd January 1904, as usual, and paid to the Garden Rs. 1,653-10, being 25 per cent. of the gate money.

The rent of buildings amounted to Rs. 2,600 against Rs 1,900, in the previous year, the difference being due to

accumulation of arrears in the one year, and to their realization in the following year.

The expenditure under the head "Establishment" was Rs. 12,944-0-6, against Rs. 13,132-13-6.

The charges for feeding the animals were Rs. 12,330-5-3 against Rs. 12,195-4-6.

Rupees 2,165-6 and Rs. 1,023-13-3 were respectively expended on account of purchase and transport of animals, against Rs. 1,302-14 and Rs. 2,122-9, respectively, in the previous year.

Rupees 1,525 were spent on account of repairing the Garden roads, against Rs. 1,163-4-10, in the previous year.

Rupees 6,298-14-6 were spent under the head "Repair of buildings," for repairing some of the buildings and enclosures, against Rs. 7,800-13-1.

Rupees 1,873-3-6 were expended under the head "General construction," against Rs. 1,605-5.

Rupees 41,682-2 were spent under the head "Original construction" against Rs. 26,980 in the previous year. The new works include a Bear House, Isolation and Segregation sheds, a room for *post-mortem* investigation, service godowns, a shed for small mammals and glazed doors for the Sarnomoyi (Bird) House.

Rupees 4,341-9-3 were spent under the head "Garden construction," including laying unfiltered water pipes, against Rs. 2,575-11-9 in the previous year.

From—A. EARLE, Esq., I.C.S., Secy. to the Govt. of Bengal, Revenue Dept.,
To—The Honorary Secretary, Zoological Garden, Calcutta.

I AM directed to acknowledge the receipt of the report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1903-1904, which was submitted with your letter, dated the 25th November 1904, and to convey the thanks of the Lieutenant-Governor to the Committee for their management of the Garden during the year in question.

2. The acknowledgments of the Lieutenant-Governor are due to Nawab Khawja Salimulla Bahadur of Dacca for making a contribution of Rs. 20,000 for the construction of a new bear-house, to Babu Manmatha Nath Roy Chaudhuri of Santosh for his donation of Rs. 1,200 for the construction of a drinking fountain for the benefit of visitors to the garden, and to Maharaja Sir Jotindra Mohan Tagore Bahadur, K.C.S.I., for his donation of Rs. 450 for the purchase of a bird of Paradise. Sir Andrew Fraser also notices with pleasure the donations of Rs. 500, Rs. 350, Rs. 300 and Rs. 200 made during the year by Babu Annada Mohan Roy, Babu Mudho Purshad Hulwasya, Babu Gaganendra Nath Tagore and Raja Benoy Krishna Bahadur, respectively, the donation of the last-named gentleman being in addition to a gift of Rs. 500 made by him in the previous year.

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1904.

THE following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1904.

Character of the season.—Indigo is grown chiefly in North Behar, *i.e.*, Darbhanga, Muzaffarpur, Champaran, and Chapra, and also in Monghyr, Bhagalpur, and Purnea. The character of the season in these districts, therefore, governs the outturn of the crop for the Province generally. As reported in the Preliminary forecast, the rainfall from January to April was generally much below the normal in all the important indigo-growing districts. The fall was, however, heavy in May, but below the normal again in June. In July and August the fall was excessive in Behar, but much below the normal in Purnea. September was a very dry month all over the Province, but in Behar the deficiency amounted to over 60 per cent. of the normal. The fall in October was heavy. The rain in July and August caused floods in Monghyr and did considerable damage to the crop in many parts of Behar. The season on the whole was very unfavourable.

Area sown.—Since the issue of the Preliminary forecast the normal area under the crop has been revised by the District Officers of Nadia, Rangpur, Muzaffarpur, and Darbhanga. The normal area for the whole Province now stands at 346,300 acres, against 379,100 acres reported last year. The actual area under the crop this year is estimated at 223,100 acres, against 249,700 acres shown last year.

Out of the nineteen indigo-growing districts the figures representing the normal areas for Saran, Champaran, Darbhanga, Midnapore, Murshidabad, and Jessore, making a total of 186,800 acres, are derived from survey figures. The actual area for the same districts excepting Champaran, amounting to 47,300 acres, are also based on survey figures.

Character of the crop.—Of the important districts, Champaran returns an outturn of 54 per cent. of the normal, Saran 44 per cent., Muzaffarpur only 33 per cent., while

Monghyr shows 63 per cent., Purnea 70 per cent., Darbhanga 73 per cent., and Bhagalpur 77 per cent. Of the minor districts, Gaya and Malda only show a normal outturn; Shahabad 80 per cent.; Cuttack, Burdwan, and Bankura 75 per cent., each; the Sonthal Parganas 51 per cent.; Midnapur, Murshidabad, Rangpur 50 per cent. each; Nadia 42 per cent. and Jessore only 30 per cent. Since the issue of the Preliminary forecast the prospects of the crop improved in four districts, was stationary in nine districts, and deteriorated in six districts.

Outturn.—The estimated outturn for Lower Bengal, including the minor Bihar districts, is 69 per cent., and that of North Bihar 53 per cent. The average for the Province according to the District Officers' estimate comes to 56 per cent. of a normal crop. In the Preliminary forecast I had anticipated an outturn of 60 per cent.; but owing to the continuance of the unfavourable season in September and October, I am inclined to accept the District Officers' estimate.

The total yield in North Bihar may amount to 24,700 factory maunds, against 29,885 factory maunds of last year; and in Lower Bengal, including the minor Bihar districts, 8,340 factory maunds, against 11,675 factory maunds of last year; or a total of 33,040 factory maunds, against 41,560 factory maunds of last year.

Messrs. Moran and Company estimate 5,000 factory maunds from Lower Bengal and 30,000 factory maunds from Bihar, or a total of 35,000 factory maunds. A factory maund is equal to about 75 lbs.

FINAL FORECAST OF THE BHADOI CROPS OF BENGAL, 1904.

THE following note is published for general information.

A. EARLE,
Secy. to the Govt. of Bengal.

The 16th December 1904.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

FINAL FORECAST OF THE BHADOI CROPS OF BENGAL, 1904.

Explanatory.—The chief *bhadoi* food crops of Bengal are—

(*a*) Cereals including millets: *bhadoi* paddy, maize or *makai*, great millet or *jowar*, spiked millet or *bajra*, and the minor millets *marua*, *kodo*, *cheena*, *kaon*, and *shama*.

(*b*) Pulses: *bhadoi kalai* and *mung*; cowpeas or *barbati*; also other pulses as *mothi* or *bhringi*, etc.

The chief *bhadoi* non-food crops are jute, indigo and cotton, for which separate forecasts are issued. *Bhadoi til* is included in the oil-seed forecast.

Bhadoi paddy occupies nearly 60 per cent. of the total area under *bhadoi* crops in the Province, and it is the chief of the *bhadoi*-food crops of Bengal Proper, and of the Bhagalpur Division. In the Patna Division maize and the millets *jowar*, *bajra*, *mandua* are extensively grown, there being more maize north of the Ganges, and more *jowar* south of the river. These crops are also much grown in some districts of the Bhagalpur and Chota Nagpur Divisions. Maize alone occupies 30 per cent. of the total *bhadoi* cropped area in Bihar and 20 per cent. of that in Chota Nagpur. Practically there is no maize or any of the millets in Bengal Proper or Orissa.

Character of the season.—As reported in the preliminary forecast, the rainfall in March was generally scanty throughout the Province, except in Chota Nagpur Division. In April the rainfall was very heavy in Dacca and Chittagong Divisions, but was practically normal in the rest of the Province. In May the fall was fairly heavy, being excessive in North and East Bengal, and about normal in Orissa. In June the fall was much below the normal in North and East Bengal, especially the former, while it was slightly in excess in Orissa and Chota Nagpur. In July the fall was excessive in South-West Bengal, Chota Nagpur and Bihar, but deficient in Orissa. In Orissa, Chota Nagpur and North Bengal there was a normal fall in August, while in East and South-West Bengal it was very scanty. In Nadia, Jessore,

Khulna, 24-Parganas, Burdwan, Chittagong and Pabna the deficiency being from 30 to 40 per cent. of the normal. The rainfall in September was deficient in all the divisions of the Province, especially in Bihar where the deficiency amounted to over 60 per cent. of the normal. The heavy downpour in July and August caused floods in Monghyr and did considerable damage to the crops in many parts of Bihar. On the whole, the rainfall was very unfavourable to the *bhadoi* crops.

Area sown.—The District officers of Jessore, Bogra, Tippera, Singhbhum and Balasore have revised their normal areas. Thus 13,379,400 acres are shown in Appendix I against 13,205,900 acres shown last year. The area reported as sown this year with different *bhadoi* crops is 12,552,400 acres against 12,151,200 acres reported last year. Of this, the *bhadoi* food crops occupy 11,913,800 acres against 11,703,900 acres shown last year. The estimate of normal area is based upon ascertained data in 20 districts only which have been surveyed wholly or almost so, and whose normal acreage under this crop is 3,466,293 acres, and the actual area under the *bhadoi* crops this year in the same districts is estimated at 3,300,605 acres.

Character of the crop.—Only two districts, *e.g.*, Dacca and Faridpur, report a normal crop. Four districts, *e.g.*, Rajshahi, Darjeeling, Bhagalpur and Balasore report outturns varying from 90 to 99 per cent. Ten districts report between 80 to 89 per cent. and 16 districts report between 70 to 79 per cent. Seven districts report between 60 to 69 per cent., while six districts report below 60 per cent., *e.g.*, Hazaribagh (57 per cent.), Muzaffarpur (56 per cent.), Murshidabad and Gaya (each 53 per cent.), Monghyr (49 per cent.) and Shahabad (39 per cent.). Since the issue of the preliminary forecast in September last prospects improved in six districts, remained stationary in 19 and detriorated in 20 districts.

Outturn.—According to the estimates of the district officers the total outturn of the *bhadoi* crops for the Province as a whole is 73 per cent. In the preliminary forecast I anticipated the outturn to be not more than 80 per cent., but the continuance of the unfavourable conditions in September and the consequent further damage brought the outturn further down, and I am inclined to think the total will not exceed 75 per cent. Taking 80 per cent. as the probable outturn of *bhadoi* paddy, the gross outturn of cleaned *bhadoi* rice may be estimated at 42,661,600 cwts. against 41,664,800 cwts. of last year.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1904.

WEATHER at the beginning of November was apparently fine and settled over the whole area. Extracts, however, from the logs of ships moving up the bay show that though the coast stations all reported light to moderate winds and smooth seas, weather was disturbed in the south of the sea area, several ships having met with a moderately severe, though small, cyclonic storm, about 300 miles to the east of Coromandel coast, between the 1st and 3rd of the month. On the 4th, on the other hand, a cyclonic storm formed independently of the former in the Gulf of Martaban and crossed the coast to the east of Diamond Island either the same night or early the next morning, its centre following a path parallel to the Arakan coast, but slightly inland. It would almost appear as if these two separate disturbances merged into one another on the 5th, the isobars on that date being very irregular and giving no clear indication of a definite centre. On the 6th November conditions were again fairly normal over the bay, although a subsidiary depression was still shewn lying over Eastern Bengal.

Weather over the province and Assam, which had been fine with low temperature during the first few days of the month, was so far affected by the storm that skies became generally overcast, while showers were received in Eastern Bengal and Assam. With the disappearance of the actual disturbance, weather became more normal over the province, but weather was still unsettled over the bay, and partly from this cause and partly owing to an area of low pressure which was shewn in the north-west of the land area on the morning of the 9th and which maintained itself till the 15th, conditions remained irregular over the province. At first low temperature continued to prevail over Assam and the eastern portion of Bengal, but as the influence of the above depression gradually extended eastward, moist winds with high temperatures set in over the whole province.

It was not indeed till the 15th of the month that normal cold-weather conditions once more re-established themselves. On that date the area of low pressure in the north-west had finally disappeared, and with rising pressure and a continuous gradient from north to south of the area, conditions were again favourable for fine cold weather. These conditions maintained themselves unchanged till the 21st, and during the whole of this period beautiful weather with low temperature and high pressure prevailed throughout the province and Assam.

On the 21st a change set in; pressure began to fall everywhere, and a depression, which had probably already commenced to form on the previous day, was shewn to the south of the bay area.

Developing apparently with considerable rapidity, it had on the morning of the 22nd advanced into the centre of the bay along a north-north-westerly path, and on the forenoon of the 23rd it crossed the Arakan coast immediately to the south of Chittagong. The subsequent path appears to have been due east. It gave rise to moderate rain in East Bengal and showers in Assam. Temperature rose at first in those parts of the province which lay in the track of the advancing storm, but speedily fell again with its actual passage. Pressure likewise recovered with great rapidity, and on the 24th conditions over Bengal and Assam were very similar to those preceding the appearance of the disturbance. From this date to the end of the month weather remained of the ordinary cold-weather type with pressure considerably above and temperature considerably below the average.

Summary of pressure.—Pressure was very slightly below the normal at the beginning of the month, and the defect then existing was intensified by the conditions preceding and accompanying the advent of the storm on the 5th. With its disappearance a recovery took place, which again brought the pressure within the vicinity of the normal. The unsettled weather which prevailed from the 7th to the 15th was accompanied by irregularities in the pressure, but the fluctuations were never great, and on the 14th the high-pressure conditions, which have been referred to above, had already commenced. As these latter maintained themselves in an accentuated form for almost the whole of the remainder of the month with the exception of the limited period covered by the passage of the final storm, the average pressure for the month is, as might be expected, above the normal for the whole province.

Summary of temperature.—Temperature was below the normal for much the larger part of the month, the only periods which shew fairly general excess being from the 5th to the 8th and from the 12th to the 18th. The excess, however, while it lasted was more marked than the defect; and as, moreover, it endured slightly longer in the south-west of the province, the average mean temperature for South-West Bengal is a little above the average. Over the rest of the province it is in defect. The area of high day temperature, however, includes Chota Nagpur as well, while on the other hand the area of high night temperature extends into a narrow strip of territory between North and East Bengal.

Summary of rainfall.—The rainfall during the month was chiefly caused by the two storms which crossed the coast near Chittagong and was almost entirely confined to East Bengal and the adjacent districts. Slight rain, however, due to the depression which entered from the north-west, was also received in the western parts of the province, especially in North Bihar, on the 14th and 15th. Orissa was practically free from rain during the month. The rainfall in this division was consequently in large percentage defect, while

East Bengal, on the other hand, received about two and-a-half times its usual amount. In the other divisions the variation was less important.

The following table gives in a condensed form the rainfall information for each of the six large meteorological divisions of Bengal for the present year up to the close of November. The numbers there given, as in the case of former months of the year, are the actual average rainfalls in each division, expressed as a percentage of the normal fall for the period, and the last column also gives the total rainfall up to the close of November, expressed in the same way :—

BOARD OF REVENUE, L. P., CALCUTTA, *the 22nd December 1904.*

Addenda and Corrigenda to the publication containing the rules under the Sea Customs Act, VIII of 1878 (corrected up to 31st December 1902).

THE HON'BLE MR. K. G GUPTA, I.C.S.

Dated Calcutta, the 9th December 1904.

No. 21.

THE following revised rules should be substituted for rules 1, 3 and 6 of the rules issued under Notification No. 22B., dated the 8th January 1885, and incorporated in pages 9-10 of the Rules under the Sea Customs Act, VIII of 1878 (corrected up to the 31st December 1902):—

1. The designation of the various officers of Customs under the provisions of sections 6 and 7 of the Act shall ordinarily be—

Collector of Customs.
Assistant Collectors of Customs.
Superintendent of the Preventive Service and the Salt Department, Calcutta.
Preventive Officers or Officers of the Preventive Service.
Appraisers.

3. An Assistant Collector of Customs shall be competent, in the temporary absence of the Collector of Customs, to exercise all or any of the powers conferred on that officer.

Ordinarily the Assistant Collectors and all the other officers referred to in section 1 are subordinate to the Collector of Customs, and, except as hereinafter provided, shall be competent to exercise such of the powers conferred, and to perform such of the duties imposed upon officers of Customs by this Act as the Collector may require of them, and to perform all or any of the duties whether mentioned in this Act or not, as are ordinarily comprised in the management of a Custom House.

6. The power to adjudge confiscation and the power to impose a penalty shall be limited in the case of all Assistant Collectors of Customs, except the First Assistant Collector, to those indicated in clause (*c*) of section 182.

By order of the Board of Revenue, L. P.,

H. F. SAUMAN, *Offg. Secretary.*

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3 The sale shall commence at the hour of 11 A M., of the day fixed by previous notification, and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M, in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9 The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the

name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the opium advertised for sale; No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1903-1904, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes. and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

H. F. SAMMAN,
Offg. Secretary.

CALCUTTA,
The 22nd November 1904.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.:

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

RECRUITMENT OF THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE AND THE SUBORDINATE CIVIL SERVICE.

No. 5649A.

APPOINTMENT.

Dated Calcutta, the 26th December 1904.

RESOLUTION.

READ—

Notification No. 4822A., dated 30th November 1893, prescribing rules for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service.

Letter No. 528, dated 27th November 1901, from the Government of India in the Home Department, on the subject of examinations for entry into Government service.

Bengal Government letter No. 3382A., dated 3rd August 1902, replying to the letter just mentioned.

Paragraphs 9 to 11 of Home Department Resolution No. 191—211, dated 11th March 1904, on the subject of education.

Bengal Government Notification No. 3532A., dated 6th August 1904, announcing that no competitive examinations will be held next year for appointments to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service, and that appointments will be made by selection from among University graduates under rules to be hereafter notified.

OBSERVATIONS.—Under the rules regulating the appointment of members of the Provincial Executive Service and the Subordinate Civil Service, which were approved in the year 1893, the Lieutenant-Governor has determined annually the number of appointments to be made in either service,

and has then made these appointments first on the results of a competitive examination held expressly for the purpose, secondly by selection from among candidates appearing at this examination, and thirdly in the case of the Provincial Service by promotion of selected officers already serving in the Subordinate Civil Service. It is also laid down in these rules that nothing therein contained shall be held to prevent the Lieutenant-Governor from appointing in exceptional cases any person whom he may consider to be specially qualified for the Provincial Service or for the Subordinate Civil Service by nomination, pure and simple.

2. In Home Department letter No. 528, dated the 27th November 1901, the Government of India called for an expression of the opinion of the Lieutenant-Governor as to the suitability of competitive examinations as the qualifying test for the Provincial and Subordinate Civil Services. Sir John Woodburn replied in Mr. Buckland's letter No. 3382A., dated the 3rd August 1902, that after a sifting enquiry he had come to the conclusion that competitive examinations did not secure for the Government even the best scholars of the University, and were otherwise unsuitable as a test of qualifications. No action however was taken in regard to this matter. The Government of India again, in paragraphs 9 to 11 of their Resolution issued on 11th March last on "Indian Educational Policy," discussed the relation between education and the Government service. They came to the conclusion that the system of competitive examination is not a suitable or satisfactory system of admission to the Government service in this country. The Lieutenant-Governor fully concurs in the opinions expressed by the Government of India on this matter.

3. Apart altogether, however, from the question of competitive examination, the Lieutenant-Governor's attention has been drawn by a combination of circumstances to the constitution of these services in Bengal. He regards it as the duty of Government to reconcile the conflicting claims of diverse rival religions, of varying degrees of intellectual and administrative aptitude and adaptability, and of different races occupying the different parts of the province. The state of things in this respect existing in these services has attracted and continues to demand very special attention. It is clear that the representation of different classes in the public service is not reasonably just. The Lieutenant-Governor cannot, however, lay the blame for this state of things, entirely or even mainly, on the system of competition. That system has only affected directly a very small percentage of the appointments made. A special examination has indeed been held ; but the appointments to be made otherwise than by pure nomination have not been secured by competition. The plan has been to select by competition only two or three candidates who came out at the top of the list in this special examination, and then to select others from among such candidates as had qualified, no matter what their place on the list. This selection was made at Calcutta. All the candidates who appeared for the competitive examination had to receive permission to do so. There was therefore some security for their being of moral character. But the Lieutenant-Governor could not possibly know them all, so as to be able to compare their claims satisfactorily and select from among them. The figures for the last eleven years (1893 to 1904) have been examined. They show the following as the average number annually appointed by the different methods employed:—

By competition (the men at the top of the list)	3
By selection from among unsuccessful candidates	4
By pure nomination	2
By appointment of officers already in the service	9
Total average per annum	18

This shows that the competitive system cannot be entirely blamed for the state of things which exists. There has really been nomination in regard to two-thirds of the appointments given to outsiders. But that nomination has been conducted in a way which cannot secure a just comparison of the claims of candidates. It has been used no doubt occasionally to reduce inequalities among different races or creeds; but this has necessarily been

done too often without the possibility of judging of the special fitness of the selected candidate. The system of selection at Calcutta, as practised hitherto, is an impossible one. It is necessary to reform the system of recruitment throughout. A notification, No. 3532A., was accordingly published on the 6th August 1904, abolishing the competitive examination. In that notification it was promised that rules for the recruitment for the Provincial and Subordinate Services would be published soon. These rules are appended to this Resolution, and are explained in the following paragraphs.

4. The Lieutenant-Governor has determined to abolish the special competitive examination; because he objects to it in the interests of the University; and he also considers that the whole system of recruitment requires revision on the ground that it is unsuitable as a means of selecting candidates for the public service. There are two points of view therefore from which he is at the present moment considering this question, viz., first in the interests of the University, and secondly in the interests of the public service for which recruiting is made. In regard to the interests of the University, if full weight is to be given to them, it is clear that the University qualification must ordinarily be made a *sine qua non* in regard to the Provincial Service; and this is the course which the Lieutenant-Governor intends to take. There may be exceptional cases where a candidate may be found possessing educational qualifications of a special kind not inferior to the University degree. But the rules have been so framed as to make it clear and definite that, under ordinary circumstances, a degree is essential for the Provincial Service, and also that, *cæteris paribus*, an Honours degree is to be regarded as constituting a higher educational qualification than an ordinary degree. The Lieutenant-Governor will not lay down that an Honours degree shall be insisted on, either throughout the province or in any part of the province, at the present time; because there are parts of the province where selection would be far too limited if an Honours degree were insisted on. Besides this Sir Andrew Fraser sees no reason why, at the present time, it should be made absolutely essential in any part of the province that a candidate for the Executive Services should have an Honours degree; though in all the advanced parts of the province it ought undoubtedly to be expected that men will secure Honours degrees who are aspiring to this career in life.

5. It will be observed that the rules make nomination and selection for the public service with some regard to the number of men required in particular localities, and that the selection is to be made in the localities where the candidates reside. This will in itself tend to advance the interests of higher or University education far more than it is possible to advance them under the present system or by competition. No Behari, Uriya or Muhammadan will have a right henceforward to hope for an appointment to the Provincial Service unless he has a degree; but the men of these comparatively backward communities who have secured degrees will have a reasonable hope of getting into the service. At present such a man, even if he has obtained a degree, feels that he has practically no chance of getting into the service by competition. These members of less advanced races or creeds feel that competition is hopeless. The present system simply deprives them of the hope of getting into the Government service; and, if it deprives them of that hope, it deprives them of one great incentive to push forward and complete their University studies. Sir Andrew Fraser believes, therefore, that the new system will tend to encourage University education in the backward tracts.

6. The Lieutenant-Governor next comes to consider the question in reference to the interests of the public service. In this connection the principal point is that the public service must not be monopolised by one class of officers, who happen to possess a peculiar aptitude for passing examinations. It is desirable that appointments in the service should be open to men of all races and creeds in all parts of the province. Besides this it seems to the Lieutenant-Governor that a system of nomination and selection at the headquarters of the province must necessarily prove wholly unsatisfactory. His Honour therefore proposes to divide the province into sections, and to lay

down that a certain proportion of the recruits required each year shall be nominated for each section. The most convenient method of dividing the province is to take the nine Commissionerships or Revenue Divisions. This is the best method because it ensures that the candidates will be known to the local officers (Commissioners and Collectors) who recommended them. Hitherto efforts have been made to select candidates from lists maintained in the Secretariat. The candidates could only very rarely be known at all to the officers who had to select from among them names to be submitted to the Lieutenant-Governor. His Honour proposes to remedy this by calling on Commissioners to make the nominations. But it might not be fair to give the same number of appointments to every division in the province. For example, to give Chota Nagpur, a comparatively unimportant division in which only seventeen Deputy Collectors are employed (1st July 1904), the same number as the large and important division of Patna, with fifty-six Deputy Collectors; or to give the same number to Rajshahi with thirty-eight as to the Presidency Division with fifty-five; or to give the same number to Chittagong with nineteen as to Dacca with forty three would not on the face of it be fair. Therefore, while the Lieutenant-Governor proposes to make nominations to these appointments by divisions on an all round average, as will be seen hereafter, of one appointment to each division, the smaller and less important divisions, where also a smaller number of officers are employed, will not be asked to nominate one candidate every year; while the larger divisions with a larger number of officers will in certain years be asked to nominate more than one. The number of candidates to be appointed from each division will depend mainly on the importance of the division and on the number of officers of the classes to which appointments are to be made who are employed in that division. As already indicated, appointments will be made only of candidates who possess the necessary educational qualifications. There are, however, other considerations which have to be taken into account; and these will be indicated in the details of the scheme which the Lieutenant-Governor proposes now to set forth.

7. At present the average number of vacancies among Deputy Collectors is nineteen in each year. To fill these it is necessary to appoint twenty probationers. What the Lieutenant-Governor proposes to do is to fill up five of these twenty vacancies by promotions from among Sub-Deputy Collectors, nine from among candidates nominated by Commissioners, three from among candidates nominated by the Syndicate of the University, one from among students of the Provincial Agricultural College, and two either from among officers recommended by the Heads of Departments or from among gentlemen whose cases require special treatment. It is probable that the cadre of the Executive Branch of the Provincial Service will have to be increased, and that there will therefore be one or two more appointments to be made annually. How these are to be filled up will be decided later. The objects which the Lieutenant-Governor has in allotting the appointments in this way are that men who have strong local claims shall not be forgotten; that he shall have an opportunity himself of recognising claims other than purely local claims; and that there shall also be a way open into the service to those who have no claim other than their own capacity as manifested in their University or College career.

8. The method by which nominations are to be made by Commissioners is a matter of great importance. It is necessary that the educational qualification should be carefully borne in mind; and the rules make these essential. But there are other considerations which are not to be overlooked. The candidate must be a lad of good character and associations. The position of his father or family in the district, the respect in which they are held and the influence which they exercise, the services which may have been rendered by his father to the State, his own moral character, his physical fitness, and his manners and apparent possession of such qualities as will make him a good Government officer, are all among the matters to be carefully considered. Every year the Lieutenant-Governor will call upon the Commissioners of Divisions to nominate the number of candidates allotted to their divisions; and the nominations will be made in the following manner. The Collector will recommend two or

perhaps three candidates for his district, as the Commissioner may direct. The recommendation will be accompanied in each case by a statement of the candidate's claims, set forth in writing in the form prescribed by the rules. This form will show the grounds on which the recommendation is made, the sources of the Collector's information about the candidate, and the degree of personal knowledge that that officer has of him and his family. The Collector's office will have nothing to do with filling it up. In making his selection the Collector will naturally consult gentlemen of position and high character, and rely on what he knows to be the best sources of information in his district. But the recommendation will be his own personal recommendation of a candidate to the Commissioner. Now it has been decided, in connection with other matters, that all the Collectors of every division are to assemble with the Commissioner, at least once a year, to discuss questions connected with the administration of the division. The nomination of candidates by the Commissioner will take place at this annual meeting of Collectors. All the Collectors will be together, and the Commissioner will preside. The claims of all the candidates recommended will be discussed at this meeting of Collectors, and all the candidates will be present, one by one, to be seen and conversed with by the Commissioner and Collectors. After this consultation, and inspection of the candidates, the Commissioner will submit his report to the Lieutenant-Governor, giving the names, in order of preference, of the two candidates whom he nominates, and reporting in regard to each of the remainder whether he considers him eligible for appointment or not. All the recommendations of the Collectors will be submitted with this report by the Commissioner. It is distinctly to be understood that the final responsibility for nominations rests with the Commissioner; but it must be exercised after hearing all that Collectors have to say in recommendation of candidates and after seeing the candidates themselves. Ordinarily the Lieutenant-Governor will appoint the candidate whom the Commissioner nominates as the first on his list. But it may be necessary, in view of special circumstances, for the Lieutenant-Governor to select another from amongst the candidates. It is therefore necessary that full information should be given about all.

9. Three appointments are to be filled up from amongst the most distinguished students of the University in each year. The Syndicate will annually be invited to send up six names of men who have been the most distinguished students in the year, who are believed to be of good moral character and physically fit for employment in the Government service. From amongst these the Lieutenant-Governor, after making a careful enquiry as to the character of the nominees, and after ascertaining that they are willing to accept the appointment, and are physically fit for the Government service, will select three. The Lieutenant-Governor will reserve the power, if necessary, to make his selection not merely from the six candidates nominated in a single year, but also from any of those nominated from time to time by the Syndicate, who have not passed the age of twenty-five years. The object of giving these nominations to the Syndicate of the University is that young men of capacity and merit who have had a distinguished University career may be able to make their own way into the Government service. In other words, it is proposed that the three appointments which are now open to competition should be filled from amongst the most distinguished students of the University. The Syndicate are to be asked to assist the Lieutenant-Governor by nominating men from whom he may select, because the Syndicate are well qualified to advise as to who are the most distinguished students of the University, inasmuch as they have information as to the achievements of the students at all stages of their career. The Syndicate in making their nominations will be expected to submit a history of each of the six students during his University life, stating the colleges where he has been educated, the places he has taken in the University examinations, and the various honours and distinctions which he may have won. The test which will guide selection will not be as formerly a special examination for which candidates will specially prepare; but it will be the University examinations connected with a sound educational course of considerable length. It will be some index of character that the candidates have steadily followed that course throughout, and have not flinched from the

labour which it has involved. The fact that there is in this province only one University seems to make this a most reasonable change. For very much the same reason an appointment is to be given to a student of the Agricultural College.

This portion of the scheme is intended as a temporary measure only, until such time as experience shall have been gained of its working. It will be introduced for a period of five years only in the first instance; and it will be open to reconsideration at the expiry of that period.

10. There remain now for consideration the appointments to be made by promotion from amongst Sub-Deputy Collectors (including Excise officers of corresponding rank). These will be made by the Board of Revenue, after consulting Commissioners of Divisions, the Director of Land Records and Agriculture, and the Commissioner of Excise. The Board will send up five or more names, along with extracts from the confidential reports on the officers nominated, as well as the recommendations of the Commissioners and Director of Land Records and Agriculture whom they will have consulted. These appointments by promotion will not depend in the very least on seniority. They will be made solely by selection on account of good work and high character.

11. Finally, there are the two other appointments, reserved to be made by the Lieutenant-Governor himself. These will be filled up after consultation with Heads of Departments, and consideration of the claims of any candidate which are of such a character as to call for recognition by the Head of Government or of any candidate who belongs to any class requiring special representation. The Lieutenant-Governor does not bind himself to any particular method of selection in respect of these two candidates. They will be either officials of other departments or non-officials whom it may seem desirable in the interests of the public service to appoint.

12. The number of Sub-Deputy Collectors at present required is about eight, and the five promotions above referred to will raise the number to thirteen. Appointments to these offices will be made from among candidates nominated by Commissioners precisely in the same manner as is indicated in paragraph 8 of this Resolution, and three will be made by the Board of Revenue by selection from among the officers employed in the departments under it. The remaining Sub-Deputy Collector will be selected from among students in the Provincial College of Agriculture.

Ordered that copies of the Resolution and of the appended rules be forwarded to all Commissioners of Divisions, the Secretaries to the Board of Revenue, Lower Provinces, Land Revenue and Miscellaneous Revenue Departments, the Registrar of the Calcutta University and the Accountant-General, Bengal, for information.

Ordered also that a copy be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,

Offg. Chief Secy. to the Govt. of Bengal.

RULES FOR ADMISSION INTO THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE.

Definition.—The Executive Branch of the Provincial Civil Service includes Deputy Collectors and Deputy Magistrates.

Rule 1.—The Lieutenant-Governor will determine from time to time what proportion of appointments to the Executive Branch of the Provincial Civil Service shall be made (1) by promotion of selected officers who are already in the Subordinate Civil Service, (2) by selection.

Rule 2.—It is estimated that 19 appointments in all on an average can be made annually in the cadre of Deputy Collectors and 20 probationers can be appointed in place of the men appointed to the cadre. These probationers will be appointed in accordance with the following rules.

Rule 3.—Five of these appointments will be made by promotion from the Subordinate Civil Service The Lieutenant-Governor is prepared to receive on the 1st of October every year five nominations from the Board of Revenue, who will consult Commissioners of Divisions, the Commissioner of Excise and the Director of Land Records and Agriculture before submitting them.

The age of an officer nominated under this rule should not exceed 40 years.

Rule 4.—The Lieutenant-Governor will retain two appointments in his own hands.

Rule 5.—Thirteen nominations shall be made annually on the 1st of October by the following officers:—

Commissioners of Divisions, average of one each	...	...	9
The Syndicate of the Calcutta University ...	...	...	3
Principal, Provincial Agricultural College ...	...	...	1
	Total	...	13

Rule 6.—The indispensable qualifications for candidates for appointments under Rule 5 are (1) that the nominee is a natural-born subject of His Majesty or of a Native State; (2) that he is not under 20 or over 25 years of age; (3) that he is of good character; (4) that he is a graduate; and (5) that he is of sound health, good physique and active habits, and free from organic defect or bodily infirmity.

Rule 7.—Europeans who do not satisfy the definition of Native of India, contained in section 6, Statute 33, Victoria, Chapter 3, are not eligible for appointment to the Provincial Service without the previous sanction in each case of the Government of India. With such sanction they may be appointed if they are qualified under the conditions mentioned in Rule 6.

Rule 8 (a).—Every District Officer* will submit to the Commissioner, on or before a date to be fixed by the latter, the names of two or three candidates (as the Commissioner may direct) belonging to families resident or domiciled in his district, for the Provincial Civil Service. In submitting these names he will give, in the Form A appended to these rules, a brief statement of the grounds of his recommendation in each case. The nominees under this rule must be non-official, but this does not exclude the nomination of Honorary Magistrates.

(*b*) Form A must be accompanied by a certificate of the Registrar of the University that the candidate has obtained a degree, a certificate of character and conduct from the Principal of the institution at which the candidate last studied for not less than one year or from some responsible officer of Government, a medical certificate in accordance with the requirements of article 49 of the Civil Service Regulations, and evidence of the candidate's age.

(*c*) The Commissioner and all the District Officers of the division will meet on a date to be fixed by the Commissioner, and will consider the claims of all the candidates nominated. They will also call the candidates before them, and see and converse with them so as to form an opinion regarding their suitability for the public service. The Commissioner will then select two names and submit them in order of preference to the Lieutenant-Governor. With his report submitting these names, the Commissioner will submit Form A for all candidates, entering in each case, in the last column of that Form, his own opinion as to the suitability of the candidate.

(*d*) Every candidate nominated by a Commissioner must be domiciled in his division, or, if the nominee himself be resident outside the division for the purpose of education, his family must be resident or permanently domiciled in the division. In making nominations special attention should be paid to the importance in the division of the community to which the nominee belongs, to social qualifications and family status and influence, to services rendered by the candidate's father, and to distinctions obtained in the University.

Rule 9.—One Probationary Deputy Collectorship will be filled yearly by the Lieutenant-Governor by selection from the successful students of the Provincial Agricultural College.

Rule 10.—The Syndicate of the University will be invited annually to nominate six graduates of high character whom they regard as the most distinguished students of the year. From amongst these the Lieutenant-Governor will, after enquiry, select three persons to be Probationary Deputy Magistrates, or from amongst graduates previously nominated under this rule by the Syndicate and who have not passed the age of 25 years.

* In the Presidency Division this term includes the Chairman of the Calcutta Corporation.

Rule 11.—All candidates for admission to the Provincial Service must furnish satisfactory evidence of a thorough knowledge of at least one of the vernacular languages of the Province. The Lieutenant-Governor will require all candidates (other than officers promoted from the Subordinate Civil Service) who have not already furnished such evidence at some recognized examination, to pass a special examination in either Bengali, Hindi, Urdu, or Uriya before appointment. The object of the examination will be to test the candidate's knowledge of the language and ability to write and read the written character with facility.

The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c., written in manuscript.

(2) Translation from English into the Vernacular selected.

Rule 12.—Every Probationary Deputy Collector must furnish, either before appointment or within a specified time after appointment, a certificate of his ability to ride signed by a District Officer or by the Joint-Magistrate in charge, or by the Commissioner or Deputy Commissioner of Police, Calcutta.

Rule 13 (*a*).—The minimum term of probation will be six months. On termination of that period, appointments will be given to approved probationers as vacancies in the cadre occur.

(*b*) Probationers, other than promoted Sub-Deputy Collectors or officers from other departments, will receive a subsistence allowance of Rs. 100 per mensem. Promoted officers will receive the full pay of Deputy Collector according to rule.

Rule 14 (*a*).—An appointment given under Rule 13 (*a*) will not be finally confirmed unless and until the officer receiving it passes the first standard of examination under existing rules, or under any other rules which may hereafter be passed by the Government.

(*b*) Any officer who does not pass by the first standard of examination, at or before the first examination held two years after his first appointment as probationer, will be liable to be removed, unless it shall be shown that any special circumstances entitle him to consideration; and if he does not pass within a year subsequently, unless prevented by sickness or other circumstances really beyond his control, he will without fail be removed from the service.

(*c*) Officers will be expected to pass by the second standard of examination within two years of the time of their passing by the first standard, and if they fail to do so, the propriety of retaining them in the public service will be considered.

Rule 15.—Promotion to grades below that on Rs. 500 a month will ordinarily be given according to seniority, subject to fitness and approved conduct. But the Lieutenant-Governor reserves to himself the right to make promotion to the senior grades of the Provincial Service by special selection for merit without regard to seniority, and hereby declares that seniority alone shall not give a claim to appointment to the grade on Rs. 500 or higher grades.

Rule 16.—No member of the Provincial Service shall be dismissed otherwise than on the result of a judicial or formal departmental enquiry.

RULES FOR ADMISSION TO THE SUBORDINATE CIVIL SERVICE.

Definition.—The Subordinate Civil Service includes Sub-Deputy Collectorships and any other appointments which the Lieutenant-Governor may from time to time specifically declare to be included therein.

Rule 1.—Ten appointments of Probationary Sub-Deputy Collectors on a subsistence allowance of Rs. 50 per mensem will be made annually. Nine of these appointments will be made from among nominations by Commissioners of Divisions made in the manner prescribed in rules 6 and 8 of the rules for admission into the Executive Branch of the Provincial Civil Service; and the Lieutenant-Governor will select one candidate from among the successful students of the Provincial Agricultural College.

Rule 2.—Rules 13 and 14 of the rules for admission into the Executive Branch of the Provincial Civil Service apply *mutatis mutandis* to the Subordinate Civil Service also.

Rule 3.—Three appointments will be made on the nomination of the Board of Revenue from among officers serving in departments under them. A nominee under this rule must not ordinarily exceed 40 years of age.

FORM A.

Column 1.—Name of candidate.
" 2.—Father's name.
" 3.—Caste.
" 4.—Age last birthday.
" 5.—Educational qualifications.
" 6.—Other information regarding the candidate (physique, moral character, &c.).
" 7.—Special claims for consideration.
" 8.—Remarks indicating degree of Collector's personal knowledge of candidate and sources of information about him.

RESOLUTION CONTAINING THE ORDERS OF THE GOVERNMENT ON THE SUBJECT OF THE ACCEPTANCE OF GRATUITIES BY MEMBERS OF THE BENGAL PILOT SERVICE.

No. 2047 Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated the 21st December 1904.

RESOLUTION.

THE attention of the Lieutenant-Governor has been drawn to the fact that in certain cases gratuities have been paid to Pilots. He has caused enquiries to be made; and he has found that one shipping firm admits having paid such gratuities. Four Pilots have also admitted, in reply to a circular inquiry addressed to them by the Port Officer, that they have received gratuities. The circumstances of the enquiry are such as to show that these Pilots did not appreciate the gravity of the offence which they were committing; and they themselves frankly acknowledged the offence without any evidence having been brought against them. The Lieutenant-Governor, therefore, does not propose to punish them on this occasion.

2. His Honour desires that the attention of all Pilots should be specially drawn to Rule 18 of Chapter VIII of the Pilot's Code, which runs thus:—"Pilots or Leadsmen shall not, on pain of dismissal from the service, seek or receive any gratuity from Masters, owners or agents of vessels, directly or indirectly." The Lieutenant-Governor considers that the receipt of gratuities is a scandal to the Pilot Service. He believes that the receipt of such gratuities is now of comparatively rare occurrence. And he directs that any Pilot against whom it is proved that he has received, directly or indirectly, any bonus or gratuity from the Commander, owner or agent of any vessel shall be immediately dismissed from the service.

3. Copy of this Resolution will be sent to the Chairman of the Bengal Chamber of Commerce, with the request that he will kindly cause it to be circulated to all shipping owners and companies, for whose cordial co-operation the Lieutenant-Governor hopes in suppressing entirely this scandalous practice.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Secy. to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 4 hours preceding 8 A.M. of that day

o, overcast; d, drizzling rain; ⌓, dew.
